PROGRESS THROUGH U N I T Y

British American Tobacco Bangladesh, being a responsible Company, strives to make a difference. We believe, leadership equals to action, and it results in addressing three critical areas while undertaking our business – value generation for all partners and the community we operate, follow and exemplify ethical business practices across the business value chain and world-class human capital development.

We believe that we have a significant role to play in fulfilling the socio-economic potentials of the nation. While maintaining our sustained partnership as the largest private sector taxpayer to the national exchequer, we take part in meaningful activities towards achieving the Sustainable Development Goals and the Vision of the Government through our leading initiatives, such as skill development, gender equality, sustainable energy solutions for off-grid areas, afforestation, pure drinking water for localities in ominous need and eco-friendly business operations across the value chain.

ABOUT US

The presence of British American Tobacco in this part of the world can be traced back to 1910. Beginning the journey as Imperial Tobacco 107 years ago, the Company set up its first sales depot at Armanitola in Dhaka.

After the partition of India in 1947, Pakistan Tobacco Company was established in 1949. The first factory in Bangladesh (the then East Pakistan) was set up in 1949 in Fauzdarhat, Chittagong. In 1965, the second factory of Pakistan Tobacco Company went into production in Mohakhali, Dhaka. It became Bangladesh Tobacco Company Limited in 1972 immediately after Bangladesh's independence. In 1998, the Company changed its name and identity to British American Tobacco Bangladesh (BAT Bangladesh or BATB) aligning the corporate identity with other operating companies in the British American Tobacco Group.

BAT Bangladesh is a subsidiary of BAT plc, world's leading tobacco group, with brands sold in 200 markets around the world. We make high quality tobacco products for the diverse preferences of consumers, spanning the business 'from seed to smoke', and we are committed to embedding the principles of corporate social responsibility through our responsible business operation.

Our Shareholders

We were among the first companies to be listed on the Dhaka and Chittagong Stock Exchanges and currently rank 3rd in terms of market capitalisation. British American Tobacco Group holds 72.91% of the shares; 10.19% is owned by Investment Corporation of Bangladesh; Shadharan Bima Corporation, Bangladesh Development Bank Limited and the Government of the People's Republic of Bangladesh while a further 16.90% is owned by other shareholders.

Our Contributions

We continue to contribute approximately two-thirds of the revenue derived from the cigarette industry. In 2017 calendar year, BAT Bangladesh contributed over BDT 16,427 crore as taxes to the National Exchequer, which makes us one of the highest taxpayers to the Government. The Company will continue to support Government proposals that establish a sustainable level of tax contribution to the National Exchequer while ensuring a sustainable growth for the industry.

Our Beliefs

At BAT Bangladesh, we strive to be a responsible Company wherever we operate - be it to our shareholders, employees, business partners or any other relevant internal and external stakeholder. To us, responsibility is a way of life and that is why we believe success and responsibility go together.

Our People – Our Strength

Employing around 1,500 people directly, engaging approximately 50,000 people indirectly as farmers, distributors, local suppliers and over 1.3 million retailers performing in our business, we take great pride in saying that BAT Bangladesh is one of the most preferred employers in the country. It is the people who bring their differences every day that make BAT Bangladesh a great place to work in.

VISION AND MISSION

OUR VISION

World's best at satisfying consumer moments in tobacco and beyond.

Satisfying consumer moments

We believe that by being the world's best at satisfying consumer moments, we will become the leader in our industry. Consumers are at the core of everything we do and our success depends on addressing their evolving concerns, needs and behaviours.

Tobacco and beyond

The second part of our vision – tobacco and beyond – recognises the strength of our traditional tobacco business and the opportunities we see in Next Generation Products. This is a great potential business opportunity because consumers are looking for choices and product categories in which we are uniquely placed to succeed.

OUR MISSION

Delivering our commitments to society, while championing informed consumer choice.

Champion informed consumer choice

We need to continue to ensure that our adult consumers are fully aware of the choices they are making when they purchase our products. We recognise that we have a responsibility to offer a range of products across the risk continuum, but we will also defend people's right to make an informed choice.

Deliver our commitments to society

As society changes and priorities and needs shift, we must be ready to meet new challenges and take advantage of new opportunities. We are a major international business and with this status comes responsibilities such as developing less risky products, being open about the risks of all our products, supporting agricultural communities in leaf-growing areas worldwide and minimising our impact on the environment.

STRATEGIC FOCUS AREAS

The foundations upon which our strategy is built have been in place for many years, but we continue to refocus our activities in all four areas and constantly review our ways of working.

Growth

Developing brands, innovations and new products to meet consumers' evolving needs.

Productivity

Effectively deploying resources to increase profits and generate funds for investment.

Winning organisation

Ensuring we have great people, great teams and a great place to work.

Sustainability

Ensuring a sustainable business that meets stakeholders' expectations.

(BAT Bangladesh's vision, mission and strategic focus are in line with the BAT group)

GUIDING PRINCIPLES

Our Guiding Principles provide clarity about what we stand for. They form the core of our culture and guide how we deliver our strategy.

ENTERPRISING SPIRIT

We value enterprise from all of our employees, giving us a great breadth of ideas and viewpoints to enhance the way we do business. We have the confidence to passionately pursue growth and new opportunities while accepting the considered entrepreneurial risk that comes with it. We are bold and strive to overcome challenges. This is the cornerstone of our success.

OPEN MINDED

Our corporate culture is a great strength of theZ business and one of the reasons we have been, and will continue to be, successful. We are forward-looking and anticipate consumer needs, winning with innovative, high-quality products. We listen to, and genuinely consider, other perspectives and changing social expectations. We are open to new ways of doing things.

FREEDOM THROUGH RESPONSIBILITY

We give our people the freedom to operate in their local environment, providing them with the benefits of our scale but the ability to succeed. We always strive to do the right thing, exercising our responsibility to society and other stakeholders. We use our freedom to take decisions and act in the best interest of consumers.

STRENGTH FROM DIVERSITY

We respect and celebrate each other's differences and enjoy working together. We harness diversity – of our people, cultures, viewpoints, brands, markets and ideas – to strengthen our business. We value what makes each of us unique.

OUR BUSINESS MODEL

WHAT WE DO

Essentially, we make and sell cigarettes, but there is definitely a lot more to it than that. Our sustainable approach to sourcing, production and distribution helps us to create value for a wide range of stakeholders. They include farmers and their communities, suppliers, retail and wholesale trade partners, NGOs, governments, regulators and the society at large.

Our People & Relationships

We employ around 1,500 people directly and approximately 50,000 people indirectly as farmers, distributors, local suppliers and over 1.3 million retailers. We take great pride that BAT Bangladesh is one of the most preferred employers in the country. It is the people who bring their difference every day that make BAT Bangladesh a great place to work in. In the last year, we once again ensured that our contribution to the Government is very significant by paying BDT 16,427 crores to Government exchequer. We encourage a culture of personal ownership and value our employees' talents. Their diverse perspectives help us to succeed and we recognise their critical role in achieving the goals we set for our business. We value what makes each of us unique.

Source

What We Do

We don't own tobacco farms, but we provide agronomy support through our extensive services. The Company's Leaf function starts with the hard work of around 34,500 registered farmers within the village community.

What Makes Us Different

- We have implemented the policy on Sustainable Tobacco Programme with an aim to apply the best local and international practices in the areas of Agronomy, Leaf Depot Operations, Leaf Processing Operations, Environmental Management, Human Rights, Occupational Health and Safety Standards encompassing its Leaf Operations.

Produce

What We Do

Manufacturing tobacco products is a large-scale operation and we have state-of-the-art manufacturing facilities in the country. We work to ensure that our costs are competitive and that we use our resources as effectively as possible.

What Makes Us Different

- Our production facilities are designed to meet the needs of an agile and flexible supply chain, providing a world-class operational base that is fit for the future.
- To meet the market needs and to improve the quality and future export potential of our products, the manufacturing facility has to undergo balancing and modernisation and as such investment has been made day to day.
- Ensuring leaf and products in right place at the right time at the right quantity is a formidable logistical exercise for which BATB is highly committed.
- The nature of our business allows us to pool resources on a global scale and maximise efficiency.

Market

What We Do

We produce a range of products including: Benson & Hedges, John Player Gold Leaf, Pall Mall, Capstan, Star, Derby, Pilot and Hollywood. Our range of products covers all segments, from low to premium.

What Makes Us Different

We have a successful brand strategy based on sound consumer insights.

Our portfolio of a good number of international as well as local brands is designed to meet a broad array of consumer preferences around the country, with the idea of delivering today and investing for tomorrow.

Distribute

What We Do

Our well-developed distribution channels are critical enablers of our growth strategy, allowing us to roll out innovations on a big scale.

What Makes Us Different

- We continuously review our route to market, including our relationships with wholesalers, distributors and logistics providers.
- We encourage to embed best practices at the distributor end as well, to ensure regulatory compliance of the cigarette industry as a whole.
- After meeting our domestic need and in line with the government policy, we are exploring tobacco leaf and further exploring opportunities to export tobacco related products.

Consumers

We place consumers at the heart of our business. We invest in world-class research to understand changing consumer needs and buying behaviour. This drives our supply chain, product development, innovations, brands and trade activities. We aim to satisfy consumers while addressing stakeholder expectations about how we should sell our products. We are developing innovative solutions to evolve our brand portfolio and create more differentiated products. This supports our aim to champion consumer choice and provide a range of products.

Innovation

We make significant investments in research and development to deliver innovations that satisfy or anticipate diverse preferences of consumers and generate growth for the business. We also research, develop and test new products to meet changing consumer needs. Specific targeted investments in new ventures, R&D projects, equipments and services all play a role in our short-term success and in the long-term development of our organisation. They support our strategic ambitions of achieving sustainable growth and working more productively by opening up new ways of working, helping to define new product areas and providing new opportunities for our people. We have research programme and our own laboratory plays a useful role in regular quality control and new innovations. Our work with scientists and public health professionals aims to secure widespread support for tobacco harm reduction, including the regulatory changes needed to bring reduced-risk products to market.

CHAIRMAN'S STATEMENT

"Despite various challenges faced by the Company, the Board of Directors and Management ensured sustainable growth in the business and committed to deliver long term value with integrity to the shareholders and other stakeholders. The Company believes, corporate governance coupled with strong ethics and integrity is very vital for sustainability of the Business"

Golam Mainuddin
Chairman

British American Tobacco Bangladesh

Dear Shareholders,

As a corporate citizen with more than a hundred years of proud legacy, the Company remains committed to contribute to the economy of this country. Despite various challenges faced by the Company, the Board of Directors and Management ensured sustainable growth in the business and committed to deliver long term value with integrity to the shareholders and other stakeholders.

Sustainable Growth

A core part of being a sustainable business is operating with integrity and responsibility while maximising value for the consumers, our customers and our shareholders. Our leading brands, efficient operating model and significantly improved capabilities will continue to be our key driver for sustaining our leadership in the tobacco market.

In addition to our continued investment in our brands improvement, our systems and our people, we developed our sustainability agenda, sustainable agriculture and farmer livelihoods, and corporate behaviours. This ensures our commitment towards focusing our efforts where it matters most for our stakeholders and consequently our business sustainability.

We would like to assure you that we are giving top most priority in respect of the retrospective claim of VAT and Supplementary duty by Large Tax Unit of National Board of Revenue (NBR) on our brands Pilot and Bristol. The matter is currently pending at the honourable Appellate Division of Supreme Court.

Business Performance

The Company has achieved expected growth in all aspects. Our brand portfolio was strengthened through innovations, an outstanding range of high-quality products and excellent retail level executions. The overall Company performance in 2017 was driven by revenue growth, increased market shares, effective cost management, productivity improvement and machine utilisation initiatives across the Company. The improved result could be achieved due to hard work of our People, guidance of our Board of

Directors, dedication of our Executive Committee members and leadership of our Managing Director who led the business to deliver such results.

Sales volume marginally increased in the top three segments, while the low segment brands also showed an expected performance. This increase was driven by volume growth resulted from the government's initiative to limit downtrading by reducing the price gap between the top segments and the low segment. The Government has also taken initiatives to address the Anti Illicit Trades during 4th quarter of 2017 and this needs to be continued on a regular basis.

Strategic Investments

In order to meet the commitment of delivering long-term value to our shareholders, the Company has invested in the capacity enhancement of our production facilities, safety of our people and machinery as per the need of business which will ensure sustainable future growth. Your Company is exploring opportunities to export the primary manufacturing of tobacco which will also bring foreign currency in the country.

Sustainability of Government's Revenue Growth

The Company recognizes Government's revenue growth targets and the industry has been working with the NBR over the years to ensure sustainable revenue growth from the cigarette industry. Your Company contributed 74% of the total taxes collected from the Cigarette industry. In 2017, the Company contributed BDT 16,427 crore as taxes to the national exchequer which makes your Company the highest tax payer in the Country. This represents an increase of BDT 2,796 crore. The Company will continue to support Government's proposals that help to establish a sustainable level of tax contribution to the National Exchequer while ensuring a sustainable growth for the industry and promoting a level playing field among market players. Since this is a matured industry, it must not be stretched too far without considering the market dynamics and its ability to absorb price elasticity.

Tobacco Taxation Policies & It's Challenges

Tobacco pricing policies of the Government is very much challenging compared to other industries. The Company recognizes Government's revenue growth targets and the industry has been working with the National Board of Revenue (NBR) over the years to ensure sustainable revenue growth from the cigarette industry. However, while listed companies in all other sectors enjoy a differential Corporate tax rate, the same privilege was withdrawn by the Government for listed Cigarette companies. The 45% corporate tax in this sector is unjustified from the shareholders point of view and will hinder the future growth of capital market. Cigarette is already highly taxed (in the form of Supplementary Duty, VAT and HDSC) and there is no instance of discriminated corporate tax rates anywhere in the world for Tobacco Companies wherever it is listed in the Stock market. We continue to appeal to the regulators for a reversal of the position in the next national budget.

Board of Directors

The Board of Directors of the Company consists of nine Directors. Out of the nine members in the Board, seven are non-executive Directors including two independent Directors and most of whom are also Senior Secretary/ Secretaries of the Bangladesh Government. Throughout different Board meetings during the year, your Board has considered and approved different important business proposals to ensure sustainable business growth and played a catalytic role in protecting your interests. The Board assessment of the key risks and uncertainty facing the Company broadly remains unchanged particularly regarding tax rate increase, anti-tobacco activities leading to illicit trade, regulatory drives etc. I sincerely thank all our Board Members for their support and contributions which enabled the Management to achieve sustainable results during 2017.

Audit and Governance Compliance

During the last AGM for the year 2017, the shareholders of BATB reappointed KPMG

Rahman Rahman Huq, Chartered Accountants as the statutory auditors. Besides, Corporate Governance Compliance Audit was carried out to ensure the fulfilment of the requirements of Bangladesh Securities and Exchange Commission (BSEC) Guidelines and certification to that end was issued by Al-Muqtadir Associates, Chartered Secretaries.

Guiding Principles

Our Guiding Principles are derived from the core of our culture and it guides us to deliver our strategy and provide clarity about what we stand for. They guide our behaviours and describe how they are aligned with our vision. The principles also underpin our approach to good Corporate Governance, which are set out in the governance section of the Directors' Report. The Standards of Business Conduct reflects our commitment to good corporate behaviour and guides our employees to act with a high degree of business integrity, comply with applicable laws and regulations, and ensure that our standards are not compromised for the sake of results.

Recognitions

The Company believes that corporate governance coupled with strong ethics and integrity is very vital for the sustainability of Business. Your company is proud to be recognised locally by the Institute of Chartered Accountants of Bangladesh, Institute of Cost and Management Accountants of Bangladesh and Institute of Chartered Secretaries of Bangladesh and Internationally by the South Asian Federation of Accountants for practicing and implementing Good Governance. Apart from that, we are also recognised by the National Board of Revenue as the Highest Tax payer in the country.

Moreover, your Company achieved 5 international awards, such as:

1. CEO of the year Award
2. Leadership Excellence in Community Services Award
3. Diversity Impact Award
4. Adam Smith Award, and
5. Asia Responsible Entrepreneurship Award

The Company was also recognised with the following local accolades:

1. Best Corporate Social Responsibilities Practice Award
2. Dream Company to Work for
3. Best HR Event of the Year
4. Best Recruitment Evaluation Technique
5. 20 local government awards for afforestation in different districts.

Future Prospect

We are working hard for continuous improvement in our business that will generate funds to invest in our brands, helping us to grow our business, deliver higher returns for the shareholders and contribute more to the society at large. However, as we proceed, we see newer challenges in 2018. But we are confident to overcome the challenges by the combination of our commitment, product investment and support of the regulators through establishment of sensible regulations. All our efforts are complementing Government's

continuous journey towards newly assigned Sustainable Development Goals and vision of the Government.

Appreciations

I wish to thank our team and all employees of the company for their tremendous passion, resilience and hard work in delivering value for our shareholders and all other stakeholders. All these efforts have been reflected on the success of 2017. On behalf of the Board of Directors, I wish to convey my appreciation to all our shareholders, customers, distributors, investors, business partners, stakeholders and relevant authorities of the Government of the Peoples' Republic of Bangladesh for their support and cooperation. I am confident that we have the right strategic focus, people and resources to deliver continued sustainable growth in the years ahead.

Thank you.

STEPPING UP TO CLIMATE CHANGE

Curbing climate change is a primary concern of BAT Bangladesh while it strives to support the Government of Bangladesh's initiatives of achieving the Sustainable Development Goals of preserving our natural treasures. BATB also fully comprehends the potentially extreme adverse effects on BATB's own operations of tobacco sourcing and product distribution, and so through its CSR programmes of Afforestation (Bonayon) and Safe Drinking Water (Probaho), BAT Bangladesh is playing a pivotal role in achieving the SDGs and securing access to crucial resources that will ensure the sustainability of BAT Bangladesh in the future.

A GLOWING YEAR

CONTRIBUTION TO THE SHAREHOLDERS	CONTRIBUTION TO THE GOVT
Net Profit BDT 783 crore + 3.3% increased	Paid BDT 16,427 crore + 21% Increased

Dear Shareholders,

Amidst a grossly uneven and fiercely competitive market, 2017 was still a very successful year for the Company. The operating results of the Company are testament to our commitment to deliver a sustainable shareholders return. Alongside our financial performance, vis-a-vis our contribution to the national exchequer, we have contributed for successive years towards development of skilled and creative human resources, inclusive work culture, transparent and accountable governance, globally integrated work practices and environmentally sustainable business operations. Those all generate cumulative returns for the shareholders.

BUSINESS RESULTS FOR 2017

The Management is pleased to report another outstanding year of revenue, profit and earnings growth, driven by a successful strategy and winning culture despite a very challenging competitive environment.

This success is reflected in an increase of BDT 3,851 crores (23%) in the Gross Turnover of the Company for 2017 at BDT 20,414 crores. This increase was driven by value growth resulting from the progressive price and tax policy of the Government. As a result, BDT 2,796 crore was added in government revenue and helped the Company to deliver excellent growth in turnover. Accordingly, Profit before Tax at BDT 1,675 crores increased by 27% due to increase in sales and well managed costs. Net profit after tax at BDT 783 crores increased by only 3.3% due to the imposition of additional 2.5% surcharge on Income. The Company contributed BDT 16,427 crore to the Government exchequer, an increase of 21% over last year which sustains our position as the largest taxpayer in the country. BATB is very proud to lead the tax compliance journey of the cigarette industry, while delivering sustainable shareholders return.

Contribution to our shareholders return through unmanufactured tobacco export amounting to USD 27 million (BDT 219 crore) continued in the year 2017. We believe there are further export opportunity from Bangladesh and we seek an export friendly tax policy in the coming years.

Our People – Our Strength

Employing around 1,500 people directly and engaging approximately 1,350,000 people indirectly as farmers, distributors, suppliers and retailers, we take great pride that BAT Bangladesh is one of the most preferred employers in the country. The Company is committed to creating a workforce that will not only bring success for the Company but also bring about a positive change to the society. In line with this, international work assignments were given to Bangladeshi managers in countries such as UK, Singapore, Indonesia, Japan, Korea, Hong Kong and Australia. Our talented and experienced factory employees went abroad to train up the factory operators in other countries such as Poland, Singapore, Fiji, Indonesia and UK. The Company promotes diversity and thus, there is currently 13% female representation within the workforce, with 29% of the company leadership roles being held by female talents. In this respect, the Company has been awarded as the 'Most Female Friendly Organisation' in 2017.

PRODUCTS AND SERVICES

We recognise that the tobacco industry has entered a dynamic period of change. Increased public health awareness, new societal attitudes and technological developments have all combined to create a unique opportunity to provide our consumers with a high range of product options. The business has maintained its focus primarily on the production and sale of cigarettes through our portfolio of leading brands like Benson & Hedges, John Player Gold Leaf, Pall Mall, Capstan, Star, Derby, Pilot and Hollywood.

OUR APPROACH TO SUSTAINABILITY

Our strategy is to deliver growth with integrity while generating sufficient funds to invest for a sustainable future. I am confident that we have the right brands, people and focus on efficiency to ensure sustainable value for the shareholders. We are committed to continue our activities focused in all four areas of growth, productivity, winning organisation and sustainability. 2017 has bestowed us with many proud moments through local as well as international recognitions for numerous merits in Corporate Governance, Corporate Social Responsibilities, process excellence and Human Resources Development.

Government's robust development strategy is taking the nation towards great prosperity. This is reflected in the progress of the economy which has made the nation eligible to be regarded as a developing country by the United Nations. The Company is proud to play its part in this journey by directly contributing around BDT 60,000 crores in taxes to the national exchequer in last 5 years. We will continue to be a significant contributor to the nation in its bid to become a developed country by 2041.

OUR APPROACH TO GOVERNANCE

Good governance has long been a key priority for the Company. We meet all our obligations under the various frameworks by which we are bound to comply with the law, while also ensuring that the Company is delivering results with integrity.

OUR CONCERNS

CORPORATE TAX RATE

The tobacco sector is already heavily taxed in the form of Supplementary Duty, VAT and Health Development Surcharge. This accounts on average for 74% on our Gross Turnover. In the Premium segment the indirect taxes amounts to 81% of the price. The 45% corporate tax in this sector is by far the highest in the country and unjustified from the shareholders point of view. Despite being a publicly listed company, BATB has been long disadvantaged from the 10% concession of corporate tax. Moreover, Government imposed an additional 2.5% surcharge on top of our current tax rate of 45%. Such tax on tax is against the principle of encouraging investors' confidence in the stock market. This amounted to a 60% increase in taxation in 2017. The Company believes that the Government will reinstate investment friendly, pragmatic and prospective taxation policies in the upcoming national budget for the sustainability of the industry and its shareholders.

ILLEGAL CIGARETTE TRADE

Illegal cigarette brands remain a threat to the revenue growth of the Government and sustainability of the industry. Government has conducted a few successful enforcements against illegal cigarettes during second half of 2017 and we hope it will be continued on a regular basis. We urge the government to review the Legal/ policy/ enforcement framework further to ensure integrated enforcement approach and exemplary penalties for all involved in such illegal trade of tobacco products.

OUR COMMITMENT

BAT Bangladesh strives to make a positive change within and around its business operations. We are committed to the social and economic development of the nation. As one of the leading foreign direct investments in the country and the highest revenue contributor in the private sector, we are committed to creating sustainable value for all our shareholders, partners and the community we operate in while sustaining an

exemplary ethical practice across the business value chain with our world-class human capital. All our efforts are complementing Government's continuous journey towards Sustainable Development Goals (SDG) and the vision for the nation.

OUR GRATITUDE

I express my sincere thanks to all our valued shareholders, business partners, retailers and

farmers for their confidence in us and valuable contribution to the Company throughout 2017. The guidance from our Board of Directors has always been instrumental in shaping the success of the Company. Also, we are grateful to millions of our consumers who have been with us, along with their choices and dedication towards us and our brands. We believe passionately in building value for our consumers and shareholders.

CORPORATE

GOVERNANCE STATEMENT - 2017

Being a progressive business organisation, BATB maintains that good governance is good business and with that as its strength, the Company puts persistent efforts to ensure stakeholders' trust and confidence as governance and stakeholders' value are interrelated.

The Board of Directors of BAT Bangladesh is aware that enriched corporate governance ultimately helps win stakeholders confidence. With that maxim, it also acknowledges that responsibility, compliance, transparency, and finally accountability are the essence of good governance and which are to be established by means of an effective corporate governance regime. With that aim the Board ensures the integrity and commitment of its employees, supported by a comprehensive framework of policies, guidelines and internal controls. In this Statement of Corporate Governance, we, therefore, wish to provide insights to the shareholders, investors and other stakeholders on the corporate governance initiatives in the Company.

The Governing Board

The Board of Directors of BATB is the ultimate authority in the Company and provides leadership necessary for the Company to meet its business objectives within the framework of its internal controls, while also discharging the Company's obligations to its shareholders. In that pursuit, the Board strives to attain the highest standards of Corporate Governance (CG) as it will serve to strengthen the Company's sustainability, organisational effectiveness and foster a high-performance culture within the organisation and that is why the BATB Board is comprised of nine (9) very resourceful persons, and includes core competencies considered relevant in the context of the Company. To further ensure a balanced representation, the Board also includes Independent Directors, who bring in different expertise to the Board and whose values are aligned with that of the organisation. The Board of Directors of the

Company, in cultivating a responsible organisation, ensures that it adopts and practices in accordance with the principles and recommendations of the Corporate Governance Guidelines of Bangladesh Securities and Exchange Commission (BSEC) and the Company's own governing Principles.

In pursuing its corporate objectives, the Board in BATB believes that good business is good development and vice versa. With that spirit, the Board of Directors of the Company remains committed to high standards of governance in cultivating a responsible organization that adopts and practices in accordance with the principles and recommendations of the Corporate Governance Guidelines of Bangladesh Securities and Exchange Commission (BSEC) and the Company's own governing Principles. The Board recognizes that maintaining good corporate ethics is critical to business integrity and performance, and key to delivering shareholders' value.

Corporate Governance is a term that refers broadly to the rules, procedures and laws by which businesses are operated, regulated, and controlled in order to ensure the interest of the stakeholders of a corporate body. This is central to the continued strong performance of business in a manner which is sustainable in the long term and gains the continued confidence of investors. At BATB, we recognise that governance is three-way traffic it involves stronger attention to business, all operations being transparent and invites larger involvement of the stakeholders. And then, as we move on, we focus on it further by accepting that governance mechanisms are established not only to ensure a satisfactory return on investment for shareholders, but also to contribute positively to the society at large. In order to achieve the goal of good governance, BATB is committed to:

- ▶ Disclosing its corporate governance principles and practices openly and fully; and

- ▶ Continuously improving its principles and practices considering its experience, regulatory requirements, international developments and investor expectations.

The Company is dedicated and committed to managing its business responsibly amidst a challenging environment for the tobacco industry and the awards and achievements that the Company has received are testimony of such dedication and commitment. In 2017, the Company was awarded for corporate governance by SAFA, ICAB, ICMAB & ICSB. For details of these awards and achievements, please refer to page 152 to 163 of this Annual Report.

Corporate Governance Framework

BAT Bangladesh's Corporate Governance framework has been developed and enhanced based on the basic principles and best practices outlined in the following:

- ▶ Bangladesh Securities and Exchange Commission (BSEC) Notification on Corporate Governance;
- ▶ The Companies Act 1994 and other applicable regulations of Bangladesh; Dhaka and Chittagong Stock Exchanges Listing Regulations;
- ▶ Laws of the land;
- ▶ Standards of Business Conduct, Policies and Guidelines of the Company;
- ▶ Statement of Risk Management Internal Control of the Company;
- ▶ Statement of Delegated Authorities of the Company; and
- ▶ Local and global best practices.

The Board also continuously reviews its corporate governance frameworks to ensure its relevance, effectiveness and sustainability in addressing future business challenges.

The conducts of all employees of the Company, including the Board of Directors, are governed by the Company's policies, guidelines and Standards of Business Conduct. Each and every employee, including Directors, is expected to live up to the structure of Business Conduct and required to confirm their commitment and compliance by executing a declaration of compliance annually.

The Standards of Business Conduct are constantly reviewed by the Board from time to time, as part of efforts to enhance application of the highest standards of governance in line with

best global practices. The 'Standards of Business Conduct' was last updated and revised by the Board in November 2014. In addition to the Standards of Business Conduct, the Company is also guided by the Company's Statement of Business Principles. The Business Principles cover key matters that underpin Corporate Responsibility (CR) for a multinational business and more particularly, the unique characteristics of a tobacco business. The three Business Principles are Mutual Benefit, Responsible Product Stewardship and Good Corporate Conduct, each of which is supported by fundamental principles of business behaviours. Apart from the Company's Standards of Business Conduct and Business Principles, the Company also has in place the Statement of Delegated Authorities which outlines respective roles and authorities of the management officials. This helps governance and control of investment management. In the Company's Statement of Delegated Authorities, the Board has specifically reserved matters such as establishment of new businesses or factories, annual strategic plan, approval of major capital expenditure, acquisition and disposal of businesses or equity, borrowings and any corporate restructuring, for its own decision. Additionally, the Company also has in place the required internal policies, guidelines and codes to ensure good governance and control.

The Company had always been fully adherent with the above mentioned corporate governance principles and best practices. This Statement on Corporate Governance, together with the Statement on Risk Management and Internal Control, sets out the manner how the Company has applied the governance principles and best practices.

The corporate governance framework of BAT Bangladesh is directed towards achieving the Company's business objectives in a responsible manner. Therefore, in order to comply with the laws, rules, regulations, corporate governance codes, articles of association, policies and procedures, the Company constantly exercises good Board practices, effective control processes, transparent disclosures, well-defined shareholders' rights and Board commitments. The manners of adherence to these principles and practices are outlined as follows:

Corporate Compliance

One of the fundamentals of good governance is corporate compliance to the various laws, rules and regulations. Compliance helps build trust among the Board Members, Shareholders, Customers and other stakeholders including the regulators.

One of the key strengths of the Board is a practiced culture of high integrity. It reflects both the Board's values and the calibre of our Board members. At Annual General Meetings (AGM), our shareholders have consistently demonstrated their respect for, and support of, our Board's leadership.

As leaders of a compliant company, the Management Team of BATB has adopted strategies that assure compliance with all relevant legal and regulatory requirements. This ensures that good governance cascades right throughout the company. BATB is subject to close monitoring process of regulatory bodies that focus on transparency and require that BATB provides accurate and periodic reporting of issues/events and certification where necessary. In this context, the Company regularly provides a complete set of financial statements and relevant documents to the Bangladesh Securities and Exchange Commission (BSEC), Stock Exchanges, National Board of Revenue (NBR), Registrar of Joint Stock Companies & Firms (RJSC) and all other relevant bodies and authorities. The Company also takes various initiatives to conduct awareness sessions on existing and proposed laws to ensure compliance throughout the company. Overall, BATB has always strived to remain a fully compliant company accommodating every possible way and strategy to ensure the same.

Board Practices

The Board is responsible to the shareholders for overall success of the Company for its strategic directions, its values and its governance. It provides the leadership necessary for the Company to meet its business objectives within the framework of its internal controls, while also discharging the Company's obligations to its shareholders.

The composition of the Board complies with the requirements outlined in the BSEC Guidelines on Corporate Governance, the Listing Regulations and those of the generally applied codes of best practices. The Board comprises an admixture of Executive and Non-Executive Directors from diverse professional backgrounds with wealth of experience, skills and expertise.

Policy on Appointment of Directors

BAT Bangladesh does not have its own and separate policy on appointment of Directors, except for the very first Board. The Company always complies with the regulations of the regulatory authorities regarding appointment of directors. BSEC notifications, and Companies Act are strictly followed in this regard. As per the

Companies Act, 1994, Directors are subject to retirement. At least one-third of the Directors shall retire by rotation in every AGM. The term of an Independent Director is three years and may be lengthened by another three years. With regards to nomination, removal and casual vacancy of the directors, the Company follows all relevant rules and regulations of the respective regulatory bodies.

Chairman of the Board

The Chairman of the Company is elected by the Board of Directors and the Board considers the Chairman being independent.

Roles and Responsibilities of the Chairman

- ▶ The Chairman's responsibility is defined by the Board as directed by BSEC's notification on Corporate Governance Guidelines.
- ▶ As Chairman of the Board of Directors (or Chairman of any Committee formed by the Board) does not personally possess the jurisdiction to apply policy making or executive authority, he does not participate in or interfere into the administration or operational and routine affairs of the Company.
- ▶ The Chairman ensures that the Board is functioning in accordance with the Memorandum and Articles of Association of the Company as well as other applicable laws.
- ▶ The Chairman presides over meetings of the Board and Company (AGM) and ensures good Corporate Governance in the conducts of the Board and Company.
- ▶ The Chairman maintains relations with the relevant stakeholders in consultation with the Board as well as the Managing Director, representing the Company as a good/responsible corporate citizen.
- ▶ The Chairman may assume any responsibility if the Board assigns within the purview of the relevant Rules, Regulations, Acts and Articles.

Primary Roles and Responsibilities of the Managing Director

- ▶ The Managing Director is responsible for driving business operations, leading the development and execution of the Company's long-term strategies with a view to create shareholder value.
- ▶ The MD's leadership role also entails being ultimately responsible for all day-to-day

management decisions and for implementing the Company's long and short-term plans.

- ▶ The Managing Director acts as a direct liaison between the Board and Management of the Company and communicates to the Board on behalf of the Management.
- ▶ The MD also communicates on behalf of the Company to shareholders, employees, Government authorities, other stakeholders and the public.

Management through People

The directors believe that a successful Board directs and not only manages rather they manage the management. And with that spirit, the Board has delegated adequate operational and financial authorities to the Managing Director which empowers him to set up the organizational structure, recruit appropriate people, empower them to manage the Strategic Business Units and functional areas and provide them guidance for achievement of the desired results.

However, as the apex corporate authority, the Board remains abreast of the goal targets and initiatives of the Business Units and apprised of the financial performance on a regular basis.

The Managing Director is in-charge of operations of the Company and manages the affairs through close consultation with relevant people within the Company and/ or, if necessary, outside experts.

Empowering Employees

The Board has given clear guidelines to the Managing Director to ensure that there is appropriate delegation of authority and clear statement of accountability of the management staff all the way down to the Supervisory level and that performance of the individual is judged on the basis of clearly set measurable goals and through objective assessment of their achievements.

Board Composition

The Board of the Company consists of nine Directors, comprising five Non-Executive Directors, two Independent Directors and two Executive Directors which include the Managing Director and the Finance Director. Out of the nine Directors, seven are non-executive individuals who are also senior officials or ex-officials of the Bangladesh Government. A qualified Fellow Chartered Secretary is entrusted with the role of Company Secretary. We believe that the BAT Bangladesh Board has

the optimum level of knowledge, composure, skills and understanding about the Company's business and stands as the perfect platform to perform and deliver. Please refer to pages 26 to 31 for details of the Directors on the Board, their profiles, backgrounds and their respective memberships.

Principal Responsibilities of the Board

- ▶ Formulating the long-term strategies of the Company and setting the goals and direction for the Company.
- ▶ Reviewing Company's risk assessment and ensures implementation of appropriate systems to manage those risks.
- ▶ Providing the leadership necessary to ensure that the business objectives set out by the Board are met within the framework of internal controls as described in this Statement.
- ▶ Other key duties for the Board includes approving financial statements, appropriation of profit, reviewing the adequacy and integrity of the Company's internal control systems and ensuring compliance with applicable laws, rules, regulations, directives and guidelines of various regulators.
- ▶ Pursuant to the Company's, laid down policies and guidelines, the Board is also tasked to decide on the following business transactions and activities:
 - Acquisition, disposal or closure of a business.
 - Establishment of new businesses.
 - Capital investment and disposal of tangible assets.
 - Purchase or sale of trademarks.
 - Proposal for borrowings or the grant of extended credit facilities.
 - Any corporate restructuring not covered by any of the above paragraphs.
 - Appointment of top management and expatriate officials.

In discharging its responsibilities, the Board is guided by the regulations contained in the Memorandum and Articles of Association of the Company, the Companies Act, 1994, Relevant applicable regulations, BSEC Codes of Corporate Governance, Listing Regulations, Company's Standards of Business Conduct, Business Principles, Statement of Delegated Authorities, and other generally accepted corporate best practices.

Non-Executive Director's Independence

All the Directors except the Managing Director and Finance Director are non-executive Directors in the Board. None of the Non-Executive Directors take part in the day to day affairs of the Company. They attend only the Board meetings and the Committee meetings to discuss the agenda reserved for the meetings.

Board Committees

In order for quicker and efficient flow of information and thereby exercising effective governance, the Board has also constituted a few Committees and has delegated certain responsibilities to the Committees to assist the Board in discharging of its responsibilities. There are three such Committees, to which the Board has delegated certain responsibilities. These include the Audit Committee, Compensation Committee and CSR Committee. Each Committee strictly adheres to a set of terms of reference (TOR) approved by the Board. Their roles, operating procedures and authorities are clearly defined in the (TOR) which are frequently reviewed by the Board. There is an evaluation process regarding performance of Audit and CSR committees which facilitates in achieving certain governance objectives. The key functions of these committees are as follows:

Board Audit Committee

The Board has constituted an Audit Committee for the Company according to the conditions of BSEC guidelines. The committee comprises one Independent Director and three Non-Executive Directors. The Board has appointed the Independent Director as Chairman of the Committee under the mentioned guidelines. All members of the Audit Committee are 'financially literate' as per regulatory requirement and are able to analyse and interpret financial statements to effectively discharge their duties and responsibilities as members of the Audit Committee. The Managing Director, Finance Director, Internal Auditors of the Company and representatives of the external auditors attend all the meetings upon invitation by the Audit Committee. Other senior members of management are also invited by the Audit Committee to attend Audit Committee meetings. The Audit Committee meets with the external auditors whenever necessary and, separately, with the internal auditors, on an annual basis without any Executive Director being present. They met four times during the year 2017. All members were present in all meetings of the Committee. As per BSEC guidelines, the Company Secretary functions as Secretary to the Committee. The

key responsibilities of the Audit Committee include:

- ▶ Monitoring the integrity of the financial reporting process ensuring compliance to accounting policies, standards and principles.
Monitoring the internal control and business risk management process.
- ▶ Overseeing selection and performance of external auditors. Also ensures that the statutory auditors are not engaged in any alongside involvements in the Company which are restricted under the regulatory guidelines.
- ▶ Monitoring and reviewing the effectiveness of the internal audit function.
- ▶ Other matters as per terms of reference of the Audit Committee.

Board Compensation Committee

The Board Compensation Committee, headed by a non-executive Director, makes recommendations to the Board on terms of employment of the members of the Executive Committee, managers and employees and decides their specific remuneration. This Committee met three times in 2017. The other members include the Managing Director and the Finance Director. The Head of Human Resources functions as the Secretary of the committee. The remuneration policy is designed to ensure that the reward and remuneration package is competitive so that high quality human resources with proven track record and experience can be recruited, motivated and retained.

Corporate Social Responsibility Committee

Corporate Social Responsibility (CSR) is core to the 'Responsibility' strategy of the Company. It is integral to the business sustainability and enhancement of long-term shareholder value. The Company recognises that it has a role to play in helping society to achieve the necessary sustainable balance of economic growth, environmental protection and social progress. Therefore, the Board of Directors of the Company at its meeting held on 11 April 2012 has established a CSR Committee as sub-committee of the Board. The Board has nominated five Directors to the Board CSR Committee among whom a Non-Executive Director is the Chairman. The purpose of the Board CSR Committee is to ensure management of the Company's CSR initiatives in a way that ensures business sustainability and creates positive impact on image and reputation of the Company amongst the stakeholders and the society at large.

Board and Committee Meetings

The composition of the Board Committees as of 31 December 2017 and the attendance of Directors at the Board and Board Committee meetings held in 2017 are as follows:

- ▶ Our Executive Directors do not hold directorship in other public companies; however, they are encouraged to

participate in professional, public and community organizations.

In respect of those Directors who stand for re-election at the 2018 AGM, all their directorships held in listed public companies in the past three years are set out in the Annual Report of the year. Other details of the Directors' biography are also set out under "Board of Directors" on pages 26-31 of this Annual Report and on BATB's website.

Appraisal of the Board's Performance

Since all members of the Board are very experienced and high officials of the Government, currently annual appraisal process is Conducting internally in consultation with each member of the Board. However, the Company abides by the Codes of Conduct formulated by the Board and as required by the regulators. The Board members have always taken decisions that have benefitted the Company as a whole and they have always performed their duties accordingly.

Training and Development of Board

All board members are provided an orientation by the Company Secretary when they join the board. Currently BATB is in the process of considering the design and implementation of an appraisal program for its board members to apprise various compliance requirements.

Effective Control Processes

The Board of British American Tobacco Bangladesh discharges its responsibilities in ensuring effective control processes in the organisation through the Board committees. Other than the Board committees, there is an Executive Committee at the top management level which plays a significant role in managing the business as per the norms of corporate governance and ensures that adequate internal controls are in place and supported through a robust risk management and MIS process.

Leadership Team (Executive Committee)

In discharging the above-mentioned responsibilities and duties, the Board is duly assisted by the functional heads of the Company, namely the Executive Committee (ExCo). The Managing Director leads the ExCo which comprises of the following heads of organizational functions:

- Managing Director
- Finance Director
- Head of Marketing

- Head of Operations
- Head of Legal and External Affairs
- Head of Human Resources
- Head of Business Development

The ExCo is vested with the responsibility of implementing the policies and decisions of the Board, overseeing the operations as well as developing, coordinating and implementing business and corporate strategies.

Usually, the ExCo meets monthly to implement the Company's strategy and ensure effective day-to-day operations in line with the Company plan. From time to time, when the Board requires relevant information or updates, relevant members of the ExCo are invited to attend Board meetings to provide any such relevant information or updates. For details of each ExCo member, please refer to pages 33 to 35 of this Annual Report.

Steering Group

The Steering Group (SG) of BAT Bangladesh has been introduced with cross functional senior managers of the Company. The SG acts as a sounding board, helping Executive Committee to optimize their decisions; drive building a highly engaged, transparent, well informed organisation; drive high ownership of business by employees and turn everyone into ambassadors for the Company business; managing adhoc crisis; driving best corporate culture including people leadership to promote values and guiding principles in the Company; enhance controls awareness and processes alignment across the business. SG has evolved as strong leadership forum attaining acceptability across the organization. The forum demonstrates all the interpersonal factors that are required for a successful leadership forum like Communication, trust, confidence in others, sense of humour, sharing both responsibility and feelings, good conflict resolution, recognition of skills and validation of skills and emotional support which facilitate the process of sustainable corporate governance in the Company.

Company Secretary

The Board has appointed a Company Secretary in order to maintain the necessary link and liaison with the internal organs, as well as external agencies, and also to ensure effective collection, compilation and timely flow of information to and from the Board. The Corporate Governance Guidelines issued by BSEC also require a listed company to appoint a Company Secretary. Being a governance official, the Company Secretary

drives for corporate compliance and provides support to the Chairman and other members of the Board to ensure effective functioning of the Board. The Company Secretary organises and attends all Board and Committee meetings (Audit Committee and CSR Committee), and ensures that deliberations on all issues are properly minuted, decisions recorded and are duly communicated across the respective authorities for necessary information/actions. The Company Secretary is also responsible for agreement signing, policies formulation, protection of the Company's land, Records Management, driving Standards of Business Conduct, administration of seven trust funds and its portfolio investment management. The brief roles and responsibilities of the Company Secretary, include, inter alia –

- ▶ Maintaining linkage between the Board, Management, Shareholders and other stakeholders on matters of corporate interests in a transparent way,

Each and every employee, including the Directors, is expected to live up to the Standards of Business Conduct and are required to confirm their commitment and compliance by executing a declaration of compliance annually.

HUMAN CAPITAL

A group of motivated, multi-talented employees are the main asset of BATB. BAT Bangladesh has been recognised as one of the employers of choice in the country. The Company has positioned itself with a performance-driven rewarding work culture; where employees are treated with respect and receive expanded opportunities to realise their diverse potentials. This also benefits the organization by demonstrating value creating behaviours.

To ensure long term sustainability, BAT Bangladesh emphasizes on skill and merit based recruitment and selection process, highly competitive remuneration package, sufficient training and development programs, career growth with succession planning, high-performance culture and satisfying working atmosphere where employees are able to

escalate their grievance and receive counselling.

Recruitment and Selection

The Company believes that its uniqueness and strength comes from the emphasis they put in the quality of the people in the organization as they play an integral role in the Company's success. Battle of Minds, a renowned and extensive competition organized and hosted by BAT Bangladesh every year, is a highly anticipated business recruitment platform for thousands of ambitious and capable final year university students. It is the flagship employer branding initiative of BAT Bangladesh and has been carried out for 13 years with specific focus on graduate engagement as a platform which helps fresh aspiring graduates to transition into corporate life. By reaching out to students from the 3 disciplines – Business, Engineering & Agriculture, through extensive roadshows and student engagement sessions, it gives an opportunity to more candidates to get a feel of the BAT Way of doing things. Teams who make it to the final stage have to showcase their understanding of real time business complexities and idea generation in order to recommend relevant and realistic business solutions.

Other than Battle of Minds, the Company uses a wide array of interactive and engaging assessments to identify and select the most talented applicants through rigorous multilayered recruitment processes. The Company has a Global Graduates Program which is aimed to recruit outstanding fresh graduates and develop them as the future leaders of the Country.

Learning & Development

The Company puts great emphasis on training and provide resources and opportunities for development to the employees. BATB acknowledges and supports the need for employees to balance work and personal interests and encourages flexibility wherever possible. Effectively designed training programs targeting the right group of employees are conducted on a regular basis. The Company has a Technical Training Centre for conducting the trainings.

Compensation & Benefits

The Company recognises the need for remuneration policies to be competitive and these have been designed to correspond to individual qualification, skill, performance,

contribution and responsibility ensuring a real differentiation amongst other companies. The recruitment strategy of the Company is based on attracting and retaining the most suitable people at all levels of the business.

Comprehensive Performance Management Programme

BAT Bangladesh has a comprehensive performance management program that evaluates employees' yearly performance against business targets at the year-end. This performance appraisal system is considered as vital for the Company as this is a very significant tool to identify and differentiate the performers and non-performers.

Reward & Recognition Programme

BAT Bangladesh has a well-designed Reward & Recognition program that gives special attention to employees' actions, efforts, behaviour and performance. Annual incentive schemes are used to reward the short-term business results which create noteworthy value for the business. They represent a reward for the collective achievement of defined corporate results to which each individual has made a contribution. BATB also employs a range of non-cash/monetary forms of reward through its various recognition schemes

Grievances and Counselling

Since employee's behaviour affects work discipline, if an employee is aggrieved about their personal employment position, they are encouraged to use the Grievance procedure to raise the matter. Time to time human resources function also counsel employees.

Ensuring a Sound Workplace

One of the guiding principles of the Company is "Strength from Diversity" and all the employees practice this value in the offices and the factories so that none of the employees irrespective of their genders are deprived of any opportunities and inequality is eliminated entirely from the work environment. BATB celebrates gender diversity and take profuse measures to ensure that every individual is given a fair shot. The Company has a zero-tolerance policy against discrimination. In 2016, the company has even received an award for being 'The Most Female Friendly Organization'. It is of paramount importance for the organisation to mitigate as many health and safety risks as possible for its employees. Competitions, trainings, as well as

health and stress sessions are conducted frequently in order to sustain the safe environment at workplace.

Assets & Records Management

The Board of Directors of BAT Bangladesh recognises its role as trustee of the Shareholders

funds and accordingly has been investing in cutting-edge operational efficiency since its inception. Transparency and accountability are ensured at all stages from acquisition to disposal of assets to protect the interest of Shareholders. Safety measures have been implemented and periodic physical verification is undertaken on a test basis to safeguard the assets and to ensure accuracy and authenticity of reported numbers. Relevant assets are adequately insured against industrial risks with insurance companies. Apart from the assets, all records of the Company are managed and preserved in an effective way for future reference. The Company Secretary is in charge of such records management.

Statutory Audit

Appointment of the Statutory Auditor is regulated by the Companies Act 1994 and by Securities & Exchange Rules 1987. On the basis of suggestion of the Audit Committee, the Board recommends appointment of an auditor, which is approved by the Shareholders at the Annual General Meeting. Along with the appointment, the Shareholders also fix the remuneration of the auditors. Under the BSEC order, a Statutory Auditor can continue in office for maximum three consecutive years. From a corporate governance perspective, BAT Bangladesh maintains complete and thorough independence of the Statutory Auditors. The Audit Committee meets with the statutory auditors to ensure that the auditors are acting independently and reviews the financial statements before submission to the Board for approval.

Apart from statutory audit, in order to ensure full and complete regulatory discharge, a Compliance Certificate is also obtained from a licenced practicing professional who certifies, on the basis of his audit, that the Company has duly complied with all the regulatory requirements as stipulated by the Bangladesh Securities and Exchange Commission (BSEC). The report is presented to the Shareholders and forms part of this Annual Report.

Transparent Disclosure

BAT Bangladesh prepares financial statements with adequate disclosures in accordance with the Bangladesh Accounting Standards (BAS), International/Bangladesh Financial Reporting Standards (I/BFRS), the Companies Act 1994, the Securities and Exchange Rules 1987 and other applicable laws and regulations. In order to prepare the financial statements, the

management is responsible for designing, implementing and maintaining internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error; selecting and applying accounting policies and making accounting estimates that are reasonable in the circumstances. These financial statements, once prepared, are reviewed initially by CFO and CEO and then by the Audit Committee on a regular basis. The external auditors also attend the Audit Committee meetings to review the quarterly financial statements as prepared in accordance with Bangladesh Financial Reporting Standards (BFRS) and Company policies. After that, the Board reviews the financial statements of the Company at the end of every quarter. The quarterly financial statements, along with notes are published on the two daily newspapers as well as the Company's website. Furthermore, half yearly and annual financial statements are also sent to all Shareholders in a timely manner.

On an annual basis, the Directors prepare the Directors' Report as part of the Annual Report which discloses the financial performance as well as non-financial information regarding Company growth, productivity, responsibilities and other information in compliance with BSEC Notification. The Company also abides by the applicable regulations in respect to Price Sensitive Information (PSI).

Communication to Shareholders & Stakeholders

BAT Bangladesh ensures that all shareholders are informed at least 2 weeks before the AGM so that all shareholders may attend on the day. Also all other types of accounts (Quarterly and Half yearly) or information are updated on the website and notified to all stakeholders on a duly and diligent basis. The Company tries to maintain liaison with all shareholders as much as possible and ensures that all stakeholders are informed about the company's activities on a routine basis. BAT Bangladesh also engages with all types of stakeholders as much as possible to ensure that information is effectively communicated.

The Directors appreciate the importance of general shareholders of the Company and use the Company's AGM as further opportunities to communicate with them. BAT Bangladesh provides copies of the Annual Report in order that these are made available to them well in advance for detailed and constructive discussion. It is the Company's policy to give the shareholders the opportunity to ask questions about its activities and prospects at the AGM. The Board also structures these meetings so that shareholders can vote separately on each matter, by proposing separate resolutions for each item to be considered.

Ensuring participation of shareholders in AGM
BAT Bangladesh tries its utmost to ensure that all shareholders can participate in the AGM. Annual Reports are sent at least 2 weeks before the AGM to ensure all shareholders are notified about the event date, place and time. Also, BAT Bangladesh always ensures that AGM is held at a suitable time and place where all shareholders may attend. Notices to shareholders are made by publication in the daily newspapers and through the digital media as well. To ensure compliance with regulatory bodies, BAT Bangladesh ensures that it publishes AGM Notice in two widely circulated newspapers and copies sent to the stock exchanges and BSEC.

The Company continues to have regular communication with the shareholders through the Annual General Meeting, Annual Report, Quarterly updates on financial performance and at any other time in the best interests of the shareholders. Also, the Company's website is there to further cater to the information needs of all. In this respect, all the best practices are followed by the Company which helps investors to keep their trust and confidence in the Company. All of the Company's publications to the market may be retrieved through the Company's website. Shareholders are offered the chance to interrogate the Board regarding the operation of the Company. They are also presented the ability to query the Company's auditors concerning topics linked to the audit of the Company's financial statements at the AGM.

Well-defined Shareholders' Rights

BAT Bangladesh believes that the management of a successful and productive relationship with its Shareholders must be underpinned by the importance of maintaining transparency and accountability to its Shareholders. The Board ensures through the Company Secretary that all the Shareholders of the company are treated equitably and ensures that the rights of all Shareholders are equally protected.

In order to achieve good governance, the Company Secretary acts as a bridge between the Shareholders and the Board of Directors of the Company who delivers the standard services to its valued Shareholders ensuring the well-defined Shareholders' rights in accordance with applicable laws and the Articles of Association of the Company. Catering to the continuous disclosure requirements, the Shareholders are communicated in a routine manner of all major developments that involve the business of the Company so that they are able to make informed decisions.

Board Commitments

Tracing back to origin, it was more than 100 years ago when the Company established itself on this land of opportunities and possibilities - Bangladesh. Since independence, BAT Bangladesh has demonstrated an unwavering dedication to the country and its people and this commitment is what sets BAT Bangladesh apart from any other business entity. This uniqueness is reflected through the passion and dedication of its 52,000 employees, farmers, distributors, suppliers and business partners that has brought BAT Bangladesh across the country and to its today's towering stature.

The Company is listed on both Dhaka and Chittagong Stock Exchanges and is currently ranked as number 1 (one) amongst the listed companies in Bangladesh in terms of being the highest taxpayer. In this year alone the Company has contributed Taka 16,427 crore to the Government Exchequer. BAT Bangladesh has always cherished and shall continue to value its treasured relationship with the Government of Bangladesh, esteemed shareholders and other stakeholders of the Company by practicing the highest standards of corporate governance.

Epilogue

Overall, BATB views that effective governance is a continuous process to be put to use not just by the directors alone, but also includes those procedures exercised by the other organisational functionaries as well for ensuring attainment of ultimate corporate goals. In that pursuit, the Company upholds the spirit of transparency and accountability to the society as a whole through establishment of an efficient and effective Corporate Governance regime. That is why the Company engages all its team in the process because good governance entails managing the business professionally, effectively and responsibly and in a way which is transparent, ethical, law abiding and ensures accountability. However, to ensure that adequate governance mechanisms are in place, there has to be sufficient surveillance overall, which work as a check and balance in its journey to governance. BATB aspires to uphold its long acclaimed standards of good governance by standing ever alert in its management exercises.

STATEMENT ON RISK MANAGEMENT & INTERNAL CONTROL

Approach

The Board of Directors recognises that Risk is an integrated part of our operating environment. No undertaking is free from risks and concerns that might arise both from internal as well as external fronts. Now, the volatile, uncertain and complex world in which we operate requires effective management and monitoring of known risks, along with identification and assessment of emerging risks, to mitigate and thereby achieve our strategic objectives. Central to this approach is the clear understanding that risk management is the responsibility of all our people. The approach seeks to manage, rather than eliminate, the risk of failure to achieve our strategic objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board of Directors recognises the importance of sound risk management practices and internal control systems to safeguard shareholders' investments and the Company's assets. The Board affirms its overall responsibility for the Company's system of risk management and internal control which includes the establishment of an appropriate control environment and framework, as well as reviewing its adequacy, integrity and competence.

The Board is responsible for determining the nature and extent of the strategic risks that the Company is apparently willing to take to attain its objectives, whilst in parallel, maintaining sound risk management and systems of internal control. With the challenging nature of the industry in which the Company operates, the Board does not consider it prudent to enhance

the risk-scope too high, and it seeks to minimise risks at a reasonably optimum level.

The Board tasks the Management to identify and assess the risks faced by the Company, and thereafter designs, implements and monitors appropriate internal control drives to mitigate and control those risks. There are inherent limitations to any system of internal control and the system is designed to manage and minimise the impact rather than completely eliminate risks that may vitiate achievement of the Company's business objectives. Accordingly, it can only provide reasonable but not absolute assurance against material misstatement or loss. The system of internal control covers financial, operational and compliance controls and risk management procedures.

The Company has in place an ongoing process (outlined below) for identifying, evaluating, monitoring, managing and/or mitigating significant risks faced by the Company. This process includes reviewing and updating the system of internal controls considering the changes in the regulatory, business and external environment. This process is reviewed by the Board through the Audit Committee. The Audit Committee's responsibilities and duties are stated in the Audit Committee Report section of this Annual Report. The Company's Standards of Business Conduct underpin our commitment to good corporate behaviour, and is an integral part of the Company's system of corporate governance. The Standards of Business Conduct require all employees to act with the highest standards of business integrity, comply with all applicable laws and regulations, and ensure that

business standards are not compromised for the sake of results. Our Standards of Business Conduct is made available to our stakeholders and employees on our corporate website at www.batbangladesh.com

Enterprise Risk Management Framework

Risk management is solidly embedded in the Company's management system as the Company firmly believes that risk management is critical for the Company's sustainability and the enhancement of shareholders' value.

BATB's risk management framework, aligned with its operating model, is an integrated approach based upon the three lines of defense. The structure encourages the communication and escalation of risk and control related matters across the Company.

The BATB Board has the responsibility for the company's strategy and therefore also for the related risk appetite. The Risk Management Committee responsible for ensuring the effectiveness of the risk management and internal control systems, and is reportable to the Audit Committee, which is part of the Board of Directors. The Management Committee is

responsible for the operational stewardship of the business, including the ownership of the risks and related internal control interventions. The five core risk areas namely: Financial Risk, Regulatory Risk, Transformation Risk, Operational Risk and Policy Change Risk are identified at first. IT ensures the successful and effective alignment of functional business plans to the company's strategy, with business unit and functional management responsible for the delivery of operational performance and the management of the inherent risks. These management teams are responsible for ensuring that the Company's strategic objectives are achieved in line with Company policies and standards, and that we conduct business in compliance with our Codes of Conduct. The Company's functional and divisional management

structures, led by our Management Committee, enable a continuous process for the identification, evaluation, management and mitigation of significant risks in those areas to the achievement of Company's business objectives, enabling effective and timely identification of actual and emerging risks and responses to mitigate impacts or realize opportunities.

Risk Management Process

Company's Enterprise Risk Management Objectives

- ▶ Preserve the safety, security and health of its employees.
- ▶ Ensure the continuity of its supply of products to consumers and customers at all times.
- ▶ Protect its assets, investments and reputation.
- ▶ Ensure that the Company's operations do not impact negatively on the community in which it operates and the environment.
- ▶ Protect the interests of all other stakeholders.
- ▶ Promote an effective risk awareness culture where risk management is an integral aspect of the Company's management systems.
- ▶ Ensure compliance with BSEC Codes of Corporate Governance and all applicable laws.

Risk Management Team and Responsibilities

Management operates a Risk Management Team comprised of senior managers from all functions of the Company and led by the Finance Director. It meets formally at least twice a year to:

- ▶ Review and update the risk register; and
- ▶ Assess status of risk mitigation action plans.

The Audit Committee is briefed by annually by the Enterprise Risk Manager on the Company's Risk Management Programme and its activities in the Audit Committee meeting.

The following are some of the responsibilities of the Risk Management Team:

- ▶ Steer the Company's enterprise risk management programme.
- ▶ Promote a proactive risk awareness culture in the Company.
- ▶ Conduct bi-annual review of the business risks.
- ▶ Coordinate the development and implementation of risk mitigation action plans.
- ▶ Develop and update business continuity plans (BCPs) for key business risks.
- ▶ Plan and coordinate the testing of BCPs.
- ▶ Organise training and education for employees on risk management.

Five Phase Enterprise Risk Management Process

(1) Risk Identification

All potential events that could adversely impact the achievement of business objectives, including failure to capitalise on opportunities are identified.

(2) Risk Evaluation

The identified business risks are then evaluated to determine their impact on the relevant business strategy/objectives and whether the risks are likely to occur.

- ▶ Likelihood of the risks materializing
- ▶ Impact of the consequence, taking into account the degree of internal control and risk management measures in place.

Assessment against a set of pre-specified criteria on a scale of one to three is completed for both Likelihood and Impact, the combination of which provides the total risk rating on a scale of one to nine. Risks are then categorised on the Risk Heat Map which measures the significance of the risks to the organisation and determines the relative prioritisation and focus for risk mitigation.

The outcome of the risk identification and evaluation process is both a Risk Heat Map and a comprehensive Risk Register which documents all identified business risks.

(3) Risk Mitigation

In completing the Risk Register, Risk Owners are identified who are responsible for identifying action plans to manage and mitigate the risks, together with a timeline for completion of the actions. The Risk Owners are typically senior managers and part of a functional leadership team.

(4) Risk Monitoring

Ongoing risk monitoring is conducted by the Risk Management Team to assess whether any condition associated with a particular risk has changed, and to ensure that action and risk mitigation plans have been implemented. Status of action/mitigation plans are communicated to the Audit Committee bi-annually.

(5) Risk Review

Finally, the Company's Enterprise Risk Management process is subjected to periodic reviews by Management to ensure that the policy and objectives of the programme remain applicable and effective under changing market

and regulatory environments. This is complemented by internal control practices such as the Statement of Compliance with BSEC Codes of Corporate Governance and the Key Control Checklist of the Company.

Business Continuity and Crisis Management

Business Continuity is defined as the strategic and tactical capability of the organisation to plan for and respond to incidents and business disruptions in order to continue business operations at an acceptable pre-defined level so as to avoid negative impact on the business.

The Company has 19 BCPs to manage the various potential disruptions which could impact the Company, for example, Manufacturing Contingency Sourcing Plan and Information Technology Disaster Recovery/ Service

Continuity Plan. These plans are reviewed and updated by the owners of the plan on an annual basis. In addition, desktop review/simulation/live activation is conducted by the plan owners with the participation of plan specific response team members and support of BCM facilitators periodically based on the cyclical testing schedule.

In addition, the Company has a structured approach to Crisis Management to ensure leadership and timely decision in the event of a crisis and to manage the situation effectively within minimal time.

Our approach involves immediate formation of a Crisis Management Team (CMT), assisted by an Incident Response Team (IRT). The roles & responsibilities of these teams are outlined below.

CMT

The role of the CMT is to identify and deal with potential risks to employees and business operations during times of crisis. After considering all the available information, the CMT can make informed strategic decisions with the aim of minimising any long term detrimental effects to the operations, finance, employees and reputation of the Organisation.

IRT

The senior manager at the site of the incident collects available pertinent information and advises the CMT Coordinator. This manager, assisted by appropriate local employees will assume local control and deal with the incident directly until further directed by the CMT.

Risk Profile

The results of the risk assessment completed during the business planning process have not highlighted any significant changes from the previous year. The risks and their relative probability and impact remain materially consistent.

The Company views the key risk as that of being in the tobacco sector and having the ability to significantly impact the Company's results. In addition to the above, the Company is subject to the ever present risk of competitor actions. Steps to anticipate, mitigate and neutralise such risks are core to our business.

Risk Management Activities in 2017

Review of the Company's Risks

The Risk Management Team usually meets twice every year to review and assess the Company's risks, and to monitor progress of key activities for the year, including the progress of the business continuity plans.

In both meetings, the Risk Management Team together with senior managers updated the risk register and risk mitigation action plans. The outcome of the meeting, among others, were the identification, evaluation and risk mitigation plan for the new risks. The briefing included updates on the key risks of the Company and the risk mitigation plans, and the testing status of business continuity plans.

Promotion of Risk Awareness

Risk communication is equally important and forms an integral part of the risk management activity as it focuses on the dissemination of risk information to appropriate levels of employees and stakeholders. Appropriate channels are available for employees to provide feedback on risk management issues and suggestions for improvement. The Risk Management Team is responsible for the risk awareness induction programme for new recruits. The induction programme is aimed at educating management staff on the Company's approach to risk management and internal controls, and provides a forum to enhance the participant knowledge on controls and exercising that knowledge on managing the Company's risk.

Crisis Management Activation

The Company activated crisis management team to manage the situation thus enabling the business to continue operation. As a result, business is saved and financial impacts were negligible. The most challenging aspect of the situation was recovery, once the crisis was resolved. This was successfully completed in a carefully sequenced and choreographed manner, thereby minimising disruption.

Business Continuity Plan Simulation and Testing

During the year, a desktop/ simulation/ operational activation was conducted by the Business Continuity Plan (BCP) owners, with the support of Incident Response Team members, across 19 BCPs. The review and testing indicated that the existing plans were still relevant to the current business environment.

System of Internal Control

Self-Assessment of Controls (SAC) Process Central to the Company's system of internal control is its SAC process and the backbone of this process is a key control checklist known as the Control Navigator. The Control Navigator sets out various key controls and process requirements across all functions in the Company. The Company's SAC process requires controls and processes to be assessed by responsible managers for effectiveness on an annual basis. Where control gaps/weaknesses are

identified, corrective actions and timelines are identified and agreed. The findings from the SAC and year-on-year trend analysis are reported to the Audit Committee annually. A new SAP enabled tool was deployed, which provided a standardised central solution that automates and monitors key risks and controls at the business level. The new tool allows the business to use a combination of automated work flows, certification, manual controls and interactive reports to monitor and control compliance activities across the Company. This has resulted in an improved visibility of assessment throughout the business, improved transparency of issues management and remediation, together with streamlining of reporting.

Financial Reporting Controls

The Company has a series of policies, practices and controls in place in relation to the financial reporting and consolidation process, which are designed to address key financial reporting risks, including risks arising from changes in the business or accounting standards. The Finance Director is required to confirm annually that all information relevant to the Company audit has been provided to the Board of Directors through the Audit Committee and that reasonable steps have been taken to ensure full disclosure in response to requests for information from the external auditor.

In addition, it is standard practice for the Finance Director to fully review account reconciliations on a bi annual basis. The effectiveness of the Company's financial reporting controls is assessed through self-certification as part of the Control Navigator exercise described earlier. The integrity of the Company's public financial reporting is further supported by a number of processes and steps to provide assurance over the completeness and accuracy of the content including review and recommendation by the Audit Committee and review and approval by the Board.

Internal Audit

The role of Internal Audit for the Company is designed in line with local laws as well as the Global Audit functions of British American Tobacco plc. This approach ensures a high level of independence and gives access to more skilled

and specialised resources, particularly in respect of Information Technology (IT), that would otherwise be available within the Company. The annual audit planning cycle takes direct input from both the risk register described above and the Audit Committee. In turn, the Audit Committee formally approves the scope of work for the year. Furthermore, with approval of the Audit Committee, the Internal Audit Manager can request assistance from Global Audit if required for any matter it considers appropriate. Within the Company three types of audits exist: Entity Audits, Process Audits and Project & Programmes Audits. Entity audits are focused on one entity or business unit with a scope of more than one process. Process Audits have a scope of one process covered over one or more entities or business units and Project & Programmes audits are focused on an ongoing project, programme or portfolio. A Company Audit is organised into both central and regional teams and also include a specialised IT Audit capability. More details on the audit activities conducted during the year can be found in the Audit Committee Report in this Annual Report.

External Audit

In the course of conducting the annual statutory audit of the Company's financial statements, the external auditors review and where applicable based on judgement, highlight to the Board and Audit Committee any significant audit, accounting and internal control matters which require attention. A report on the above is given to the Audit Committee and to the management once a year after substantial completion of the year-end audit. Additionally, the external auditors attend the quarterly Audit Committee meetings, and where applicable provide views on any related matters for the attention of the Audit Committee. At least once a year, the Audit Committee shall meet the external auditors without the Executive Directors and management being present. This year, the Audit Committee has met twice with the external auditors without the Executive Directors and management being present. During the year, as part of the annual statutory audit, the external auditors were involved in performing certain reviews over the controls and processes affecting financial reporting. There is no significant matter with material financial impact

arising from the review of these related controls and processes, although certain improvement recommendations were highlighted to the Board and Audit Committee.

Other Key Elements of the System of Internal Control

Apart from the above, the other key elements of the Company's internal control and risk management system which have been reviewed and approved by the Board are described below:

Policies, Procedures and Limits of Authority

- ▶ Clearly defined delegation of responsibilities to committees of the Board and to Management, including organization structures and appropriate authority levels.
- ▶ Clearly documented internal policies, standards and procedures are in place and regularly updated to reflect changing risks or resolve operational deficiencies. All policies are approved by the Board and cases of noncompliance to policies and procedures which are in place are reported to the Board and Audit Committee by exception.

Immediately Reportable Incidents

- ▶ The Company adheres to a control procedure termed 'Immediately Reportable Incidents' to capture breakdowns in basic controls and expedite the reporting and immediate action thereof. The basic areas of control that are considered here are:
 - (1) Delegation of Authority
 - (2) Profit and Loss Account
 - (3) Balance Sheet
 - (4) Pricing & Taxes
 - (5) Risk management
 - (6) System Controls
 - (7) External Audit
 - (8) Procurement Controls, and
 - (9) Tax and Treasury Team.

Strategic Business Plan, Budget and Performance Review

- ▶ Regular and comprehensive information provided by Management for monitoring of performance against the strategic plan, covering all key financial and operational indicators. On a quarterly basis, the Managing Director reviews with the Board all key performance metrics and highlights any issues;
- ▶ Annually, a detailed budgeting process is completed for the year ahead which is discussed and approved by the Board; and
- ▶ Effective reporting systems are in place to highlight significant variances against Insurance and Physical Safeguard
- ▶ Adequate insurance and physical security of major assets are in place to ensure that the assets of the Company are sufficiently covered against any mishap that will result in material losses to the Company.

Written Declarations

- ▶ Written declaration from all management personnel confirming their compliance with the Company's Standards of Business Conduct and where applicable conflicts of interest situations are disclosed.
- ▶ Written declarations from the Finance Director and Managing Director are obtained confirming their compliance with the Company's Standards of Internal Control.
- ▶ Written confirmation of due diligence by the CEO and CFO as required under the BSEC guidelines.

Board Assessment

After all said, it may further be added at end that political instability and violence including social unrest, terrorist attacks etc. may also prevent the company from operating its business smoothly and effectively. However, the Board is

of the view that the Company's overall risk management and internal control system is operating adequately and effectively, and have received the same assurance from both the Managing Director and Finance Director of the Company. The Board confirms that the risk management process in identifying, evaluating and managing significant risks faced by the Company has been in place throughout 2017 and

up to the date of approval of this statement. The Board is also of the view that the Company's system of internal control is sufficient and is able to detect any material losses, contingencies or uncertainties that would require disclosure in the Company's Annual Report.

This Statement is made in accordance with the resolution of the Board of Directors on 5 March 2018.

REPORT OF THE AUDIT COMMITTEE 2017

The Audit Committee Report presented under condition #3.5 of the BSEC Guidelines provides an insight on the functions of the Audit Committee during 2017.

The Audit Committee of BATB, being one of its prime Board sub-committees, assists the Board in discharging its governance responsibilities. The Board has formed the Audit Committee, required under the codes of Corporate Governance of BSEC, with some specific assignments under its Terms of Reference. The Committee is comprised of Mr. Mohammad Moinuddin Abdullah (Independent Director & Chairman of Audit Committee), Mr. K. H. Masud Siddiqui, Mr. Golam Mainuddin and Mr. Kazi Sanaul Hoq. Mr. Md. Azizur Rahman, Company Secretary, acts as the Secretary to the Audit Committee. All members of the Committee are non-executive Directors and the Chairman of Audit Committee is an Independent Director. As required, all members of the Audit Committee are 'financially literate' and are able to analyse and interpret financial statements to effectively discharge their duties and responsibilities as members of the Audit Committee.

PURPOSE OF AUDIT COMMITTEE

The Audit Committee performs in absolute coherence and ensures compliance with the Corporate Governance Guidelines promulgated by the Bangladesh Securities and Exchange Commission (BSEC). The role of the Audit Committee is to monitor the integrity of the financial statements of the Company and review and, when appropriate, make recommendations to the Board on business risks, internal controls, compliance and audit. The Committee satisfies itself, by means of suitable

steps and appropriate information, that proper and satisfactory internal control systems are in place to identify and contain business risks and that the Company's business is conducted in a proper and financially sound manner. The Audit Committee assists the Board of Directors to ensure that the financial statements reflect a true and fair view of the state of affairs of the company and is ensuring a sound monitoring system within the business. The Audit Committee is accountable to the Board of Directors. The duties of the Audit Committee are clearly set forth in writing.

RESPONSIBILITIES AND DUTIES

The responsibilities and duties of the Audit Committee are:

Financial Reporting

- ▶ To review the quarterly and annual financial statements of the Company, focusing particularly on:
 - Any significant changes to accounting policies and practices;
 - Significant adjustments arising from the audits;
 - Compliance with applicable Financial Reporting Standards and other legal and regulatory requirements; and
 - The going concern assumption.

Related Party Transactions

- ▶ To review any related party transactions and conflict of interest situations that may arise within the Company, including any

transaction, procedure or course of conduct that may raise questions of management integrity.

Audit Reports

- ▶ To prepare the annual Audit Committee report and submit to the Board which includes the composition of the Audit Committee, its terms of reference, number of meetings held, a summary of its activities and the existence of internal audit services and summary of the activities for inclusion in the Annual Report; and to review the Board's statements on compliance with the BSEC Codes of Corporate Governance for inclusion in the Annual Report.

Internal Control

- ▶ To consider annually the Risk Management Framework adopted within the Company and to be satisfied that the methodology deployed allows the identification, analysis, assessment, monitoring and communication of risks in a regular and timely manner that will allow the Company to minimise losses and maximise opportunities;
- ▶ To ensure that the system of internal control is soundly conceived and in place, effectively administered and regularly monitored;
- ▶ To review the extent of compliance with established internal policies, standards, plans and procedures including, for example, the Company's Standards of Business Conduct;
- ▶ To obtain assurance that proper plans for control have been developed prior to the commencement of major areas of change within the Company; and
- ▶ To recommend to the Board steps needed to improve the system of internal control derived from the findings of the internal and external auditors and from the consultations of the Audit Committee itself.

Internal Audit

- ▶ To be satisfied that the strategies, plans, manning and organisation for internal auditing are communicated down through the Company. Specifically:

- To review the internal audit plans and to be satisfied as to their consistency with the Risk Management Framework used and adequacy of coverage;
- To be satisfied that Internal Audit has the competency and qualifications to complete its mandates and approved audit plans.
- To review status reports from Internal Audit and ensure that appropriate actions have been taken to implement the audit recommendations;
- To recommend any broader reviews deemed necessary as a consequence of the issues or concerns identified;
- To ensure that Internal Audit has full, free and unrestricted access to all activities, records, property and personnel necessary to perform its Responsibilities and;
- To request and review any special audit which it deems necessary.

External Audit

- ▶ To review the External Auditor's audit plan, nature and scope of the audit plan, audit report, evaluation of internal controls and coordination of the External Auditor. The Audit Committee will consider a consolidated opinion on the quality of external auditing at one of its meetings;
- ▶ To review with the External Auditor, the Statement on Risk Management and Internal Control of the Company for inclusion in the Annual Report;
- ▶ To review any matters concerning the appointment and re-appointment, audit fee and resignation or dismissal of the external auditor;
- ▶ To review and evaluate factors related to the independence of the External Auditor and assist them in preserving their independence;
- ▶ To be advised of and decide to or not to make significant use of the External Auditor in performing non-audit services within the

- ▶ Company, considering both the types of services rendered and the fees, so that its position as auditor is not deemed to be compromised; and
- ▶ To review the External Auditor's findings arising from audits, particularly any comments and responses in management letters as well as the assistance given by the employees of the Company in order to be satisfied that appropriate action is being taken.

Other Matters

- ▶ To act on any other matters as may be directed by the Board.

REPORTING OF THE AUDIT COMMITTEE

Reporting to the Board of Directors

The Audit Committee reports on its activities to the Board of Directors. The Audit Committee immediately reports to the Board of Directors on the following findings, if any:

- ▶ Report on conflicts of interests;
- ▶ Suspected or presumed fraud or irregularity or material defect in the internal control system;
- ▶ Suspected infringement of laws, including securities related laws, rules and regulations;
- ▶ Any other matter that it deems necessary

The Audit Committee further ensures that in compliance with condition no. 6 of the Corporate Governance Guidelines of Bangladesh Securities and Exchange Commission Notification No. SEC/CMRRCD/ 2006-158/134/Admin/44 dated 07 August 2012, the Chief Executive Officer (CEO) and Chief Financial Officer (CFO) respectively of the Company have certified before the Board that they have thoroughly reviewed the Financial Statements of the Company for the year ended 31 December 2017, and they state that:

- These statements do not contain any materially untrue statement or omit any material fact or contain statements that might be misleading;
- These statements together present a true and fair view of the Company's affairs and

are in compliance with existing accounting standards and applicable laws; and

- To the best of their knowledge and belief, the Company has not entered into any transaction during the year which are fraudulent, illegal or in violation of the Company's codes of conduct. This certificate has been reviewed by the Audit Committee before submitting to the Board.

REPORTING TO THE AUTHORITIES

The Audit Committee reports to the Board of Directors about anything which has material impact on the financial condition and results of operation. The Committee also discusses with the Board of Directors and the management if any rectification is necessary. If the Audit Committee finds that such rectification has been unreasonably ignored, the Committee reports such findings to the Bangladesh Securities & Exchange Commission upon reporting of such matters to the Board of Directors for three times or completion of a period of 6 (six) months from the date of first reporting to the Board of Directors, whichever is earlier.

REPORTING TO THE SHAREHOLDERS AND GENERAL INVESTORS

Report on activities carried out by the Audit Committee, including any report made to the Board of Directors under condition 3.4.1 (ii) of the BSEC Corporate Governance Notification above during the year, which shall be signed by the Chairman of the Audit Committee and disclosed in the Annual Report of the Company.

AUTHORITY

The Audit Committee is authorised by the Board to review any activity within the business as per its terms of reference. It is authorised to seek any information or attendance it requires from any director or member of management at any of its meetings. All employees are expected to

cooperate with any request made by the Committee. The Committee is also authorised to have information and advice from the Company Legal Advisor, Tax Consultant and Statutory Auditor if required. The terms of reference of Audit Committee may be amended from time to time as required for the business in line with BSEC notifications subject to approval by the Board.

MEETING ATTENDANCE

The Audit Committee met four times during the year 2017. Mr. Md. Mosharraf Hossain Bhuiyan ndc, as Chairman of the Board Audit Committee, guided the Audit Committee ensuring standards and compliance. All the members were present in all meetings of the Committee. The details of attendance of each member at the Audit Committee meetings during 2017 are as follows:

The Managing Director, Finance Director, Internal Auditor of British American Tobacco Bangladesh Company Limited, and representatives of the External Auditor had attended the meetings upon invitation by the Audit Committee. From time to time, relevant stakeholders and other senior members of management have also been invited by the Audit Committee to attend Audit Committee meetings. The Audit Committee met with the External Auditors separately, and with the Internal Auditors, on an annual basis without any Executive Director being present. The Company Secretary being the Secretary of the Audit Committee facilitates the Chairman and other members for effective functioning of the Committee as per its terms of reference as well as corporate governance notification of BSEC.

SUMMARY OF ACTIVITIES DURING 2017

- ▶ In 2017 the Audit Committee reviewed its terms of reference in line with requirements of BSEC notification on corporate governance. Moreover, an Audit Committee effectiveness survey had been carried out for the year 2017 which reflected compliance to the effectiveness guidelines. The Committee carried out the following activities in 2017:

Financial Reporting

- ▶ Reviewed the quarterly and annual financial statements of the Company with the Finance Director and Managing Director, focusing particularly on significant changes to accounting policies and practices, adjustments arising from the audit compliance with accounting standards and other legal requirements before recommending them to the Board of Directors for approval, and concluded that the financial statements presented a true and fair view of the Company's financial performance.

Internal Control

- ▶ Reviewed the Company's Risk Management Programme, including deep drive into the key functional risks for the Company and Risk Management Programme work plan.

Reviewed and recommended to the Board steps to improve the Company's changes to accounting policies and practices, adjustments arising from the audits.

Received updates on breaches of the SoBC and whistleblowing incidents.

Internal Audit

- ▶ Reviewed Internal Audit plans as to their consistency with the Risk Management Framework used and adequacy of coverage.

Reviewed status reports from Internal Audit to ensure that appropriate actions had been taken to implement the audit recommendations.

Reviewed and enhanced the internal control processes. Where appropriate, the Audit Committee instructed to rectify and improve the internal control processes based on internal audit.

The Committee reviewed and approved the Audit Plan 2018. The Committee also noted

for completing the action items in time by the Management as per Internal Audit observation.

External Audit

- ▶ Reviewed with the External Auditor the Company's quarterly and annual financial statements along with the Finance Director and Managing Director focusing on findings arising from audits, particularly comments and responses in the management letter as well as assistance given by the employees of the Company before recommending them to the Board of Directors for approval.
- ▶ Reviewed the External Auditor's audit plan including its nature and scope, audit report, evaluation of internal controls and coordination between the internal and external auditors.
- ▶ Reviewed the External Auditor's findings arising from audits, particularly comments and responses in management letters as well as the assistance given by the employees of the Group in order to be satisfied that appropriate action is being taken.
- ▶ Exercised its right to hold meetings with the External Auditor (private audience with statutory auditor) without the presence of the Executive Directors or management. These private sessions help to reinforce the independence of the External Auditor. Reviewed the overall performance of the external auditor for the year 2017.

Related Party Transactions

- ▶ Reviewed reports of related party transactions and possible conflict of interest transactions to ensure that all related party transactions are undertaken on an arm's length basis and on normal commercial terms, consistent with the Company's usual business practices and policies, which are generally not more favourable than those generally available to the public and other suppliers and are not detrimental to the minority shareholders.
- ▶ Periodically reviewed recurrent related party transactions to ensure that they are undertaken on an arm's length basis and on normal commercial terms.
- ▶ Reviewed the estimated recurrent related party transactions mandate for the ensuing year and recommended to the Board to seek shareholders mandated at the upcoming Annual General Meeting of the Company.

Activities Summary

Our CSR initiatives are aligned with the Government and Group requirements, its business relevance, and focus on contributing to Government's agenda on Sustainable Development Goals (SDGs).

In 2017, the CSR Committee highlighted the following matters:

- ▶ **BAT Bangladesh CSI (Corporate Social Investment) portfolio** includes three flagship CSI programmes of the Company. These are the Afforestation programme, the Safe Drinking Water project and the Solar Home Systems. These programmes drive the corporate reputation based on the sustainable agriculture and environment theme.
- ▶ **Afforestation Programme:** British American Tobacco Bangladesh initiated its afforestation programme in 1980 when the forest department of the Government of Bangladesh called on the private sector to support its endeavour to conserve the forests. Every year BATB distributes 4 million free saplings and so far, the organisation has distributed 95.5 million free saplings across the country. This relentless effort makes the programme the largest private sector driven afforestation programme in the country. BATB is committed to continue this programme in line with the global and national drive to combat the adverse effects of climate change as well as to adhere to the Bangladesh Government's aspiration to achieve the Sustainable Development Goals (SDGs) set by the United Nations.
- ▶ **Water Filtration Project:** Recognising the necessity of water and sanitation, specifically in the context of the Sustainable Development Goals (SDG), BAT Bangladesh has stepped forward with a safe drinking water project for its community people. So far, BAT Bangladesh has established 73 water filtration plants in arsenic prone locations. These plants provide more than 400,000 litres of safe drinking water that is free from arsenic and other impurities to ensure pure drinking water for almost 190,000 people in this rural communities, every day. As a result of operating this particular CSR Programme, BAT Bangladesh won the 'Asia Responsible Entrepreneurship Awards' in Asia Pacific for best CSR project in 2015.
- ▶ **Solar Home System Project:** The Solar Home Systems project has been undertaken since 2011 by BAT Bangladesh with an aim to

bringing electricity to the lives of off-grid people of Bandarban, Khagrachari and Rangamati districts. Today, almost 12,000 people are getting electricity for the first time due to 2,064 units of solar home systems, installed by BATB. This initiative complements the Government's efforts in the renewable energy sector in achieving the United Nations' Sustainable Development Goals (SDGs).

- ▶ Engaging with local and national level stakeholders, highlighting the fact that BAT Bangladesh supports many other national and local agendas like agricultural advancement, people development, and economic infrastructural progress which impact positively on Nation Building.
- ▶ In last year, a survey was conducted to study the socio-economic impact of BATB's CSR activities on its stakeholders through Nielsen Company (Bangladesh) Limited, a leading global research organisation. In Q3 2017, the study was first launched in a National CSR Conference organized by SR Asia where the chief guest was the Finance State Minister, Mr. Muhammad Abdul Mannan. Subsequently, the impact study received exposure through an International CSR Expo arranged in Dhaka by Bizcare Consultants. The panel comprised of Subject Matter Experts (SMEs) from different countries and the Chief Guest was Mr. Abul Kalam Azad, SDG Principle Co-ordinator PMO. This CSR Impact Study is also the first publication of BATB that is now publicly accepted through its ISBN (International Standard Book Number). It has now become a part of different international and national academes such as the Western Sydney University and the Dhaka University. Students and researchers alike are now able to use this book as a reference material.

- ▶ In 2017 a unique concept was conceptualized for the first time ever -a CSR Forum in Bangladesh. It is a platform aimed to advocate policy and regulations and to create a hub to share best CSR practices. It aims to also help the government attain the SDGs and explore the Public Private Partnership area. It will drive opinion considering the upcoming CSR guideline and regulations. Along with BATB, some of the other founding members are: Marico, Nestle, BRAC, Olympic and GP. This Forum is currently operating through a soft-launch phase and is estimated to be fully launched around Q2 2018.

- ▶ As a responsible business organisation, British American Tobacco Bangladesh believes that business has a key role to play in helping society to achieve the necessary sustainable balance of economic growth, environmental protection and social progress. Therefore, its CSR activities are designed to contribute to the economic, social and environmental sustainability of the community in which it operates. To ensure further contribution to SDGs, the Company is looking beyond its current CSR initiatives to further contribute to the society in alignment with the policy makers of the Government considering the requirements of relevant stakeholders.

This CSR Committee Report is made in accordance with the resolution of the Board of Directors on 5th March 2018.

STANDARDS OF BUSINESS CONDUCT

BAT Bangladesh employees are governed by the Standards of Business Conduct (SoBC) which form an integral part of the Company's corporate governance. It is a fundamental policy of the Company and the Standards require all employees to observe and comply with the laws and regulations applicable to them as well as operate in accordance with high standards of business integrity. Employees must exercise honesty, objectivity and diligence in doing their work and must ensure that the Standards are never compromised for the sake of results. As such, the Standards continue to underpin our commitment to high standards of corporate responsibility.

The Standards are designed to:

- (a) Help employees who are faced with making difficult judgements in the course of doing their work and ensure that all decisions and judgements made by employees are lawful and comply with high ethical standards;
- (b) Set a tone and culture for the organization which will enable it to be regarded as a good corporate citizen; and
- (c) Give reassurance to BAT Bangladesh's stakeholders, with whom the Company comes into business contact.

The areas covered by the Standards are:

- Whistle Blowing
- Conflicts of Interest
- Bribery and Corruption
- Entertainment and Gifts
- Respect in Workplace
- Human Rights and Our Operations
- Charitable Contributions
- Accurate Accounting and Record Keeping
- Protection of Corporate Assets
- Confidentiality and Information Security
- Insider Dealing and Market Abuse
- Competition and Anti-Trust
- Money Laundering
- Illicit Trade
- Sanctions

Ethics and Compliance

To ensure compliance, all management employees, including the Board of Directors, are required to declare their compliance with the SoBC and disclose any conflicts of interest on a yearly basis. Conflicts of interest to be declared in the compliance are in relation to whether the employee and/or immediate family have an interest in or association with the operations of the companies/business which may lead to a conflict of interest. Immediate family here includes parents, spouses, children, brothers and sisters as well as step and adoptive relations. Compliance with the Standards is monitored regularly by the Board of Directors and the Audit Committee of the Company. The Legal & External Affairs Department/Company Secretary of the Company is charged with the responsibility of reporting to the Board of Directors on an annual basis regarding the compliance of these Standards by BAT Bangladesh and its employees. Employees have a duty to report incidences of non-compliance with the Standards and any other incidences of wrongdoing at work.

We are committed to providing a safe working environment for our employees and treat all our colleagues and business partners inclusively with dignity and with respect. Bullying colleagues is strictly prohibited. We do not employ child labour which is highlighted in the 'Human Rights & Operations' segment. Training sessions in different regions including the Head Office have been conducted by the Company Secretary & Head of Legal and External Affairs to ensure that our employees have precise understanding about the Company's principles and standards covering all the sections of SoBC 2014 in their activities and behaviour.

The Standards are made available to our employees and Board of Directors at the Company's corporate website at www.batbangladesh.com

A BRIGHTER TOMORROW

Bangladesh being a country of rivers and exquisite mangrove forests have faced situations where the environment has been threatened to various types of natural calamities such as tornado, high tide and so on. The arsenic prone rural communities in the greater Kushtia, Rangpur and Manikganj areas had suffered numerable cases of arsenic poisoning due to lack of sophisticated water filtration systems. With the Government's SDG of "Clean Water and Sanitation" in mind, BAT Bangladesh initiated its water filtration project, "Probaho". Thus far, 73 water filtration plants have been installed to ensure safe drinking water for approximately 190,000 people every day

DIRECTORS' REPORT 2017

It is a pleasure and privilege on the part of the Board of Directors to present the Directors' Report and Auditors' Report together with the audited financial statements of British American Tobacco Bangladesh Company Limited (BATB) for the year ended 31 December 2017.

Key Strategic Pillars of Business

BATB witnessed yet another successful year in 2017. The Company made steady progress in many areas during the year despite economic and regulatory challenges. The challenges this year were from different fronts - operational, regulatory and above all from an uneven competitive platform. But your Company continued its journey undaunted and brought you good result for the year together with value enhancement for the stakeholders.

INDUSTRY & COMPANY PERFORMANCE

Economic & Industry Overview

In 2017, Top 3 segments have grown after a long time (+15% in aggregate vs last year) owing mainly to the government's step towards reducing the index gap between Top & Low segment and focused brand initiatives by BATB. However, overall industry volume was still under stress and declined by -4.4% vs last year (2016). Volume de-growth was mainly driven by low segment (-9% vs last year). Low segment was under pressure, especially in post budget 2017 as the industry experienced an upsurge in illegal brands in different forms; i.e. DNP, Counterfeit & Transit illegal cigarettes. This upsurge remains a clear threat for the legal industry sustainability and government revenue which has been duly highlighted to the government. In line with this, Government has conducted few successful enforcements against illegal cigarettes during Oct-Dec 2017. This drive from Government needs to be continued on a regular basis to keep it under check.

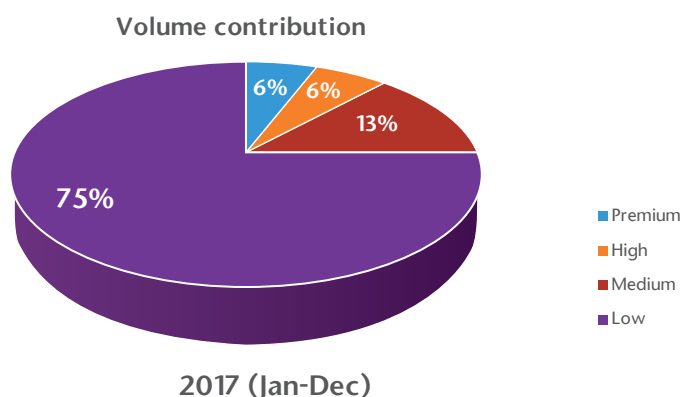

2016 (Jan-Dec)

2017 (Jan-Dec)

Segment wise volume contribution in the cigarette industry is shown below:

Segment wise volume contribution vis-à-vis its revenue contribution to government.

Industry Top 3 segments now generate 51% of government revenue which has grown by +16% in 2017 alone. This helped the Government to secure +15% growth in overall revenue from tobacco industry.

Company Performance

BATB Volume growth was achieved through a focused business strategy that was supported by our people across all business functions. Our brand portfolio was strengthened through innovations and an outstanding range of consumers' preferred quality products. The focus throughout the year was to match consumer expectations with the right offers across all segments. A review on the performance of each of the cigarette segments is as follows:

- ▶ In 2017, Benson & Hedges registered 25% volume growth vs 2016 which was driven by consecutive price hold for last 2 years and marketing initiatives. This single brand helped Government to generate 20% revenue in cigarette industry in 2017. The company is committed to sustain this growth momentum in the upcoming years.
- ▶ After successive years of volume drop due to price increase, John Player Gold Leaf was able to recover from decline in 2017 after consecutive price hold. The brand will require price stability to get back to growth momentum.
- ▶ Till 2016, STAR has also suffered massive volume decline due to year on year price increase

stretching consumer affordability. Last two years' price hold has helped to improve the brand value equation of STAR among consumers. In 2017, STAR experienced double-digit growth and BATB is committed to continue investment behind marketing initiatives to sustain the growth.

- ▶ In 2017, BATB Low segment brands showed a resilient performance (+3% growth over last year) in a declining legal industry heavily impacted by illegal cigarettes. The Company remains committed in maintaining the acceptable quality of its low segment brands & meeting the needs of the consumers. BATB is also closely monitoring the movement of illegal brands operating in the market and continuously highlighting the risk of potential revenue and profit loss for both Government and other industry operators.

BATB's Contribution to National Exchequer

In 2017, the Company contributed BDT 16,427 crore to the Government exchequer as Value Added Tax (VAT), Supplementary Duty (SD), Health Development Surcharge (HDSC), Income Tax & Custom duty. This represents an increase of BDT 2,800 crore over last year. BATB alone contributed 74% of the total VAT, SD & HDSC collected from the Cigarette industry. The Company will continue to support Government's proposals that help to establish a sustainable level of tax contribution to the National

BATB's Contribution to National Exchequer

Amount in BDT Crores

Exchequer while ensuring a sustainable growth for the industry and promoting a level playing field for all market players.

The Company recognizes Government's revenue growth targets and the industry has been working with the National Board of Revenue (NBR) over the years to ensure sustainable revenue growth from the cigarette industry. While listed companies in all other sectors enjoy a preferential Corporate tax rate, the same privilege was withdrawn by the Government for listed Cigarette companies. We strongly feel that by targeting the corporate tax structure of a listed manufacturer, it significantly impacts the shareholders' return and also takes away the incentives for others in the industry to be listed and thus is a hindrance for further growth of the capital market. The Company believes that the Government will reinstate differential corporate tax rate structures while considering the upcoming National Budget. Cigarette is already highly taxed (in the form of Supplementary duty & VAT) and there is no instance of discriminated corporate tax rates anywhere in the world for Tobacco Companies wherever it is listed in the Stock market. We continue to appeal to the regulators for a reversal of the position in the next national budget.

Productivity

The overall supply chain has been challenged to deliver the market needs on-time. As a result, manufacturing capacity was scaled up and also modified to cater to different pack formats. This required significant investment and meticulous planning so that the growing diverse market demand could be met. A series of productivity initiatives were undertaken across the Company to improve machine efficiency, overall equipment efficiency and machine utilisation. The year also focussed on processing of green leaf. Our leaf growing area was also revamped through various productivity initiatives to process this incremental leaf volume while ensuring the right quality and limiting the additional land requirements.

Cost of Goods Sold and Profit Margins

Revenue increased due to mix improvement. Your Company was able to translate most of the revenue into profit, resulting in a 1% growth in Operating margin to 34.3%. The Cost of Goods sold increased by 13.8% to BDT 2,718 crore due to volume increase, inflation and significant mix improvement, which was off-set through effective cost control and productivity savings initiatives across the Company.

Financial Performance

The gross turnover for the year increased by 23.3% to BDT 20,414 crores. The growth was driven by mix improvement and price increase in the low segment. The profit before tax reflects the impact of mix and price increase coupled with cost management and savings initiative, with an increase of 27.3% to BDT 1,676 crores. However, Government imposed a 2.5%

surcharge on top of our current tax rate of 45%. As such, BDT 3.19 crores and BDT 5.61 crores additional tax was charged for 2016 and 2017 respectively, leading to a 60% increase in taxation. Despite the higher tax expenditure, your company was able to deliver a 3.4% growth on Profit After Tax to BDT 783 crores.

Sustainability

Climate and environmental conservation has always been an issue of intense importance for Bangladesh. This is more so, as according to various naturalists' reports, Bangladesh will remain a vulnerable country to the impacts of climate change in the decades ahead. BATB believes that the business has a key role to play in helping society to achieve the necessary sustainable balance of economic growth, environmental protection and social progress in ways that will build value for all our stakeholders.

The Company undertook and is continuing with the three areas of Corporate Social Responsibility programs to create positive impact in the communities and environment at large. The flagship activity of the Company, the Afforestation Program, began in 1980 and our Company has distributed 95.5 million free saplings in and around our operational areas, including 4 million saplings in 2017. This continued effort makes the program the largest private sector afforestation programs in the country. The Company is committed to continue this program to support the Government initiative to combat the adverse effects of climate change. Over the years, the Company received a number of national and international awards and accolades for the afforestation drive across the country.

The Company also acknowledges the impact & dependency on biodiversity and the value of eco-system services such as forest products, soil and water resources. Hence, to make the farming communities aware on the importance of biodiversity and its contribution to the eco system, 72 biodiversity corners have been established till 2017 with the help of the registered farmers. The biodiversity corners are located in Kushtia, Meherpur, Chuadanga, Jhenaidah, Rangpur, Manikganj, Bandarban, Khagrachari and Cox's Bazar districts.

Millions of people in Bangladesh face scarcity of safe drinking water due to arsenic contamination. Responding to this need BATB has taken up a project that provides more than 400,000 litres of arsenic and other impurities free drinking water to arsenic-prone rural communities every day. This program is aligned with the Government's aim to achieve the Sustainable Development Goals of securing sustainable access to safe drinking water. So far, 73 water filtration units have been installed,

using government approved water filtration technology in Jhenaidah, Chuadanga, Meherpur, Kushtia, Tangail, Manikganj, Satkhira, Gopalganj, Lalmonirhat, Kurigram, Jamalpur, Madaripur and Natore ensuring pure drinking water for nearly 190,000 people every day.

To complement Bangladesh Government's efforts in the renewable energy sector, BATB has undertaken a project to install solar systems in village homes that are in remote, off-grid areas of Chittagong Hill Tracts. The solar initiative of BATB supplied 2,064 units of solar home systems in remote villages in Bandarban and Khagrachari districts, giving more than 12,000 rural people their first access to electricity at home

BATB has a fruitful partnership with farmers across the country through its various programs dedicated to improving overall agricultural practices and standards. The Company's Leaf function starts with the hard work of around 34,000 registered farmers within the village community. BATB's contract farming model has been a proven model for decades. The Company sets high standards of agricultural practices to ensure that the sources of raw materials are sustainable. Improving soil fertility, Integrated Pest Management and Water Conservation are key elements of good agricultural practices. The Company provides the technical know-how and extend necessary support to install Compost Pits in the homesteads of its registered farmers. Another initiative includes Green Manuring through Dhaincha cultivation (*Sesbania Aculeata*) - an effective approach to enrich soil health and fertility. These initiatives significantly improve the organic matter content in the soil, resulting improved soil fertility, thus reduces the dependency on the use of chemical fertilizers; these also reduces farmers' cost of production and environmental pollution.

The Company has been expanding Integrated Pest Management (IPM) Clubs in Leaf Areas in collaboration with the Department of Agricultural Extension of Govt. of Bangladesh, to educate the farmers for adopting to non-chemical alternatives for insects and pest managements for all kinds of crops. As a result of this continuous education

program farmers became more cautious and conscious about the use of chemical pesticide in farming. Therefore, they have adopted the biofriendly approaches including Neem Leaf Decoction, Bird Perching, Trichodarma, Pheromone Traps etc. So far, 75 IPM clubs have been established to run Farmers Field School to educate the farmers. The Company has been awarded with **Asia Responsible Entrepreneurship Award 2017 in 'Social Empowerment' category by Enterprise Asia for IPM Club initiative.**

Under the water conservation program, proper irrigation systems and regime have been established which ensure that only the required level of water is used and there is no wastage of water through the use of Poly Tubes and Furrow Irrigation.

BATB farmers are well equipped for using different alternative fuels such as: Jute Sticks, Dhaincha Sticks, Sugarcane bagashi, Paddy Husk Briquettes etc. Recently BATB has invested to make briquettes from tobacco and factory wastes for supplying to farmers. Altogether 80% of the tobacco is cured using alternate fuels. Moreover, to improve fuel efficiency 50% of the conventional barns has been converted to fuel efficient Rocket Barns with the support from the company.

The Company supports sensible tobacco regulations that balances the interest of consumers with the interests of society and enables the business to continue to compete and prosper. The Company is conducting all its activities in line with the amended Smoking and Tobacco Products Usage (Control) Act, 2013. All of the sales activities are governed in compliance with the Smoking and Tobacco Usage (Control) Act, 2005 and Amendment Act, 2013 and the subsequent Rules along Company policies. These principles symbolize the commitment to market the Company products appropriately and only to adult users in compliance with local laws and regulations. We have successfully complied with the local regulations regarding the Graphical Health Warning on our cigarette packets. Graphical Health Warning must be implemented on all tobacco products to ensure level playing field. However, we always believe that the regulations with respect to Graphical Health Warnings should not be

disproportionate, otherwise it will not deliver the intended results and will significantly erode our Intellectual Property Rights.

BAT Bangladesh has an economic impact both in terms of revenue generation for the Government and employment generation by employing around 1,500 direct employees, and 50,000 indirect employees in the form of farmers, distributors and suppliers and over 1.3 million retailers. The Company therefore, seeks that the Government takes an inclusive and participative approach about tobacco regulations, so that the regulatory policies reflect the views of all relevant stakeholders and are practical and enforceable.

Winning Organisation

The outstanding performance of BAT Bangladesh in 2017 can be credited to the hardworking people and the efficiency of the teams. The people of BATB are ever committed in driving the business with passion to win in an ever-changing and challenging business environment. The rapid success and growth of the company is powered through providing employees with an amazing work environment and involving the employees within the core business strategies. Peoples' constant resilience to tackle all the challenges has transformed BATB into an organization that is energetic and propels it to success.

BATB focuses on the learning and growth of its people with the aim of developing leadership capabilities to assist the people to realize their full potential. This is done by supplying the right opportunities to learn from their leaders and applying BAT's globally recognized learning and development platforms. The organization continues to provide the people with an environment that listens to their queries and that nurtures the talent. In 2017, around 260 employees have been trained through programs that helped them unleash their full potential. BATB focuses on building functional skills and also provides hands-on experiences to develop individuals as leaders. With the aim of sustaining the present agenda for talent, 105 employees were hired, 114 employees were transferred to other roles and 74 were promoted. International assignments were given to 15 Bangladeshi managers in countries such as UK, Singapore, Indonesia, Japan, Korea, Hong Kong and

Australia. On top of that, 265 employees were provided with leadership and functional skills training. Our talented and experienced factory employees went abroad to train up the factory operators in other countries such as Poland, Singapore, Fiji, Indonesia and UK.

The 14th edition of “Battle of Minds” (BoM), the flagship talent acquisition and grooming programme of the company was launched for universities all over Bangladesh. The programme aims to augment and develop the capabilities of fresh graduates to a high degree of proficiency to prepare them as business professionals. Every year Battle of Minds comes up with new ways to be more challenging as was the case this time around giving the participants a glimpse of the day to day problems of Dhaka City. In 2017, BoM alumni, with several BATB employees, visited some of the top universities of the country with roadshows, taking the stage to enlighten the students about the competition and its rounds. With comprehensive online campaigns, BoM reached out to 16 universities within the country with innovative initiatives like facebook live, the online campaign got the reach of over 2 million within the country. Through this, the number participants exceeded 2300 this year as BATB is determined to leave a footprint in the nation-building process with the help of its Battle of Minds and the success stories of its employees.

BATB takes on multiple initiatives in order to create a workforce that is highly engaged and strives to bring the people together in achieving the organisational objectives. We work constantly in involving people to make sure that they are aligned with the mission and vision of the company as well as their individual visions.

Environment, Health and Safety

British American Tobacco Bangladesh is fully committed to ensure safety and health of its people who come into BATB premises as well as minimize impact on environment. To keep the employees aware, the Company carried out various kinds of communications, awareness programs for managers, employees, and contractors throughout the year. A week-long campaign titled ‘EHS Awareness Week’ was arranged focusing on safe work practices in production floor, warehouses, and offices.

The CSR committee met two times in 2017. The initiatives are all aligned with the SDG's and we are contributing to fulfil the Government's commitment and for the BATB's shareholders at large.

Going Concern

The Directors are of the opinion that the Company is a going concern. Accordingly, Financial Statements are prepared on a going concern basis.

The System of Internal Control

As there is always a degree of uncertainty ahead of our operations, the Board of Directors assures its Shareholders that the Company has a competent risk management process to ensure that the system of internal control is sound in design and has been effectively implemented and monitored. Although it is possible that all risks to the business are not known at present, the Company takes reasonable steps to identify material risks that may hamper business results. The Company then systematically reviews these risks in light of the changing internal and external environment in order to assess that controls that are in place are adequate to address those risks. This report further encloses a detailed discussion on the internal control framework under the Statement of Internal Control.

Directors' Declaration as to Financial Statements

The Directors are responsible for the governance of the Company, and as part of preparation and presentation of the financial statements, the Directors confirm, to the best of their knowledge that:

- ▶ the financial statements, prepared by the Management of the Company which was scrutinised by the external auditors, present fairly its state of affairs, the result of its operations, cash flows and changes in equity;
- ▶ proper books of account of the Company have been maintained;
- ▶ appropriate accounting policies have been consistently applied in preparation of the financial statements and that the accounting estimates are based on reasonable and prudent judgment;
- ▶ the International Accounting Standards, as applicable in Bangladesh, have been followed in preparation of the financial statements and any departure from there has been adequately disclosed;
- ▶ the system of internal control is sound in design and has been effectively implemented and monitored;
- ▶ there is no doubt, whatsoever, upon the Company's ability to continue as a going concern.
- ▶ As required under the BSEC directives, the Directors further confirm that:
 - ▶ The CEO and CFO have certified to the Board that they have reviewed the financial statements and affirmed that these statements do not contain any materially untrue statement or omit any material fact or contain statements that might be misleading.
 - ▶ The CEO and CFO have certified to the Board that they have reviewed the financial statements and affirmed that these statements together present a true and fair view of the company's affairs and are in compliance with existing accounting standards and applicable laws.
 - ▶ The CEO and CFO have further certified to the Board that there are, to the best of their knowledge and belief, no transactions entered into by the company during the year which are fraudulent, illegal or in violation of the company's codes of conduct.

Retrospective Tax Demand by LTU- NBR

On 23rd November 2013, Large Tax Unit (LTU) of National Board of Revenue (NBR) served a retrospective VAT and SD demand for BDT 1,924 crore upon BATB for selling its products Bristol and Pilot in the low segment instead of medium segment. Thereafter, due to the unfounded and baseless nature of the claim, the company challenged the demand before the Hon'ble High Court and on 6th March 2016 the Hon'ble High Court reduced the demand to BDT 1,780 crore. The Company appealed against the same and the Appellate Division was pleased to admit the appeal on 13th November 2017 and fixed 13th February 2018 for the case to be listed for appeal hearing. The case is currently pending for hearing of the appeal.

BATB is the highest tax contributing company in Bangladesh and ensuring compliance with the law is its highest prerogative. BATB sold the products in question after getting the due approval from LTU-NBR and sold the same absolutely in compliance with the VAT-1 approvals. Despite providing the approvals to sell the products in low segment year after year, LTU-NBR served the retrospective demand and continued to give VAT, as approved after the claim.

The ulterior motive behind the aforesaid baseless and unfounded claim can be seen from the fact that the demand was initiated by competitor's complaint that BATB was selling products of higher quality in a lower segment. It is pursuant to the competitor's complaint that LTU-VAT conducted a chemical test at Bangladesh Council of Scientific and Industrial Research (BCSIR) to determine the quality of BATB's products Pilot and Bristol against BATB's medium segment products.

It is also worth mentioning that despite there being no reference of chemical test in the VAT law, LTU conducted this test only for BATB's products and none from the competitors. It should also be mentioned that the Supreme Court has confirmed that BSTI is the competent authority to conduct the chemical test and accordingly ordered LTU to conduct the chemical tests of low segment cigarettes of BATB and few other local companies at BSTI.

In accordance with the said order, the chemical test of BATB's products were conducted at BSTI and the reports confirmed that none of the cigarette brands are similar to each other. Therefore, the very basis of the LTU demands and the allegation of false price declaration now stands negated.

Moreover, Ministry of Law which is the responsible body for providing opinion on legal issues has also opined that there cannot be any retrospective VAT claim under the VAT law. It has confirmed that since BATB did not collect the VAT and SD of medium segment from the consumers, LTU- cannot impose any retrospective VAT and SD claim on BATB.

In purview of the above, namely BSTI's test reports which have negated the basis of the claim, Ministry of Law's opinion that there cannot be any retrospective claim and that reference to quality/test has no basis under the law and the Honourable Prime Minister and Finance Minister's assurance to reach a solution of this issue, the Board feels optimistic for a positive outcome.

Other Regulatory Disclosures

- ▶ The Company is aware of its various risks and concerns of regulatory bodies. Financial risk management has been disclosed under note 36.B of the financial statements
- ▶ All transactions with related parties have been made on a commercial basis and the basis was the principle of "Arm's Length Transaction". Details of related party and transactions have been disclosed under note 37 of the financial statements.
- ▶ The Company's IPO was made during inception. No further issue of any instrument was made during the year.
- ▶ From inception, the financial results of the Company have continued to grow as reflected in the yearly financial statements of the Company.
- ▶ As per IAS 1 Presentation of Financial Statements, no items of income and expense are to be presented as 'extraordinary gain or losses' in the financial statements. Accordingly, no extraordinary gain or loss has been recognized in the financial statements.
- ▶ No significant variations have occurred between quarterly and final financial results of the Company during 2017.

- ▶ During the year, the Company has paid a total amount of BDT 79,000 as Board meeting attendance fees. The remuneration of Directors has been mentioned in Note 37 of the Financial Statements.
- ▶ All significant deviations from the previous year in operating results of the Company have been highlighted and reasons thereof have been explained.
- ▶ The key operating and financial data for the last five years have been disclosed in the Directors' Report.
- ▶ The Company has proposed cash dividends for the year 2017.
- ▶ During 2017, a total of 10 (ten) Board meetings were held, which met the regulatory requirements in this respect. The attendance records of the Directors are shown in Annexure-1 to this report.

Corporate Governance Compliance Statement

BATB believes that enriched corporate governance contributes to the long-term success of a company and creates trust and engagement between the company and its stakeholders. Accordingly, the Board of Directors and Management are committed to continuously striving for the highest standards in governance to ensure that the business and its affairs are in strict adherence to the doctrine and principles of sound governance such as integrity, transparency, accountability and responsible business conduct to safeguard the interests of its shareholders and stakeholders. It is the responsibility of the Company Secretary, being the highest governance official in the Company, to ensure effective compliance of rules and regulations in this respect.

As part of its corporate policy, BATB always strives to maximize its shareholders' value and benefit. In doing so, the Company is committed to maintaining high standards of Corporate Governance. The Company's Corporate Governance framework is directed towards achieving its business objectives in a manner that is responsible and in accordance with its high standards of honesty, reliability, transparency

and accountability. The essential elements that define effective corporate governance in the Company are outlined in the Corporate Governance Statement which is appended in this Annual Report. The contents in the statement further expand on the broad practices in BATB. All the employees are expected to live up to these principles and guidelines which are communicated regularly throughout the Company in the form of various training and awareness programmes.

In this respect, we have the pleasure to confirm that the Company has, complied with all the necessary guidelines under BSEC Notification No. SEC/CMRRCD/2006-158/134/Admin/44 dated 7 August 2012. The Compliance Report along with the necessary remarks and disclosures is appended in this Annual Report for the year 2017. Further, a Certificate of Compliance required under the said Guidelines, as provided by M/s. Al-Muqtadir Associates, Chartered Secretaries, is also annexed to this report.

Auditors

The existing Auditor of BAT Bangladesh will retire at the 45th Annual General Meeting. Pursuant to Bangladesh Securities and Exchange Commission's order dated 27th July 2011, the Company cannot appoint any firm of chartered accountants as Statutory Auditors for a consecutive period exceeding three years. Hence, KPMG Rahman Rahman Huq, who have completed their tenure of three years as Statutory Auditors of the Company, do not qualify for reappointment. Considering the available options and on the basis of suggestion of the Audit Committee, the Board recommends A. Qasem & Co., Chartered Accountants, for appointment as the new Statutory Auditor of the Company for the year 2018 at the 45th Annual General Meeting at a fee of Tk. 900,000 (Taka Nine lacs) and requests the Shareholders to approve the appointment.

Business Commitments

BATB values and continuously updates its corporate strategies and commitments. It was more than 100 years ago, when the Company established itself on this land of opportunities

and possibilities - Bangladesh. Since independence of Bangladesh, BATB has demonstrated an unwavering dedication to the country and its people and this commitment is what sets BATB apart from any other business entity. This uniqueness is reflected through the passion and dedication of its employees and business partners that has brought BATB across the country to its today's height. BATB in Bangladesh is listed on both Dhaka and Chittagong Stock Exchanges and is currently the highest taxpayer. In this year alone, we have contributed Taka 16,427 crores in the Government exchequer in the form of supplementary duty, value added tax, income tax, custom duty and other levies. BATB has always cherished and shall continue to value its treasured relationship with the Government of Bangladesh, esteemed shareholders and other stakeholders of the Company.

Expectations In 2018

BATB has an ambition to provide consumers' preferred quality products, to its numerous customers/ brand users. Now, looking ahead in 2018 and beyond, BATB wishes to go ahead with the same zeal that it had started 100 years ago, to be the number one locally listed Company in turnover, in partnering with the national exchequer and to operate as a social responsible Company. Moreover, the Company's initiatives for 2018 will bring about a positive change across the nation with its various initiatives directed towards poverty alleviation, gender equality, human development and well-being, partnership in green cultivation practices, prevention of arsenic contamination, forest preservation, and extending sustainable modern energy in off-grid areas.

Acknowledgements

The performance of BATB in 2017, even with so many challenges confronted, demonstrates the determination of the Board, Management and overall the people in the Company. The outstanding achievement of the year is more than a tribute to the countless brand users of the Company and its numerous stakeholders'. And with that conviction at the background, the Board of Directors firmly believes that BATB has the necessary strengths, resources and commitments to further propel the Company to newer heights. The Members of the Board would like to place on record their high appreciation to the valued Shareholders and all other Stakeholders of the Company for their persistent support and guidance. The Board would also like to thank each and every customer for their continued support and for making the Company brands their preferred choices. The Board also recognises that its journey and accomplishments during the year was possible because of the cooperation, positive support and guidance that it had received from the Government of Bangladesh, particularly the Ministry of Finance, Ministry of Commerce, Ministry of Agriculture, Ministry of Labour and Employment, Ministry of Forest & Environment and Ministry of Housing & Public Works, National Board of Revenue, Board of Investment, Bangladesh Investment Development Authority, Bangladesh Securities and Exchange Commission, Stock Exchanges and other numerous stakeholders. The Board would also like to appreciate the support from bankers, Bangladesh bank, insurers & financial institutions, vendors, the Press & Media, business partners and all of our employees. Accordingly, the Board offers its utmost gratitude to them.

We also extend our warmest thanks to the management and employees for being the essential part of BATB during the year. It was their unrelenting commitment, dedication and diligence throughout the year that led to the Company achieving the results, awards and accolades in 2017.

We are proud of you all and look forward to your continued support as we march ahead to take BATB forward as a leading player within the Bangladesh business community.

UNITED FOR “PLANET”

BAT Bangladesh initiated its afforestation programme “Bonayon” in 1980 to support the Government’s intentions to achieve the Sustainable Development Goal of “Life on Land”. Every year, BATB distributes 4 million free saplings to prevent and reverse the deforestation of our forests with fruit, timber and medicine yielding species. Till date, BATB has provided 95.5 million saplings across the country, with noteworthy projects that include the Lalon Shah Bridge, the Lama-Alikadam Road, the Naikhanchari Hills, the Chittagong Airport, and Palashbari.

INTEGRATED REPORTING

The cycle of integrated reporting will act as a force for financial stability and sustainability by focusing on value creation over time. Integrated Reporting promotes a more cohesive and efficient approach to corporate reporting and aims to improve the quality of information available to our investors and other stakeholders. An integrated report aims to provide insight about the resources and relationships used and affected by an organization.

Scope of The Report

Our report highlights fiscal year financial performance in accordance with the Bangladesh Accounting Standards (BASs) and Bangladesh Financial Reporting Standards (BFRSs) issued by the Institute of Chartered Accountants of Bangladesh (ICAB).

In preparing our 2017 report, we have referred to the 'Annual Report Review Checklist' issued by both Institute of Chartered Accountants of Bangladesh (ICAB) and South Asian Federation of Accountants (SAFA) and the 'Integrated Reporting Checklist' which is in line with the integrated reporting elements issued by the

International Integrated Reporting Council (IIRC). The financial statements and other disclosures for the year of 2017 are in accordance with the requirements of

- ▶ Bangladesh Accounting Standards (BASs) and Bangladesh Financial Reporting Standards (BFRSs);
- ▶ Companies Act 1994;
- ▶ Securities and Exchange Rules 1987;
- ▶ The Income Tax Ordinance 1984;
- ▶ The Income Tax Rules 1984;
- ▶ And other applicable laws and regulations of the country.

The non-financial information provided in our 2017 report has been published from internally maintained records.

Our corporate governance practices report has been drawn in reference from the revised Corporate Governance Guidelines (CGG) issued by Bangladesh Securities and Exchange Commission (BSEC).

FINANCIAL CAPITAL

FINANCIAL CAPITAL

Our financial capital includes our monetary resources, which are obtained through our business activities and from external sources. Funding mechanisms, such as overdraft and revenue are the main sources of our financial capital. Each year, we continue to implement financial strategies that enhance our financial capital to enable us to carry out the day-to-day business activities of the company and strengthen our ability to create value for all the stakeholders of our business. In 2017, our financial capital was enhanced by strong performance from our business segments.

Doing so requires us to effectively manage our risks, assess the wider economic impacts of our activities on society and maintain a balance between good corporate governance, while at the same time staying true to the values on which our business is built.

Given below are some key financial indicators that demonstrate our ongoing efforts to enhance our financial capital.

Key Financial Information:

(BATB annual report page no 76)

FINANCIAL HIGHLIGHTS

- ▶ Operating profit 28% higher at BDT 17,802 million, underpinned by record sales volumes of 53,204 million
- ▶ Earnings per share up 3% to BDT 130.50
- ▶ Return on capital employed up from 64% to 66%
- ▶ Cash generation of BDT 978 million, supported by working capital efficiency improvements
- ▶ Dividend of BDT 60 per share declared/increased (2016: BDT 60)

PURPOSE

The purpose of this review is to provide insight into the financial performance and financial position of the company for the year ended 31 December 2017 and should be read in conjunction with the annual financial statements presented.

OVERVIEW

Strong operating performance supported a 3% increase in normalized earnings per share to BDT 130.50 in 2017 from the BDT 126.37 achieved in the previous year.

Improved Overall equipment effectiveness promoted higher and consistent production performance which supported the attainment of record sales volumes of 53,204 million

FINANCIAL PERFORMANCE

The financial performance of the company is measured in terms of various key financial measures which include operating profit, return on capital employed, cash flow generation, gearing and liquidity, as set out below:

Operating Profit

A strong manufacturing performance in cigarettes, supported by productivity and equipment efficiency, led to sales volumes increasing by 10% to a record 53,204 million

The strong volume improvement contributed to a lower 2% increase in unit manufacturing costs in nominal terms. Raw Material consumption growth increased in line with the production volume growth.

The gross turnover for the year increased by 23.3% to BDT 204,140 million. The growth was driven by mix improvement and price increase in the low segment. The operating profit reflects the impact of mix and price increase coupled with cost management and savings initiative, with an increase of 28% to BDT 17,802 million.

Finance Costs

Total interest paid increased to BDT 192 million due to higher average borrowings (albeit reduced in the second half).

Taxation

The tax rate increased from 45% to 47.5% in the current year.

Cash Flow

The company generated cash flow before financing activities of BDT 1,743 million in 2017, supported improving operational performance and working capital management.

Working Capital Management

The overall working capital management has been challenged to deliver the market needs on-time. As a result, manufacturing capacity was modified to cater to different pack formats.

Company's receivables increased by 180% over 2017, to BDT 2,315 million due to weekends and bank holiday.

Trade payables increased significantly on the prior year, reflecting higher purchases in line with increased production volumes.

Borrowings and Liquidity

Net borrowings closed at BDT 3,058 million, up by BDT 1,268.million on the prior year closing position.

Return on Capital Employed

The return on capital employed for the company increased from 64% to 66% year-on-year. This mainly reflects the increase in operating profit in 2017, the improvements in working capital and the lower level of capital expenditure.

Dividends

A final dividend for the 2017 financial year of BDT 60 per share has been proposed by the Board of Directors. In accordance with International Financial Reporting Standards, no liability has been raised for the final dividend declared.

MANUFACTURED CAPITAL

Manufactured capital is the infrastructure, plant and equipment that we use to produce our products. It includes assets that are produced by other entities and those manufactured internally and exclude intellectual capital such as software. The management of these assets is a key business imperative and is considered an essential element in achieving manufacturing excellence and operational performance. The implementation of asset maintenance and care policies will improve asset utilization and profitability.

MATERIAL DEVELOPMENTS

- ▶ Product manufacturing output was 53.7 Bn Sticks (quantity) for the year due to strong operational performance.

LOOKING BACK ON OUR 2017 GOALS

- ▶ Manufacturing performance yield increased from 60.5 % to 68.0 %

FOCUS FOR 2018

- ▶ Continue to improve our production performance and efficiencies to reach our upwards revised target of 72%
- ▶ Continue to optimize our cost efficiency program without hampering on targeted production and sales levels

ASSET MANAGEMENT STRATEGY

The purpose of the asset, risk management strategy is to provide a structured approach to the implementation of an asset risk management system. Our asset management strategy is aligned with international best practice. The focus is on asset care, operation and maintenance while considering the asset performance and the effect of external factors.

KEY AREA FOCUS:

Business risk assessment

To identify potential assets that poses a high risk to the overall business objectives.

Operation task criticality

To determine activities related to assets that can cause harm to people and the environment while performing these activities.

Equipment criticality analysis

To identify the most significant equipment and determined the most appropriate approach to the development of maintenance tasks.

Spares criticality analysis

To determine inventory categories and developed an approach for a specific spare or material.

Asset acquisition risk management

To determine issues that should be included in the specification of the asset such as training, integration of systems, energy considerations, critical spares and technology.

ASSET CARE

The asset care team ensures that equipment is kept in good, functional condition and contributes to safe working conditions and prevents environmental damage.

Our dedicated asset care team is focused on furthering the:

- ▶ Development and implementation of Asset Risk Management policies and governance
- ▶ Development and implementation of centralized work planning and control
- ▶ Development and implementation of improved material management systems Our reliance on manufactured capital and our approach to the management thereof allow for us to extract the benefits and value of our assets.

Material Aspects

- ▶ Ensuring optimum accessibility to clients.

- ▶ Infrastructural resource maintenance and development.
- ▶ Maintaining state-of-the-art work environment.
- ▶ Resource utilization.

Challenges

- ▶ Ensuring infrastructure sufficiency supports growth ambitions.
- ▶ Balancing costs and benefits of investments.
- ▶ Rapid changes in technology and the timing of investments.

Scalability of Business Operations

As a manufacturing company, we remain prepared to scale our operations in response to abrupt rises in business or unexpected opportunities requiring quick decision-making. What makes us scalable is our long-term focus, and a blend of ambitious goal setting combined with prudent investments in infrastructure.

A key component driving the balance between maintaining scalability and resource utilization remains in our efforts towards continuous improvement to enhance process efficiencies. This is further elaborated within our Intellectual Capital (pg. no 106)

Economies of Scale

By itself, when we invest in a new asset, or in additional equipment for our employees the costs incurred are paid through the additional number of consumers we are able to serve. These benefits are multiplied by investing in our manufactured capital also enables economies of scale when it transforms into:

- ▶ Intellectual capital, by enabling process innovations and knowledge-sharing through investment in technology and platforms.
- ▶ Human capital, through providing our people with platforms and tools they can use to improve efficiency and reduce turnaround times. Also, when we invest in smarter work environments, our employees are better able to deliver.
- ▶ Social and relationship capital, by enabling us to extend our services to a wider geographical location.

Enhancing Our Work Environment

We provide state of the age manufacturing and office that cater to employees in terms of work space, facilities for extra-curricular activities and so on. These help create greater attachment to the company and is in line with our philosophy that a good work-life balance should start at the workplace. In order to help employees reach their potential, a good work environment needs to be complemented with employee engagement initiatives, efforts towards employee health and well-being and numerous other factors that are discussed in our Human Capital (page: 108)

Investing in Eco-friendly Workspace and Policies

We have taken initiatives to make our plant warehouses and offices more eco-friendly and reduce our carbon footprint. We invest in making our premises more energy efficient. Our efforts towards environmental protection are highlighted in details within our Natural Capital.

INTELLECTUAL CAPITAL

Our Intellectual Capital comprises of the intangible factors that are unique to BATB. Our values, our culture, knowledge of our people, our processes and the specific way we conduct our business, all of which cannot be easily quantified, but go a long way in determining our competitive position and sustainability in the long term. It includes all our knowledge-based assets such as process blueprint, procedures, protocols, copyrights, software and licenses. As a key competitive advantage that underpins our growth ambitions, we assess the extent to which our proprietary and licensed technologies, in combination with our expertise, provide sufficient advantage to generate the returns on investment we seek.

As technology and process improvements become more of a differentiating factor within modern companies, intellectual capital becomes a greater factor in achieving success in a competitive marketplace.

Therefore, strengthening all aspects of our Intellectual Capital remains a strategic imperative, which calls for broad ranging investments, especially in LEX, Marketing, Operations & IT.

In a world where access to critical information and the ability to act quickly and effectively are becoming the key differentiators, the main priority for BATB technology team is to sharpen the technology focus and transform the business today, in a way that would reshape the company tomorrow.

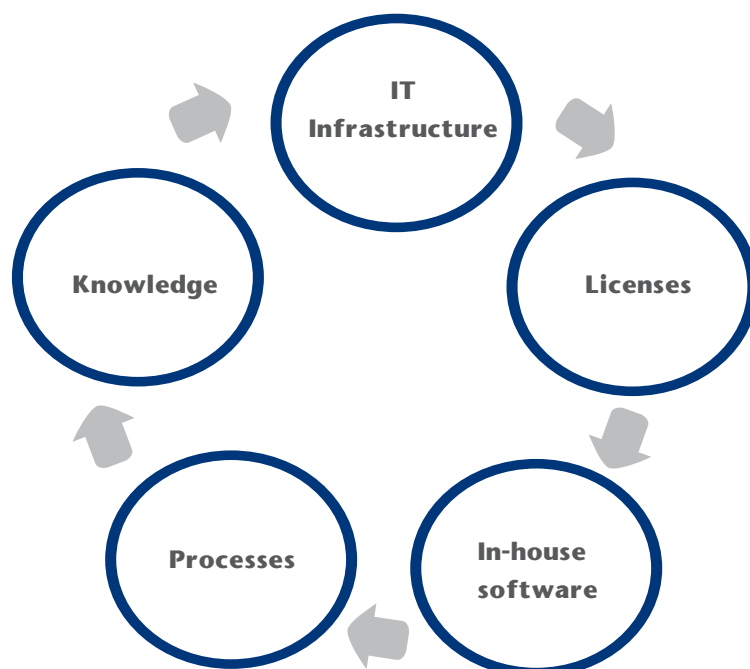

This means leveraging on groundbreaking new technologies in cloud systems management and business analytics, to tap into new opportunities and create new bases of competition that would provide a leading edge in the market.

Risk Mitigation through IT

Besides enabling us to scale our operations, these investments also help us mitigating various risks.

Global Application

As a global line organization, to harness maximum benefit, we use ERP application to capture real time transaction data, effective monitoring and management reporting. All processes are in line with TOM (Target Operating Model) and EPR systems are the interface for the BAT defined processes.

To support the mentioned processes, we are also using few global applications & office productivity tools for efficient recording of business transactions, processing data, generating reports and performing daily correspondence. which are:

- EPR (SAP ECC6)
- SRM
- BPC
- Success Factors
- Skype
- Share Drive, Share Point & One Drive
- MS Office (Outlook, Power Point etc)

Bespoke Application

In order to further enhance the operational efficiency and enable the management to take effective decision, our IT division continues to support, improve & implement various bespoke systems by leveraging technology to support our main business processes. Few of the critical application are the Payroll system for Management and Unionized employee, Share management system, secondary sales reporting application, Internal system to manage contract approval process, Integrated quality management system to ensure product quality and LC management system.

Processes

IT focus was always to align IT strategy to support business. IT function also keen to information security, risk and compliance

ensuring accessibility and availability of right information to right people.

Knowledge

Knowledge is the key element to capture and make it available to everyone to make a leap from current stage. IT has introduced a few systems as depository of information to learn and disseminate to greater audience. Our Interact system is the core of knowledge & sharing place where all can contribute and can be benefited.

Training

We take several initiatives to improve the user experience using some IT collaboration tools. Create awareness to use Skype and One Drive are mentionable one where people can connect & share information with others within country and beyond.

Outcomes of Above Initiatives

As a result of improving operational efficiency, it has been possible to attain value addition in several stages. From regular operation to elimination of redundant work for our employees; from cost savings translating to better profits for our shareholders, to better resource planning in turn leading to lower carbon footprint towards the environment, investments in developing our intellectual capital has proven to give its dividends.

HUMAN CAPITAL

Developing Talent As a Competitive Advantage

A group of motivated, multi-talented employees are the main asset of BATB. BATB has been recognized as one of the employers of choice in the country. The Company has positioned itself with a performance-driven rewarding work culture where employees are treated with respect and receive expanded opportunities to realize their diverse potentials. This also benefits the organization by demonstrating value creating behaviors. To ensure long term sustainability, BATB emphasizes on skill and merit based recruitment and selection process, highly competitive remuneration package, sufficient training and development programs, career growth with succession planning, high-performance culture and satisfying working atmosphere where employees are able to escalate their grievance and receive counseling.

The Company recognizes its Human Capital as a core part of its business sustainability and growth. The bank has a special focus on converting the human resources into the human capital. The Company promotes a safe and conducive environment for the development of our employees, which creates commitment and increases productivity. BATB recognizes that in order to retain the Company's market leadership; hiring, retention and training of talented employees is an imperative and continuous process.

BATB considers quality and skilled Human Resources as one of the most valued assets for the company to attain organizational objectives and goals. BATB believes that its human resources are critical in building and running the company.

Attracting the Best

The company believes that its uniqueness and strength comes from the emphasis they put in the quality of the people in the organization as they play an integral role in the Company's success. Battle of Minds, a renowned and extensive competition organized and hosted by BATB every

year, is a highly anticipated business recruitment platform for thousands of ambitious and capable final year university students. It is the flagship employer branding initiative of BATB and has been carried out for 14 years with specific focus on graduate engagement, as a platform which helps fresh aspiring graduates to transition into corporate life. By reaching out to students from the 3 disciplines – Business, Engineering & Agriculture, through extensive road shows and student engagement sessions, it gives an opportunity to more candidates to get a feel of the BAT way of doing things. Teams who make it to the final stage showcase their understanding of real time business complexities and idea generation, in order to recommend relevant and realistic business solutions.

Other than Battle of Minds, the Company uses a wide array of interactive and engaging assessments to identify and select the most talented applicants through rigorous multilayered recruitment processes. The Company has a Global Graduate Programme which is aimed to recruit outstanding fresh graduates and develop them as the future leaders of the country.

Recruitment & Selection:

SOCIAL AND RELATIONSHIP CAPITAL

Social and Relationship Capital

Our story embarks on the relationships we have created and nurtured in collaboration with our stakeholders - our customers, our employees, our shareholders and our Community. We stay in touch with all our stakeholders to create sustainable development, and reach objectives in a mutually beneficial way.

Material Aspects

The material aspects of our social and relationship capital are focusing on gaining stakeholder confidence, making Bangladesh 'Green', and using renewable energy for lifelong value. In doing so, we also focus specifically on corporate social Responsibility, and ensure environmental and corporate governance.

We consistently engage with our stakeholders which enable us to identify the material aspects. In return, we grow in strength by fulfilling such demands of the stakeholders. Engaging in such a relationship with the stakeholders and working together paves a path for us to do more for the country.

Highlights

- ▶ Dividend disbursed in 2017.
- ▶ Planted 4 million saplings in 2017, 95.5 million aggregate.
- ▶ Solar home systems project by BAT has reached 12,000 people in off-grid areas.
- ▶ A united family of around 1500 employees.
- ▶ 190,000 people receive fresh water every day through BAT's water filtration project.

Challenges

Due to the nature of our industry, we operate within a key strict regulatory framework, therefore it become challenging for us to reach all of our stakeholders.

Customer

Our goal is essentially to go beyond providing traditional manufacturing facilities and create real value for individuals and businesses that

collaborate with us. This requires us above all, to become a sustainable manufacturing business capable of serving today's customers, as well as paving the way for future generations of Bangladesh to succeed in an ever-changing world.

As we continue to realign, strategies and make changes in the way we do business, our intention is to keep pace with the growing needs of all our customers.

Supplier

Our suppliers employ lots of people around the country. The decisions we make can have a big impact on their lives and their communities. We have a great responsibility to protect the rights of all the people in our supply chain, and to do everything we can to preserve our planet's fragile environment. That is why we obsess over every detail of how we build our distribution system. That is why we invest in training to provide opportunities and tools to help our suppliers.

We have a Supplier Code of Conduct that requires our suppliers to adhere to high standards for safe working conditions, fair treatment of workers, and environmentally safe operations. We aim to strengthen these standards in a continued effort to raise the bar.

Community

As a responsible company, BATB believes that the business has a key role to play in helping society to achieve the necessary sustainable balance of economic growth, environmental protection and social progress.

Therefore, its CSR activities are designed to contribute to the economic, social and environmental sustainability of the community in which it operates. The Company's CSR initiatives are aligned with the Sustainable Development Goals (SDGs) of United Nations.

NATURAL CAPITAL

We do realize however that this does not in any way reduce our responsibility towards the environment. It is why we strive to assess the impact our actions may have on the environment and based on the results of these findings we then look for ways to improve the way we operate. Spearheading the entire effort is a broad-ranging environmental strategy aimed at reducing the company's carbon footprint. Focusing on what we consider to be material environmental aspects relevant to our business, the strategy seeks to ensure that our impact on environment is minimal. This is not only to help the company to lighten its environmental footprint, but also to create a strong social impact that will convey a positive benefit for stakeholders of our business.

Our CSR initiatives focus on our commitment to maintain our environment reflects why BAT Bangladesh is a responsible business organization and the flagship CSR initiatives of the Company are designed to contribute to the economic, social and environmental sustainability.

Material Aspects

Our focus as part of our CSR initiative is to ensure to help moving forwards a, 'Green' Bangladesh, off-grid environmental and resources management and enduring business practices.

Highlights from our investment in natural resources

- Planted 95.5 million trees across Bangladesh to conserve the forests.
- 2064 units of solar home systems installed to help lives of 12,000 people in off-grid locations such as Bandarban and Khagrachari.
- Installed 73 water filtration plant in arsenic prone location to provide 400,000 liters of water everyday

The challenges we faces include lack of awareness regarding benefits of green environment in many of our shareholders.

The CSR initiatives undertaken by BAT contribute to the society and falls in line with the regulators of the Government considering the requirements of relevant stakeholders. These initiatives focus on sustainable development goals set by the United Nations. (BAT)

The Main Pillars of Our Environmental Strategy

BAT Bangladesh is committed to its shareholders and stakeholders to reduce the impact on environment that arises from its operation. The Company has taken several initiatives to reduce energy, water and waste consumption while at the same time taken appropriate measurements to ensure reduction in carbon emission from its operation.

Key Drivers

- ▶ Installing of LED lighting solutions.
 - ▶ Upgrading of air conditioning units at branches.
 - ▶ Installation of energy-control equipment to optimize energy utilization at branches.
- ▶ Using solar power.

Engaging Employees

Commitment

Introducing an environmentally conscious mind-set among employees to ensure that the team is aligned to the company's environmental goals.

Key Drivers

- ▶ Providing training to educate employees regarding environmental issue.
- ▶ Promoting employee participation in the company's CSR initiatives in Environment protection and conservation.

OPERATING ENVIRONMENT ANALYSIS

Political

Political situation of the country is improving compared to last couple of years. Crisis Management was activated where probable issues were taken into account and mitigation measures were taken to ensure the safety of people and processes of the Company (BATB) for sustainable business continuity.

Economic

Bangladesh is one of the fastest growing economies in the world. Currently, the country has been recognised as developing country from LDC grade. Standards of living has been improving in recent years which is visible in the economic growth of the Country. BATB is very proud to lead the tax compliance task of the cigarette industry and playing its due role in the economic development journey of the country and at the same time delivering sustainable shareholders' return. There are more than 51,500 people directly and indirectly involved with BATB operation and the company tries to provide possible maximum living standard for its stakeholders.

Social

As a responsible Company, BATB's CSR (Corporate Social Responsibility) portfolio includes three flagship programmes. These are Afforestation, Safe Drinking Water and Solar Home Systems. The CSR programmes contributed to revenue growth, job opportunities, business investment opportunities, better facilities for education and increased standard of living of concerned stakeholders.

Technological

We make significant investments in research, development and technological upgrades to deliver innovations that satisfy or anticipate

diverse preferences of consumers, generate growth and ensure sustainability of the business. We also research, develop and test new products to meet changing consumer needs. Specific targeted investments in equipment, quality and productivity play a role in our short-term success and in the long-term development of our organisation.

Environmental

Climate and environmental conservation has always been an issue of intense importance for the Country. According to various naturalists' reports, impacts of climate change will remain a challenge for Bangladesh in the decades ahead. BATB believes that the business has corporate social responsibility in helping society to achieve the necessary sustainable balance of economic growth, environmental protection and social progress in ways that will build value for all our stakeholders. We have implemented the policy on Sustainable Tobacco Programme with an aim to apply the best local and international practices in the areas of Agronomy, Leaf Depot Operations, Leaf Processing Operations, Environmental Management, Human Rights, Occupational Health and Safety Standards encompassing its Leaf Operations. The Company undertook and is continuing with the three Corporate Social Responsibility programmes to create positive impact in the communities and environment at large.

Legal

BATB is a law abiding Company. The Company's all activities, policies and procedures are developed in accordance with the local as well as international applicable regulations. Currently the cigarettes industry is governed under strict regulations imposed by the government. The organisation is committed to ensure all regulatory compliance in the business.

A UNITED FRONTIER OF EQUALITY

BAT Bangladesh is helping the Government to achieve its SDG of "Gender Equality" through vigorously promoting equality and co-existence within the workplace. With a 13% current female representation in the workforce, and 29% of the company's leadership roles held by women, BATB ensures equal and non-discriminatory opportunities and practices. Furthermore, the company has set in place daycare centers along with on-site transportation facility during odd hours, as well as full paid maternity leave to encourage female participation in the workplace. BATB also has a training program called "Will To Lead" that helps its female employees become future leaders of the company. The initiatives of the Company have led us to win awards such as the 'Diversity Impact Award' and 'Most Female Friendly Organization Award'.

STRIVING TOWARDS BETTER SAFETY

BAT Bangladesh is fully committed to ensure the safety and wellbeing of its people and to help complement the Government's effort to achieve the Sustainable Development Goals of Sustainable Cities and Communities. The Company launched a behaviour based Safety Campaign in 2016 that trained a staggering 1500 people over the last two years with clear observable benefits today. A week-long campaign titled 'EHS Awareness Week' is arranged every year focusing on safe work practices in production floor, warehouses, and offices. On environmental front, several initiatives were taken to reduce energy, water and waste consumption including an initiative to install solar panel equivalent to 155 kw supplying electricity to the main grid of the factory.

ENVIRONMENT, HEALTH AND SAFETY

The Journey Continues

BAT as a group believes in creating an inspiring, motivating and high performing working environment for all its employees across the world. As a socially responsible organization BAT puts a lot of effort and resources in maintaining a world class standard of Environment, Health and Safety (EHS) practices. As BATB's market is growing impressively, the betterment of EHS standard is even more important for the welfare of its employees and sustainability of environment. During the period of 2017, several initiatives were taken to further improve the facility and build awareness level of EHS among the employees and improve the work practices.

BATB is fully committed to ensure safety and health of its people who come into its premises as well as to minimize impact on environment. We expect our people inside our premise to stay safe so that they can get back home safe and sound. To remain safe while carrying out various business activities it is extremely important for all of us to be aware of the risks associated with any activity and act/behave safely.

BATB started a new journey in EHS front. Behavior based safety has been launched with a brand name PULSAR (a Portuguese word meaning close to heart). This is a two way communication between people who observe each other's work behavior and then discuss with each other in a polite, positive manner. This happens frequently and conducted by managers, employees. We believe this process will help us in achieving the objective of safe work attitude in the long run. This was launched in 2016 and gradually rolled out in all factories in 2017. A staggering 1,500 people have been trained over the last two years through PULSAR observation process. We are observing benefits of this system now.

REPORTING OF NEAR MISS OF BY
COMPANY MANAGING DIRECTOR

To keep our people aware, we carried out various kinds of communications, awareness programs for managers, employees and contractors throughout the year. We arranged weeklong campaign titled 'EHS Awareness Week' focusing on safe work practices on production floor, warehouses and offices. This year's theme was 'SHARE TO CARE' focusing on 'Near Miss' reporting to develop a strong reporting culture highlighting the benefits of early reporting of issues.

VARIOUS INITIATIVES TO BRING AWARENESS ABOUT HEALTH THAT HAS BEEN CARRIED OUT DURING THE WEEK

Skit competition was arranged on predefined issues to bring awareness. Employees participated with enthusiasm and demonstrated innovative ways of conveying messages on EHS.

TRAINING PROGRAM WAS ARRANGED DURING THE WEEK TO REFRESH KNOWLEDGE ON KEY ISSUES.

On environmental front, several initiatives were taken to reduce energy, water and waste consumption. The biggest initiative was installing solar panel equivalent to 155 kw supplying electricity to the main grid of the factory. It was well appreciated within the BAT group.

GOING GREEN

The world we see today is changing rapidly than we normally tend to pursue but we humans are the reason behind this modern change. What we do affects us in one way or the other even if we are unaware of it. The impact we have on the

environment has come under a massive point of interest in the past few decades as the issue of global warming has been an alarming sign for all of us. However, this does not mean we stop and turn back but instead we call for sustainable business development through eco-friendly methods which will enable us to make the planet we live in 'Go Green'.

In BATB, the methods taken are indicated towards waste minimization, design for environment and cleaner production which promotes a green supply chain as this reduces the carbon emission footprints. The following procedures we have undertaken are an effort to help recent global challenge of greenhouse gases:

Trip Reduction Utilization

- ▶ By stacking 10% more goods on each trip made by the trucks we reduced the number of trips by 1400 over the last year which resulted in saving 152 MT carbon emissions
- ▶ Transporting leaf through routes which cover less distance has reduced mileages by 32,000 kilometers which resulted in saving 64 MT carbon emissions

Energy optimization

- ▶ Using sunlight through transparent sunroofs allows us to use daylight by additional 2hours as an innovative idea, we have saved over 486MW of electricity over

the past year and 200MT of carbon emissions

- ▶ All Finished Warehouse Factory produces 175KW daily from solar panels installed on the roof
- ▶ We have also installed in our newly built most energy efficient building:
- ▶ 43 Motion & Occupancy Sensors type lights, 3 Motion Sensing Water taps & 2 Sun duct, installed temper glass wall which ensured maximum use of natural lights & reduced electricity, VRF types AC in all offices which ensured 45% less electricity consumption than normal

Water recycling

- ▶ In all our Finished Good Warehouses we have placed water reservoirs for fire hydrants as fire preventive measure through rain water harvesting
- ▶ Effluent Treatment Plant (ETP): 60,000 liters of water daily is used for gardening, road cleaning, toilet flush and production support

Usage of modern technology for saving Energy

- ▶ We've applied Astec coating on total factory roof which radiate direct sunlight & save

almost 10% of Air conditioning load

- ▶ Using natural turbine ventilator fans on all roofs of ware houses & Utilities plant which ensure natural cooling without electricity
- ▶ All lights in the entire BATB premises are energy efficient LED light which ensures 80% electricity savings from lighting load
- ▶ BATB is always prime in implementing latest technology machineries considering energy

conservation & reducing footprint such as Magnetic Bearing Chiller, VSD for Chiller, AHU, Cooling tower, Compressor, Vacuum, & production machineries in both SMD & PMD.

Using stocks as fuel

- ▶ After replacing damp stocks from retail, we gather them all & supply to Board Manufacturers for use as fuel in their burners. Such initiative helps limit carbon emissions by 27MT

Over the last year, these methods have reduced carbon emissions by 443 metric tons in total which is equivalent to 266 metric tons of wood fuel. These adaptations help the environment and proves as a modern method for cost saving. As we progress towards the future we should always remind ourselves about the responsibility we have towards the environment not locally but globally. What we have started and the numbers we have stated is just the beginning of what is to come, and we encourage others to join with us in this initiative.

TOBACCO AND FACTORY WASTE BRIQUETTING:

A Sustainable Waste Management Approach

Leaf Operations of BAT Bangladesh operates in a very efficient and responsible manner to ensure its sustainability. Efficient utilization of limited resources and managing the wastes proficiently have always been challenging, specially in a country like Bangladesh. Wastes recycling is the key to effective conservation of energy and natural resources and creating a pollution free environment.

Every year, around 6 million kg of tobacco factory waste are generated from green leaf processing operations as well as from leaf re-handling which

have been identified as the by-products with limited opportunity to reuse. As a responsible organization, BATB Leaf Operations has taken the challenge to recycle the by-products for its reuse.

In 2016, BATB Leaf team has conducted a successful trial to convert the tobacco waste into briquettes to use them as an alternative fuel for tobacco curing. Trial results showed that the tobacco by-product briquettes are not only a potential source of

alternative fuel for curing but also capable of reducing Specific Fuel Consumption (SFC) in tobacco curing. Successful curing trial with tobacco by-products briquette and positive feedback from farmers had encouraged the Leaf team to engage with third party vendor for commercial manufacturing of the briquettes those will be used of 2018 crop season. The third-party manufacturer has started to distribute by-product briquettes with a planned target of 3,000 MT among BATB's registered farmers, by way of an interest free credit supply. In the upcoming years, this supply of tobacco by-product briquette will be around 5,000 MT annually.

Collected waste briquette prior to curing

Curing through tobacco waste briquette

This initiative has manifold benefits for BATB as well as for the farmers. Company's warehouse capacity would not be wasted anymore by keeping unusable by-product stock. As a result, recycling of wastes will be maximized and the reduced SFC will have a positive impact on

farmers' cost of production (COP). Apart from the financial benefit and better warehouse capacity utilization, this project has positive impacts on the environment as well. This initiative is aligned with Sustainable Development Goals (SDGs) 9, 11, 12 and 13 of the United Nations.

CSR SUPPORTING SUSTAINABLE DEVELOPMENT GOALS

British American Tobacco Bangladesh ensures compliance throughout its 'Crop to Consumer' business. Being a responsible organization, BAT Bangladesh initiated three CSR programmes: Afforestation, Safe Drinking Water, Solar Home Systems, for the betterment of the rural communities. These initiatives complement the Bangladesh Government's efforts of keeping in line with the United Nation's Sustainable Development Goals (SDGs).

Lush Green Plantation in G-K Canal side, Kushtia

Kushtia bypass roadside afforestation

COMMITMENT FOR A GREENER TOMORROW

Afforestation, the flagship CSR Programme of BAT Bangladesh, started in the year 1980. Every year BATB distributes 4 million free saplings and so far, the organisation has distributed 95.5 million free saplings across the country. This relentless effort makes the programme, the largest private sector driven afforestation programme in the country. BATB is committed to continue this programme in line with the global and national drive to combat the adverse effects of climate change as well as to adhere to the Bangladesh Government's aspiration to achieve the Sustainable Development Goals (SDGs) set by the United Nations. Shah Amanat International Airport, Lalon Shah Bridge, Jamuna Multi-Purpose Bridge, Lama-Alikadam highway, Polashbari highway, Kushtia G-K canal side plantation etc. are some remarkable landmarks of this project.

SAFE DRINKING WATER

Probaho is an initiative to provide arsenic free safe drinking water to the arsenic prone rural communities in greater Kushtia, Rangpur and Manikganj. This initiative is aligned with the Government's aim to achieve the Sustainable Development Goals (SDGs) of securing sustainable access to Clean Water and Sanitation. So far, BAT Bangladesh has established 73 water filtration plants in arsenic prone locations. These plants provide more than 400,000 litres of safe drinking water that is free from arsenic and other impurities to ensure pure drinking water for almost 190,000 people in this rural

SOLAR HOME SYSTEMS

The absence of electricity means that the lives of people in most rural areas almost always come to a halt after sunset. The Solar Home Systems project has been undertaken since 2011 in the name of 'Deepto' by BAT Bangladesh with an aim to bringing electricity to the lives of off-grid people of Bandarban, Khagrachari and Rangamati districts. Today, almost 12,000 people are getting electricity for the first time due to 2,064 units of solar home systems, installed by BATB. This initiative complements the Government's efforts in the renewable energy sector in achieving the United Nations' Sustainable Development Goals (SDGs). BAT Bangladesh propels to support the Sustainable Development Goal (SDGs) of United Nations through its CSR programmes. So, BATB is committed to continue the CSR efforts in order to support the communities and the company aspires to increase the number of beneficiaries to create more impact in the society.

SUPPORTING A GREAT CAUSE – AUTISM

Every contribution counts

Being one of the pioneers of CSR patrons in Bangladesh, BAT Bangladesh has been actively contributing to the communities through various activities like afforestation programme, providing safe drinking water and solar home systems. Recently, we have been supporting the less and under privileged people in the society through our employee engagement.

BAT Bangladesh aspires to stand by the underprivileged autistic people to support through public and private partnerships and make them skilled individual to be independent and subsequently create employment opportunities for them. The company and its employees have been contributing in various organizations such as Proyash, PFDA-Vocational Training Centre, Aastha Trust, etc.

Bangladesh has become a role model in South Asia in driving awareness in Autism and we would like to be a part of this journey going forward by responsibly contributing every step of the way.

International Women's Day; with special-needs individuals

This year the Women's day was unique, spent for a purpose with the autistic members of the PFDA-Vocational Training Centre, their parents and mentors. We got a glimpse of their daily struggles from which they progress and rise beyond in their own capacity. Championing the motto #PressforProgress, we celebrated the occasion together by sharing stories and experiences with each other; followed by a cultural performance by them.

SUSTAINABLE AGRICULTURE

Improving soil fertility and conserving water are the integral elements of good agriculture practices(GAP). BAT Bangladesh provides the technical know-how and supports to install compost pits in the homesteads of its registered farmers. This significantly reduces dependence on the use of chemical fertilizers and also reduces the cost of production.

BAT Bangladesh acknowledges the impact and dependency on biodiversity & the value of ecosystem services such as forest products, soil and water resources. Hence, to make farming community aware on the importance of biodiversity and its contribution to the ecosystem. so far, 72 biodiversity corners have been established and they are located in the Kushtia, Meherpur, Chuadanga, Jhenaidah, Rangpur, Manikganj, Bandarban, Khagrachari and Cox's Bazar districts.

BAT Bangladesh follows ministry of agriculture's direction and direct all its farmers to grow tobacco 50 feet away from any water/river source. As a responsible company, none of our farmers grow tobacco near any religious or educational establishments and we maintain 200 feet distance from all religious/educational institutions in the community.

The organic matter content of our soil is low (>1%) due to high crop intensity (180%). Lack of knowledge on negative impact among farmers leads to increased and imbalanced use of inorganic fertilizers, adding additional threat to soil health. The government is very keen to improve soil fertility by means of bio-friendly approaches. In support of this national agenda, BAT Bangladesh has introduced a couple of initiatives amongst its farmers with a view to reduce dependency on chemical fertilizers & essentially replenish the nitrogen content and organic matter level in the soil.

GREEN MANURING

Green Manuring with 'Dhaincha' (Sesbania sp.) cultivation is one of the most effective bio-friendly approaches. Dhaincha, being a member of the leguminous family, fixes atmospheric nitrogen through its root nodules and once it is ploughed back to the soil, the nitrogen as well as organic content matter of the soil is enhanced. Dhaincha in its vegetative growth stage (45-50 days after seed sowing) are ploughed back and incorporated into the soil and irrigated for faster decomposition (normally it takes 10-15 days to mix up with the soil).

Through strong motivation of the farmers, educating them on its benefits, free seed distribution and demonstrating the cultivation processes, BAT Bangladesh has successfully introduced and implementing this initiative among the farmers since 2000. Every year BAT Bangladesh distributes 250 MT Dhaincha seeds at free of cost with an intention to coverage 75% of the registered farmers.

Moreover, Dhaincha seed is directly purchased from the farmers at market price which also encourages farmers to grow Dhaincha on a commercial basis. Considering its benefit in light of sustainable agriculture, BAT Bangladesh will continue this initiative in future days.

COMPOST PIT

Compost is an organic matter that is decomposed in the soil and recycled as a fertilizer and plant nutrient. Compost is a key ingredient in organic farming. At the simplest level, the process of composting requires making a heap of wet organic matter known as green waste (leaves, food waste, animal excreta etc.) and allowing the materials to break down into humus after a period of weeks and months. To expedite the decomposition process, generally a lump of urea is added to the heap. The decomposition process is aided by shredding the plant matter, adding water and ensuring proper aeration by regularly turning over the mixture.

As a part of bio-friendly agricultural practices, the Company provides the technical know-how to install compost pits in the homesteads of the tobacco farmers and to use the decomposed organic manure. The farmers coverage of compost pits is around 62%. This significantly reduces dependency on the use of chemical fertilizers for agricultural production and also decreases the cost of production.

The Company has been expanding Integrated Pest Management (IPM) Clubs in Leaf Growing Areas in collaboration with the Department of Agricultural Extension of Govt. of Bangladesh, to educate the farmers for adopting to non-chemical alternatives for insects and pest managements for all kinds of crops. As a result of this continuous education program farmers became more cautious and conscious about the use of chemical pesticide in farming. Therefore, they have adopted the biofriendly approaches like as Neem Leaf Decoction, Bird Perching, Trichodarma, Pheromone Traps, Yellow Board etc.

SUCCESS STORIES

Bangladesh is a land of infinite possibilities. However, it must be acknowledged that our main driver of development is agriculture, because only progress in agriculture can ensure the progress of industry, commerce, and business — or in other words, lead to overall growth. This is why agriculture is at the core of our identity, it is our roots. In this agriculture-centric nation, it is the farmers who forge our destiny and their hard work and dedication propels this nation forward. We want to bring you the stories of six such dedicated and visionary farmers who have propelled themselves forward through their firm convictions. Through the realisation of their own dreams, they have created for us a new horizon of hope and possibility. We believe that these individuals, who are defined by their roots, exemplify those ideals that we all can imitate. This is our humble effort to exalt these personalities — Sowing Seeds of Success.

GOCHING MARMA

YUNUS ALI HEMM

MOHAMMAD SIRAJUL ISLAM

MOHAMMAD SIRAJUL ISLAM

In Horinakunda upazila of Jhenaidah district, there is a bus stand in Arekpur for buses departing to Dhaka. Mohammad Sirajul Islam's home is right here. But hardly anyone would recognize him by this formal name. He is known to all in Arekpur village by his nickname Chhiru Miah.

Chhiru Miah is an accomplished man as he stands outside of his doorstep. His life's tale is an elaborate one, where there is as much to tell about the long road to success through endurance and suffering, as there

“Right next to the growing sons in his family, his trees also grew and provided the thick canopy of green on either sides of the canal. It was 1991 when he leased six kilometers on each side of the GK canal and that is when the rivalry against him began. For three years in a row in the cover of the night, his envious cowardly rivals chopped down his saplings. But Chhiru did not back down”

is to share about the harassment and abuse that he has been subjected to by the conspirational schemes of some envious and resentful acquaintances.

Chhiru Miah was bereaved of his father a very early age. His father had left behind a small amount of land, but there were several stakeholders who manipulated that property into their own control. So to ensure his own survival, he has had to forsake his education and plunge into the real world. There was almost nothing that he did not try – at some point he even ran errands,

cleaned and fetched when asked! As he grew a bit older, he settled into the life of a sharecropper. The dark turbulent days of poverty and hardship slowly began to clear up. His fate changed a little more when he started growing tobacco. In the regions of Kushtia, Meherpur and Jhenaidah, farming tobacco was not a new thing. The reliance on the cash crop has existed for generations. Even better was that the market price also remained predictable. But to claim the benefit of a set price, one had to be a registered farmer with the Company. Because, he did not have his own land, Chhiru Miah could not register as a tobacco farmer in his early days. He started growing tobacco on a small patch of land in 1974. While it was true that the sale from tobacco gave him good income from time to time, he was never able to save a large amount because he did not own the land that

he farmed. One day, something surprising occurred. In the early morning, an officer from BATB appeared right in front of his house. He told Chhiru that he was going to take him to show a tree plantation. It was the year 1978 and that was the first time Chhiru rode a heavy duty vehicle. They toured many areas of Meherpur and Kushtia, and together they observed along the roadside, on stretches of abandoned land, on the banks of the Ganga Kpotakkho project canals of the Water Development Board, rows and rows of various types of trees. When the officer asked Chhiru if he could raise plantations like those given that land would not be an issue and seedlings too for free. Chhiru gave his assent. In Arekpur village, the canals of the GK project pass very near his house. He therefore, leased for four kilometers on each side of the canal, for a total of eight kilometers of planting ground. The deal was that ten percent of the proceeds from the sale of trees would go to the Water Development Board. The very next year, for four kilometers on either side of the canal, he planted 65,000 saplings of Ipil-ipil, Mahogany and Rain Tree. He hired three caretakers for 800 taka per month each to look after the trees.

Chhiru Miah married in 1987. Two sons were born to him and his wife. Right next to the growing sons in his family, his trees also grew and provided the thick canopy of green on either side of the canal. It was 1991 when he leased six kilometers on each side of the GK canal and that is when the rivalry against him began. For three years in a row in the cover of the night, his envious cowardly rivals chopped down his saplings. But Chhiru did not back down. He hired additional caretakers to patrol the plantations at night. He informed the Company about the incidents. He also brought it to the knowledge of the Water Development Board. They made a verbal complaint at the local police station on his behalf. Sometimes the police passed by the plantation to patrol. His enemies then were forced to stop cutting his trees.

The trees from the first planting were ready to be felled by the year 1998. He sold the trees and received cash worth eight hundred and fifty thousand taka. Using five hundred thousand taka of that money, plus one hundred thousand taka from his own savings and loan from the bank, he procured a Tata truck. He easily repaid the loan from his tobacco earnings on the following year. A part of the money from the sale of the trees remained as a partial investment in the truck. When he sold some more trees in the year 2000,

he made an income of 1.6 million taka. The following year, he invested the money on a 21 decimal piece of land next to Jhenidah Cadet College, bought another Tata truck for nine hundred and fifty thousand taka in the year 2005, and also brought a 7.5 decimal land in Arekpur village. In 2007, he bought his first Hino chair coach. Although he liked being in the transportation business, he admitted that it was not hassle-free. He has hired people for that business, who look after the vehicles. He has brought eight acres of land. He wants to spend his day doing what he likes best, farming and cultivation.

Chhiru has two chair coaches under his business named 'Chuadanga Paribahan'. One of them piles the Dhaka-Chuadanga route while the other serves the Dhaka-Narayanganj Route. He has two big trucks. His transportation company's offices is on the first floor of the shopping complex right next to the bus stand. So there should be nothing wrong in addressing Chhiru Miah as a transportation businessman, but that is not the case, because he doesn't want that title for himself.

He only grows a small amount of tobacco now, on about one acre of land. And that too, is mainly for the reason of maintaining his very long-standing relationship with the Company. It is from the bounty of this Company that he has come so far. Chhiru Miah always likes to reminisce, "This Company bought the truck, I heeded the advice of an office of the Company to change my clothing to trousers. I owe it to this Company that I have been able to educate both my sons, one of whom is studying at Jahangirnagar University and the other at Chuadanga Government College. I still have not cut my cord with the Company." As he said these words, Chhiru Miah, a man who has suffered perennial adversities, and he had toiled through the endless struggles, seemed to mellow – his voice became heavy and his eyes welled with tears. When such words are spoken coupled with these emotions, their sincerity can hardly be of doubt.

YUNUS ALI HEMM

He sports a thick moustache. The salt and pepper hair on his head is a bit untied but suits his face just right. He is sixty years old. When he speaks, the laugh lines that show up at the corner of his mouth are truly compelling. He is Yunus Ali Hemm. He is from Bondobil village, Alamdanga Upazila of Chuadanga district.

He has been the breadwinner of his family for quite some time now. After the properties of his predecessors were divided up to the very last

“His son passed his Master’s examination with flying colours. Hemm had said, “Being a farmer with such little land, one cannot progress very much on the earnings. Even I would have not survived. It is only because of the earnings from tobacco that I could dream of my son’s future, and educate him all the way”.

There is another memorable moment in Hemm’s life. No sooner than his son had just finished his Master’s course, did he find a teaching job at his alma matter BRAC University.”

to get admitted to BRAC University. That would cost almost one million taka. In 1.2 acres of his land, he had planting saplings of Ipil-ipil, Akashmoni and Rain Tree donated by BATB in 1990. He decided to arrange for the money for Saddam’s university admission by selling those trees. Saddam left for Dhaka to begin his education.

It would take another one million taka before Saddam would finish his education. His school

inch and the due shares of all family members were sorted and distributed, all that remained in his share in its entirety was a meagre of 4 acres. If one simply farmed jute and paddy run on that land, it would be almost impossible to sustain a family with the income. What truly salvaged him was the tobacco that he cultivated on 2 acres of that land. The income helped him from asking for relief from others and that was the main factor that enabled him to educate his son to become strong and independent.

All his dreams surround his only son, Saddam Hossain. Hemm himself had never had the chance to go to school. So he always thinks about giving quality education to his son. It seems like the dreams of the father became those of the son as well. Saddam obtained first division marks in his SSC exams from Chuadanga in 2000. He also obtained first division in his HSC that he appeared from Kushtia Government College. The son wanted to study Computer Science; he wanted

fees and other costs added up to quite a high amount, but Hemm did not despair. He would gather the funds no matter how difficult it may be. He drew courage from the fact that every year he had at least one certain source of income. That was his earnings from sale of tobacco. He felt that another solution would soon present itself. Alongside his crops, he introduced sheep and goats into his farm. By 2011, his animals numbered 40 sheep, 20 goats and 12 heads of cattle. In his own words, he had "Been a farmer and become a shepherd!" He worked tirelessly on his farm and fields. Little by little, saving grain by grain, he managed to gather the entire amount needed for his son's education. He didn't have to ask for help from anyone. His son passed his Master's examination with flying colours. Hemm had said, "Being a farmer with such little land, one cannot progress very much on the earnings. Even I would have not survived. It is only because of the earnings from tobacco that I could dream of my son's future, and educate him all the way".

There is another memorable moment in Hemm's life. No sooner than his son had just finished his Master's course, did he find a teaching job at his alma matter BRAC University. His son called him on the telephone and asked him to attend his convocation ceremony in Dhaka. He wasted no time ; accompanied by a relative , he went straight to Dhaka for his son's convocation. He described the event in this way - the ceremony was in a very large hall room. Expensive, gleaming cars pulled up there and students aligned from them with their parents. The students all filled up and collected their certificates from the decorated stage. At one time. Saddam also went onstage to receive his certificate. The sight of his son on stage made his heart want to explode with unexplainable pride and joy.

The ceremony came to an end. He had walked out with his son and they were standing outside of the hall room. Then a car pulled up at the entrance, and a man dressed in a suit came out of it with two children. When they saw Saddam, both children addressed him as 'Sir', and raise their hands in salaam. Saddam then introduced the children and their father to his own father, simply saying 'My Father'. Both the children gave their salaams to Hemm. He became slightly unnerved. He was totally moved by that show of respect by such educated children from the city, to a humbled man like him. But then he was to be completely overwhelmed when their father gave his salaam and approached him to grab his hand in a handshake. Hemm found no words to explain his

feelings at that time.

"You will not believe what was going through my mind then. I felt that all the pain and suffering that I had endured all these years to raise my son, had been wiped away in one sweeping stroke." Hemm recalled then, his centenarian father Abu Musa Mollah who he had left at home, who had started cultivating tobacco as his livelihood from the time of Pakistan era. Both father and son had worked on their farm and field to feed the family.

Hemm has returned to the village. It is the land where the soil is enriched through his sweat. He has departed Dhaka with only these words of advice for his son - he had worked very hard himself to provide enough for his son's education through honest means, let there be no dishonest income ever to enter the household of his son. Yunus Ali Hemm can even live in the city with his son now. "Will you move there if your son wants you to?" he is asked. No, he responds, he does not have any plans like that. Why would he go? Who would know him in the city? In this small village, everyone knows him, and they love him. Whenever people ask, he replies with pride, that his son lives in Dhaka and teaches at a University. No, his destiny is in his village with its simple ordinary people. He will roam the fields with them, and he would graze his sheep with content. The people around him would know that the man, who lives with the name Hemm, has reached the peak of contentment, and he lives in a deep calming peace.

GOCHING MARMA

Mukhpara village lies on medium-sized hill, a short distance away from the jamchhari crossroads. Mukhpara is a village of the Marma community, 18 kilometers of Bandarban town. Array of green hills surround this village. The house of one Goching Marma is located towards the middle of the settlement.

His life had begun amid dire poverty. His father owned a small patch of farming land where it was difficult to cultivate anything else except some nuts and mustards. From the time that he was barely old enough to work, Goching Marma has toiled as a day laborer in others' farm, or scraped together a living from cutting bamboo and wood from the forest.

His life took a turn in 2000. A few years before that, tobacco cultivation had started being taken up in some of the areas of Bandarban. Acting on a neighbour's suggestion, Goching Marma planted Tobacco on a portion of his family farming land. The crop cycle was a short three months and there was no hassle to find buyers. The company would directly buy his harvest. Goching swiftly found himself the owner of nearly one lac taka. With this cash windfall, his life deprivation and despair suddenly found new meaning. He found the means to move on.

With the earning from his first tobacco crop, Goching leased two more acres to farm tobacco the following year. In 2004 he cultivated four acres. He managed to put away a substantial sum of cash in this way. At this juncture he wasted no time in defining the three main Goals of his life—to succeed in business, to give his children a proper education and to build a comfortable family home.

“The man who once worked for a daily wage at other people’s farms or had to toil for an income by cutting bamboo and wood in the forest, no longer existed- he had become the proud provider for a happy family. Goching has two boys and two girls. He has spared no effort in providing good quality education to his children.”

The man who once worked for a daily wage at other people’s farms or had to toil for an income by cutting bamboo and wood in the forest, no longer existed- he had become the proud provider for a happy family. Goching has two boys and two girls. He has spared no effort in providing good quality education to his children. His eldest son Uchingma is a good student, Earning his Higher Secondary Certificate (HSC) from Bandarban Cantonment Public School and college in 2011. He is now studying for his university admission examinations. Next in line are his two daughters. The elder Ongsin yun

younger Usongpru are studying together in class nine. The youngest son Ongala is student of class seven. The younger children live in Bandarban town in a house that Goching has rented for them, because it is near impossible to commute the long distance from their village home in Jamchhari crossroads to their school in town. Goching therefore made his alternative arrangement for their education. He even arranged for them to receive private tuition in bandarban. Just like their elder brother they are all doing well in their studies.

An ambitious man Goching, realized his dream of doing business through first buying a rice mill. Although all the resident in his area are aware rice growers, there had been no rice mill in their village until then. So in 2002, he invested almost one hundred and fifty thousand taka to set a building next to his house and install a rice mill inside it. As the wheels of the mill chugged, so swelled his income. In addition to that, he of course has a guaranteed income of around four hundred thousand taka every year from the tobacco that he farms. The following year brought more changes—he spent almost one hundred thousand taka to buy supplies with which he set up a small grocery store outside of his home. Later he bought a power tiller and then in partnership with his neighbours, procured joint ownership of a heavy duty vehicle. Lastly he put up a concrete building at Jamchhari crossroad to establish the largest grocery in the area and connected the area to satellite television channels. On the roof of his house sits three large glistening satellite antennas. In the city such a site of antennas will not arouse the curiosity of many but an array of these antennas on the roof of a village home, and that too in these hills 18 kilometres away from Bandarban town on difficult roads, is not only a matter of curiosity but also astonishment.

However, Goching does not bother about dwelling on such matters. He is least concerned about who is noticing and what they wonder about. Most importantly, where is the time for such thought? He is always thinking of new ideas that he can put to work.

Not having enough time on his hands, Goching has given the responsibility of managing the small shop in front of his home to his wife. He quite content to oversee the rice mill adjacent to the house, and manage the large grocery store at Jamchhari crossroad on his own.

Goching has not bought much land. He has not increased the size of the four acres that he used to lease while farming tobacco—the only difference is that he now owns that land. Aside from that, his forefathers used to own a teak plantation deep in the hills which he had bought from his father around ten years ago at a cost of thirty thousand taka. The trees in that plantation are almost 25 years old now, and there are about thousand trees in that plantation, last year he sold 250 of them for 2.6 million taka. With the money that brought, he bought a 480sq. yard plot of land in Bandarban town. Now his plan is to build a house on that plot.

Goching Marma is no longer the name of a man with needs unmet; with his wife, four children and community of well-wishers, he is a person who who is never short of content. Goching now sets forth the countenance of an accomplished and joyful man who stands at the height of success like blazing sun among the marginalized people of the hills.

TOGETHER FOR A **BRIGHTER NATION**

The pervasive lack of energy supply and appropriate infrastructure had undeniably affected the rate of Bangladesh's progress in the past few decades. The Government of Bangladesh has been working continuously and vigorously to tackle the situation and aligning themselves to meet the SDG's. BAT in return has been engaging with the government to work alongside and thus introduced solar home systems project name "Deepto" in 2011. Through this initiative BATB has provided electricity to 12,000 people in rural areas by installing 2,064 units in Bandarban and Khagrachari districts.

STRONGER TOGETHER

BAT Bangladesh believes that its people are its strength. And keeping in line with the Government's SDG of promoting "Decent Work and Economic Growth", BATB puts in considerable efforts to develop its infrastructural capacity, policies, support mechanisms and leadership development trainings to ensure that its employees have an organisational environment that promotes considerable growth in terms of skill development and leadership. With such initiatives as the rigorous promotion of a gender-diverse organisation, BATB has been distinguished with numerous National and International awards, including the 'Diversity Impact Award', 'Best Recruitment Evaluation Technique' and 'HR Event of the Year' for Battle of Minds. The Company was recognised as the 'Dream Company to Work for' Award. Ms. Rumana Rahman, Head of HR, BAT Bangladesh received award from the Honorable State Minister of ICT Division Mr. Zunaid Ahmed Palak.

BATTLE OF MINDS '17

Battle of Minds (BoM) is a label recognised by all young and talented enthusiasts of the country as this name not only represents a well-regarded recruitment platform that congregates the most dynamic ideas and innovative strategy generation, but also provides a stage to prepare oneself to enter the corporate world. BoM has been concomitant with esteem, class and prominence for 14 years now. The tagline of the competition, "What are you made of?" depicts how strongly young minds of the country are able to manage the high-powered domains of any business environment by delivering their best efforts and capabilities through determination and resoluteness.

This year BoM alumni, with several BATB officials, visited some of the top universities of the country to hold roadshows. They took to the stage to enlighten the students about the competition and its rounds. They also utilised the opportunity to share inspiring tales of how the competition motivated them to showcase their expertise and skills and pushed them to their limits for results of distinction and brilliance. After completion of the roadshows, clear

instructions were given to the students about how to apply for the competition. This year the competition reached great heights with more than 2,300 applicants, out of which only 500 preeminent candidates were selected in the first round, which was an online assessment for checking the cognitive and cultural mind-sets of the candidates. Later, they were tasked to prepare a video that portrayed their insights about one of the major issues of the city they live in and how as average citizens they could try to solve the problems they identified.

From the numerous original and innovative solutions that the candidates provided to solve various problems of the City, the best 175 participants were requested to participate in a daylong Boot Camp at the BATB head office. The day was titled "A day Full of Surprise" as the BATB team had organised various activities for the participants, who had little or no idea about what was awaiting them on that day. The day began with an ice-breaking session followed by a fun Zumba session. Afterwards the interactive

started with various speakers from different spheres of business sectors, inspiring the candidates with their success stories and insights. The day ended with a group discussion where the assessors tested the candidates' ability to deliver their knowledge on a given case study and their knack for influencing the group's thinking.

The top 40 participants triumphantly proceeded further from the Boot Camp session to the final ultimate challenge of resolving the problem of traffic congestion of Dhaka City with their groundbreaking extraordinary ideas. The participants were given guidance and support, and were mentored in every sphere of the competition. They were taken to meet the Commissioner of Dhaka Metropolitan Police to understand the current traffic situation of the City. The participants were divided into 10 teams, with 4 members in each team, who had to

demonstrate their ideas in front of a panel of experienced judges, among which 6 teams qualified for the finale. The finalist teams were tasked with actually implementing their ideas which they had presented in the prior round, and monitor the constructive outcomes. After the fierce one and a half month of competition, Team 360 Degrees of BUET took home the trophy of Battle of Minds 2017 for the first time in 14 years. Murtaza Wasi, a member of the winning team, said, "Going to multiple locations of the City and analysing the traffic situation wasn't an easy task for us to do, given the many reasons why traffic jam is so widespread. We circulated our solution for traffic congestion around the major problem of illegal parking. Our idea was to create an app to facilitate other vehicles to park in empty parking spaces of residents who take their vehicles out for daily use."

BoM is unparalleled to any other competition. It augments and develops the capabilities of fresh graduates to a high degree of proficiency to prepare them as imminent business professionals. BoM also contributes further to the nationwide projection of human resource development. The Head of Legal and External Affairs at BATB, Mubina Asaf said, "It is a platform where fresh minds are utilised for the greater good of the society and where their talents are used to make this country a better place to live in."

WELFARE TO PROGRESS

BATB has been on the forefront of being a responsible and law-abiding organization due its continuous process of introduction and implementation corporate best practices. The organization has been relentlessly working to ensure employee satisfaction and safety through various employee welfare programs.

With around 1,500 people as direct employees and about 50,000 indirect ones as farmers, distributors and local suppliers, BATB has consistently been recognized as one of the most preferred employers in the country. The organization has dedicated itself to ensure the best practices for employee welfare, which has resulted in a culture where every employee passionately contributes to the betterment of their company and country.

FOOD & HEALTH SERVICES

Some of BATB's initiatives to ensure welfare of its employees include:

- ▶ Ensuring proper nourishment and hygiene of employees by providing them with food that is healthy and nutritious, as well as running free-of-cost campaigns on hygiene.
- ▶ Providing a full time doctor and a pharmacist are present in the premises at all times to ensure every common and emergency medical issue that may arise are given top priority.
- ▶ Keeping an ambulance standby at all times for any emergency support needed.
Fully covers hospital tests and admission costs, along with providing regular blood pressure test services and medicines within the organisation's premises.

WORK WITH ENTERTAINMENT

BATB also arranges a day-long event called Family day. A fun-filled and environment friendly event for the employees and their families, spent in a secure and hygienic location. There are rides such as merry-go-round, puppet show and mini train rides to cater to the utmost delight of children. Musical shows, snacks corners and henna painting corners are provided for

entertainment of adults. Arrangements are made for family sketches and family portraits. This is a way for, the employees to have a full day of entertainment and extracurricular activities for all members of their families.

Kids Carnival

Recently, on the occasion of Family Day, BATB recognised the contribution of employees who have contributed 25 years of service at the organization and those who retired from the organization. In addition, special recognition was given to personnel who retired from BATB after completing their tenure.

BATB holds an Annual Picnic (Employee Line of Sight) as well, where employees can have a day off for their enjoyment and take part in myriad types of sports and indoor games. A business session is also held so that employees have a better understanding regarding the future of the business and the organization.

Children's Carnival, a half-day event, is also held annually at an amusement park. The Shahbagh Shishu Park is booked only for the amusement of the children of the employees. They are not only taken to enjoy the rides, but also participate in other interesting and educational games such as value based painting contest, math race, as well as other contest. Next program Eid e-Milad-un Nabi celebration and Team-Iftar are held annually during the month of Holy Ramadan. In addition, there are also some of the Annual celebrations that are observed by the organization.

SAFETY PROCEDURE

Environment, Health and Safety (EHS) and Occupational Health and Safety (OHS) feature prominently among the Company's Policy and educational measures that promote social and environmental well-being, by educating the employees about the basic benefits of maintaining good health, proper diet and practicing work place safety. Along with our well-equipped dispensary, we also have round the clock services via ambulance and pharmacists working in shifts. There are also options for employees to have their audiometry, spirometry, vision, hepatitis, vaccination and other tests to be carried out. Warning signs and slogans regarding occupational safety are also displayed in suitable spots to spread awareness.

To ensure awareness among employees, the Company carried out various kinds of communications including awareness programs for managers, employees and contractors throughout the year. Weeklong campaign titled 'EHS Awareness Week' was arranged focusing on safe work practices on production floor and in warehouses and offices. BATB believes in 'Our People, Our Strength', and accordingly nurtures its employees with its best effort.

HUMAN RESOURCES VALUE CREATION

At British American Tobacco Bangladesh (BATB), our people are our strength. We create value for our employees whether they are management or a non-management by investing in them and ensuring that there is growth for them at BATB employee in terms of remuneration, learning and promotions. We acknowledge the contribution of every employee in the outstanding performance of our Company over time. We make sure that our employees are provided with a work life balance so that they can create value for the Company. By investing in our people, we have been able to keep our market lead in the tobacco industry in Bangladesh, ensuring high quality products manufactured in a safe setting and unique branding and marketing of the products and innovation in sales to confirm a continued sales growth. As the organisation grows in size, we ensure that value creation remains the same across all levels of the company in all regions of the country.

Human Resources Accounting

BATB is keen to measure the collective investment in human resources and consider its Rate of Return towards the organisational goals. In doing so, BATB has started to consider Human Resources Accounting (HRA), which is the process of identifying and reporting expenditures related to the human resources of an organisation that are presently unaccounted for in the conventional accounting practices. In addition to external financial reporting, HRA may be useful as a managerial tool to aid in making managerial decisions that will benefit the long-run strategic goals and profitability of the organisation. In the HRA approach, expenditures related to human resources are reported as assets on the balance sheet as opposed to the traditional accounting approach which treats costs related to the Company's human resources as expenses on the income statement that reduce profit.

Objectives and Benefits

Success of any entity, in today's competitive business world, comprehensively depends upon the quality of its human resources. It can be said with great emphasis that the human element is the most important input in any business enterprise. As a result, great attention must be paid on investment of human resources and on the return of such investments. The purpose of HRA is to evaluate the impact of the employees in monetary terms which focuses on how much investment the company has made on its employees and how much return it can expect from this investment. HRA enables the management to monitor the use of human resources and also increases managerial awareness for effective utilisation of manpower.

Financial Reporting Standards

International Financial Reporting Standards (IFRS) currently do not have any standards for HRA. In

Bangladesh, Human Resources Accounting has not yet been introduced as a requirement by any statutory authority or any regulatory bodies. As a result, disclosure of such information is voluntary for the organisation.

HRA in BATB

BATB is following conventional accounting practices as directed by the standards of regulatory bodies. As

there are no specific accounting standards regarding HRA, valuing the human resources and measuring the direct impact of the cost of spending for employees is difficult. However, BATB is using the concepts of HRA in making important management decisions that will benefit the long-term strategic goals and objectives of the company.

HEADING FOR GENDER EQUALITY: FEMALE FRIENDLY ORGANISATION

BAT Bangladesh has been committed to ensure equal opportunity and diversity within the workplace so that every gender, ethnicity and race are reflected within our workplace. We accord transparent employment opportunities and a working environment that guarantees fair treatment of all our employees regardless of their gender, status or other prejudicial grounds. Gender neutrality and impartiality are procedures and practices adopted by BAT Bangladesh in order to thrive and achieve the goal of providing everyone with an organisational culture that promotes and provides a discrimination free platform.

Through relentless efforts in developing infrastructural capacity and policies, support mechanisms and leadership development trainings, BAT Bangladesh promotes diversity and thus, there is currently 13% female representation within the workforce, with 29% of the company leadership roles being held by women. Females in this organisation embrace manifold facilities and trainings for developing themselves as stronger, secured and successful persons.

To ensure gender diversity and coexistence at our workplace, there is a guideline on behavioral codes in place along with a sexual harassment policy that is also a part of our Standards of Business Conduct (SoBC). The implementation of

the policies is very strictly maintained in the organization and disciplinary actions are taken within shortest possible time based on the investigation findings for any kind of breach of sexual harassment policy and other behavioral codes. In addition, there are forums such as 'Gen W', 'Lean in Circle' etc. where females share any kind of jeopardy, conflicts etc. that they are facing. In 2016, BAT Bangladesh has incepted a Diversity platform known as 'Symmetry' including female and male representatives. The philosophy of this initiative is to re-look at diversity through a different lens and evolve to 'Inclusive co-existence'- a step change from only focusing on 'gender diversity'. Symmetry is aimed at driving tangible outcomes. 6 work streams of this platform include Leadership Orientation, Recruitment, Policies, Shop Floor Diversity Readiness, Trade Marketing & Distribution Diversity Readiness and Symmetry Sessions. Till date, significant work has been done through this platform in building support forums, tailored recruitment process, diversity policies and awareness and upgrading infrastructure to make working environment more conducive for women in the field.

As an organization, we drive awareness campaigns in the likes of cervical cancer, breast cancer, Hepatitis B, Health Weeks, Occupational Health and Safety, and Environmental Hazard and Safety

that helps employees to stay alert on health hazards and seek necessary help as and when required. In addition to Health and Awareness campaigns, we have a 24-hour Dispensary equipped with an ambulance and a doctor round the clock. BAT Bangladesh is an organisation that helps its female employees to embrace motherhood without compromising their careers. Apart from providing maternity leave, to address the unique needs of urban parents, the organisation has the amenities of a Day Care Center named 'Angel's Nest'. In addition to the above, facilities such as female prayer rooms, female washrooms, odd hour transportation facility and recreation facilities like sports fields, tennis and badminton courts ensure that female employees can have a healthy work-life balance.

Women in BAT Bangladesh receive many trainings and development programmes such as 'WILL TO LEAD', 'WOMEN IN LEADERSHIP', etc. These programmes help them to develop their leadership skills for different leadership roles within the country and beyond. These platforms also allow them to experience a development opportunity and network with female colleagues across different regions. As a part of developing the future potential leaders within BATB, female managers also receive mentoring from senior managers and top team members. The mentorships are extended beyond day-to-day work and into fulfilling their potential, which has

Ms. Mubina Asaf, Head of Legal and External Affairs receiving the Wings Award of Excellence for Corporate Leadership

a very positive impact for both the mentor and the mentee. Every year, we celebrate womanhood on the occasion of the International Women's Day through real life experience sharing by inspirational women across boundaries. We also present greeting cards and goodies to all the women across the organisation to make our female colleagues feel energised and celebrated.

Our initiatives and endeavours for encouraging a gender-diverse organisation have recognised us with many National and International awards. We have been awarded with the 'Diversity Impact Award' at the Asia Best Employer Award 2017. On the occasion of International Women's Day, Bangladesh Brand Forum had awarded Ms Adrita Datta, HR Business Partner - Marketing and Ms. Farhana Chowdhury, Area Manager - Marketing with the 'Progressive Women Leader Award 2017' and 'Aspiring Women Leader Award 2017' respectively. These are the true testament of BAT Bangladesh's agenda in developing and empowering female managers for leadership. The female leaders of BATB are creating positive impacts in the society by leaving their footprints of success in in the national and international arena. BAT Bangladesh has also won the 'Dream Company to Work for' award in 2017 along with two other awards: 'Best Recruitment Evaluation Technique', and 'HR event of the year for Battle of Minds' from South Asian Business Excellence Award 2017.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS of British American Tobacco Bangladesh Company Limited

Report on the Financial Statements

We have audited the accompanying financial statements of British American Tobacco Bangladesh Company Limited ("the Company"), which comprise the statement of financial position as at 31 December 2017, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Bangladesh Financial Reporting Standards (BFRS), the Companies Act 1994, the Securities and Exchange Rules 1987, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Bangladesh Standards on Auditing (BSA). Those standards require that we comply with relevant ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements give a true and fair view of the financial position of the Company as at 31 December 2017 and of its financial performance and its cash flows for the year then ended in accordance with Bangladesh Financial Reporting Standards (BFRS).

Emphasis of matter

We draw attention to Note 39.1 to the financial statements where management outlines a BDT 17,806 million retrospective demand by the National Board of Revenue for Value Added Tax and Supplementary Duty on the Company's Pilot and Bristol brands. The matter is currently pending before the Appellate Division of the Supreme Court for hearing. Our opinion is not qualified in respect of this matter.

Report on Other Legal and Regulatory Requirements

In accordance with the Companies Act 1994 and the Securities and Exchange Rules 1987, we also report the following:

- a) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit and made due verification thereof;
- b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appeared from our examination of these books;
- c) the statement of financial position and the statement of profit or loss and other comprehensive income dealt with by the report are in agreement with the books of account and returns; and
- d) the expenditure incurred was for the purposes of the Company's business.

British American Tobacco Bangladesh Company Limited

Notes to the financial statements

1 Reporting entity

1.1 Company profile

British American Tobacco Bangladesh Company Limited (the "Company") is a public limited company incorporated in Bangladesh and its shares are quoted in Dhaka and Chittagong Stock Exchanges. The address of the Company's registered office is New D.O.H.S. Road, Mohakhali, Dhaka-1206, Bangladesh.

1.2 Nature of business

The Company manufactures and markets brands including Benson & Hedges, John Player Gold Leaf, Pall Mall, Capstan, Star, Derby, Pilot and Hollywood. The Company has its head office and the cigarette factory in Dhaka, a green leaf threshing plant in Kushtia, a green leaf redrying plant in Manikganj and a number of leaf and sales offices throughout the country.

2 Basis of preparation

2.1 Statement of compliance

The financial statements have been prepared in accordance with the Bangladesh Financial Reporting Standards (BFRS), the Companies Act 1994, the Securities and Exchange Rules 1987 and other applicable laws and regulations in Bangladesh. Cash flows from operating activities are prepared under direct method as prescribed by the Securities and Exchange Rules 1987.

Details of the Company's accounting policies including changes during the year are included in Notes 42, 43, and 44.

2.2 Date of authorisation

The financial statements were authorised for issue by the Board of Directors on5 March 2018..... for publication.

2.3 Reporting period

The financial period of the Company covers one year from 1 January to 31 December and is followed consistently.

3 Functional and presentation currency

These financial statements are presented in Bangladesh Taka (Taka/Tk/BDT), which is both functional and presentational currency of the Company. The amounts in these financial statements have been rounded off to the nearest thousand, unless otherwise indicated. Because of these rounding off, in some instance the total may not match the sum of individual balance.

Notes to the financial statements (continued)

4 Use of estimates and judgements

The preparation of financial statements in conformity with BFRSs requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

In particular, information about significant areas of estimates and critical judgements in applying accounting policies that have the most significant effect on the amount recognised in these financial statements are stated in the following notes:

Note 5	Property, plant and equipment
Note 6	Inventories
Note 13	Net defined benefit plans
Note 14	Deferred tax liabilities
Note 18	Current tax liabilities
Note 19	Provisions
Note 38	Commitments
Note 39	Contingencies

When measuring the fair value of an asset or a liability, the Company uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

5. Property, plant and equipment

28 Earnings per share

28.1 Basic earnings per share

Earnings Per Share (EPS) is calculated in accordance with the Bangladesh Accounting Standard (BAS) 33: *Earnings Per Share*. The composition of EPS is given below:

	2017	2016
Total profit attributable to shareholders (BDT'000)	7,829,856	7,582,462
Weighted average number of shares outstanding ('000)	60,000	60,000
Earning per share (BDT)	130.50	126.37

The weighted average number of ordinary shares outstanding during the period is the number of ordinary shares outstanding at the beginning of the period, adjusted by the number of ordinary shares bought back or issued during the period multiplied by a time-weighting factor. During the year ended 31 December 2017, no ordinary shares were issued or bought back. Therefore, the weighted average number of shares outstanding at 31 December 2017 is the same as at the start of the year i.e. 1 January 2017.

28.2 Diluted earnings per share

No diluted earnings per share is required to be calculated for the year as there was no scope for dilution during the year.

33 Capacity

The Company works on continuous operation basis and given the current installed machine configurations and planned expansions, there is sufficient capacity to meet forecast future demand in a variety of specification (e.g. Filter) and packaging (e.g. Hinge Lid, Shell and Slide) configurations. The Directors regularly review the production capability of the Company and are satisfied that the current and future capacities are adequate. Plans are in place to meet any anticipated future demand.

	2017	2016
Actual production of cigarettes (in million sticks)	53,734	50,027

34 Segment Reporting

The Company is domiciled in Bangladesh. The gross revenue from cigarettes is BDT 201,917 million (2016: BDT 163,998 million). The Company does not have any non current assets that are located outside Bangladesh.

Gross cigarette revenue arising from transactions with a single external customer represented BDT 32,053 million (2016: BDT 23,190 million) of the Company's total revenue.

The Company is a single product business primarily engaged in the manufacturing and sale of cigarettes in Bangladesh and this forms the focus of the Company's internal reporting system. While the Company has clearly differentiated brands, segmentation within a wide portfolio of brands is not part of the regular internally reported financial information to the chief operating decision maker. Therefore, it is not possible to segment the Company's results by brand without a high degree of estimation.

Apart from cigarette manufacturing, the Company exports leaf outside Bangladesh, which contributes less than 10% of gross and net turnover. The break up of cigarette and export sales has been provided in Note 20.

The Company has not disclosed the fair values for financial instruments such as short-term trade receivables and payables, because their carrying amounts are a reasonable approximation of fair value.

B. Financial risk management

The Company has exposures to the following risks from its use of financial instruments:

- I) Credit risk
- II) Liquidity risk
- III) Market risk

The Board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies, procedures and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. This note presents information about the Company's exposure to each of the following risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital.

I) Credit risk

Credit risk is the risk of a financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and other parties.

Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis. In monitoring credit risk, receivables are grouped according to their risk profile, i.e. their legal status, financial condition, ageing profile etc. The Company's exposure to credit risk on receivables is mainly influenced by customers.

The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statement of financial position.

a) Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

In thousands of BDT	Note	2017	2016
Trade and other receivables	7	2,315,457	1,062,450
Deposits	8	14,636	16,322
Cash at bank	9	977,344	1,563,483
		3,307,437	2,642,255

b) Ageing of trade and other receivables

At 31 December, the ageing of trade and other receivables that were not impaired were as follows:

In thousands of BDT	2017	2016
Past due 30 days	2,303,940	1,052,671
Past due 31-90 days	752	1,925
Past due 91-180 days	-	7,310
Past due over 180 days	10,765	544
	2,315,457	1,062,450

II) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or other financial assets. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. Typically, the Company ensures that it has sufficient cash and cash equivalents to meet expected operational expenses, including financial obligations through preparation of the cash flow forecast, based on time line of payment of financial obligations and accordingly arrange for sufficient liquidity/fund to make the expected payments within due dates. Moreover, the Company has short term credit facilities with scheduled commercial banks to ensure payment of obligation in the event that there is insufficient cash to make the required payment. The requirement is determined in advance through cash flow projections and credit lines with banks are negotiated accordingly.

The following are the contractual maturities of financial liabilities:

31 December 2017

In thousands of BDT	Note	Contractual cash flows

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

III) Market risk

Market risk is the risk that any changes in market prices, such as foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimising the return.

a) Currency risk/foreign exchange rate risk

The Company is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the United State Dollar (USD), Euro (EUR) and British Pound (GBP). Foreign exchange risk arises from future commercial transactions of recognized assets and liabilities. Management complies with the treasury policy to manage foreign exchange risk against their functional currency.

i) Exposure to currency risk

The Company's exposure to foreign currency risk was as follows based on notional amounts:

ii) Foreign exchange rate sensitivity analysis for foreign currency expenditures

A reasonably possible strengthening (weakening) of the Taka, as indicated below, against the USD, EUR and GBP at reporting date would have increased/(decreased) equity and profit or loss by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Company considered to be reasonably possible at the reporting date. The analysis assumes that all other variables, in particular interest rates, remain constant and ignore any impact of forecasted sales and purchases.

39.1 Litigation

The Company has various claims and legal actions arising in the ordinary course of business. Management believes that there is strong defense against each of these claims and legal actions.

In particular, in November 2013, the Company received a retrospective notice of imposition and realisation of VAT and Supplementary Duty on low price category brands (Pilot & Bristol) from the National Board of Revenue (NBR) alleging to have evaded tax by selling in the low price segments rather than the mid-tier segments. The claim was for approximately BDT 19,240 million, which has subsequently been reduced to approximately BDT 17,806 million by an order of the High Court Division. The said reduction was due to a portion of the original claim being time-barred.

Management believes that the claim is unfounded and has been engaging with all the relevant stakeholders concerning this unfounded demand. No provision has been made for this claim based on Legal Opinion. The matter came up before the Appellate Division of the Supreme Court on 13 November 2017 for hearing on admission of appeal. Upon hearing the parties, the court was pleased to admit the appeal and fixed the matter for final hearing. The matter is appearing in the list for appeal hearing in the Appellate Division.

40 Other disclosures

40.1 Number of employees

The number of regular permanent employees receiving remuneration of Tk. 36,000 or above per annum at reporting date was as follows:

	31 December 2017	31 December 2016
Number of employees	1,453	1,476

In addition, there was a varying number of seasonal and temporary workers working throughout the year, as required.

40.2 Comparatives and rearrangement

Comparative information has been disclosed for all numerical information in the financial statements and also the narrative and descriptive information when it is relevant for understanding of the current financial statements.

To facilitate comparison, certain relevant balances pertaining to the previous year have been rearranged and reclassified whenever considered necessary to conform to current year's presentation.

41 Events after the reporting period

The Board of Directors of the Company recommended 600% (BDT 60 per share) cash dividend amounting to BDT 3,600 million for 2017 at the board meeting held on 5 March 2018. The dividend is subject to final approval by the shareholders at the forthcoming annual general meeting of the Company. The financial statements for the year ended 31 December 2017 do not include the effect of the cash dividend which will be accounted for in the period when shareholders' right to receive payment is established.

There are no other events identified after the date of the statement of financial position which require adjustment or disclosure in the accompanying financial statements.

42 Basis of measurement

The financial statements have been prepared on going concern basis under the historical cost convention.

43 Significant accounting policies

The Company has consistently applied the following accounting policies to all periods presented in these financial statements.

Set out below is an index of the significant accounting policies, the details of which are available on the current and following pages:

- A. Property, plant and equipment
- B. Financial instruments
- C. Share capital
- D. Impairment
- E. Lease
- F. Inventories
- G. Employee benefits
- H. Provisions
- I. Contingencies
- J. Revenue

- Q. Materiality and aggregation
- R. Events after the reporting period
- S. Going concern

A. Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses, if any.

Cost includes expenditure that is directly attributable to the acquisition of the asset and any other costs directly attributable to bringing the asset to working condition for its intended use, and the costs of dismantling and removing the items and restoring the site on which they are located.

Buildings constructed by the Company on leasehold land are capitalised and included under the category of leasehold property.

(ii) Subsequent costs

Subsequent to initial recognition, cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. All other repair and maintenance expenses are charged in the statement of profit or loss and other comprehensive income as they are incurred.

(iii) Depreciation

All items of property, plant and equipment have been depreciated on straight line basis. Depreciation on additions are charged from the month of acquisition. On disposal of an asset, depreciation is charged up to the month prior to the disposal. No depreciation is charged for land and assets under construction. The Company is following this policy consistently from past years.

The estimated useful lives and the rates of residual value of property, plant and equipment for the current and comparative years are as follows:

Categories	Useful life in years		Residual value	
	2017	2016	2017	2016
Freehold building	40	40	1%	1%
	Maximum 40 years, depreciation rates based on a case by case basis	Maximum 40 years, depreciation rates based on a case by case basis	0%	0%
Leasehold building				
Plant and machinery	5 / 10 / 14.3	5 / 10 / 14.3	0% / 1%	0% / 1%
Laboratory equipment	10	10	0%	0%
Office equipment	5 / 10	5 / 10	0%	0%
Furniture and fixtures	3 / 5 / 10	3 / 5 / 10	0%	0%
Vehicles	4 / 5	4 / 5	1%	1%
IT equipment	3 / 5	3 / 5	0%	0%

Depreciation method, useful lives and residual values are reviewed at each reporting date and adjusted as appropriate. No significant adjustment in respect of items of property, plant and equipment was done in the twelve-month period ended 31 December 2017.

(iv) Assets under construction

Assets under construction represent the cost incurred for acquisition and/or construction of items of property, plant and equipment that are not ready for use at reporting date and these are stated at cost.

(v) Impairment

The carrying amount of the entity's non-financial assets, other than inventories and deferred tax assets (considered as disclosed separately under respective accounting standards), are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated. However, no such conditions that might be suggestive of a heightened risk of impairment of assets existed at the reporting date.

(vi) Retirement and disposals

An asset is derecognised on disposal or when no further economic benefits are expected from its use. Gain or loss on disposal of an asset is determined as the difference of net disposal proceeds and the carrying amount of the asset and is recognised as gain or loss from disposal of asset under other income/expense in the statement of profit or loss and other comprehensive income.

B. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Non-derivative financial instruments comprise deposits, trade and other receivables, cash and cash equivalents, trade and other payables, intercompany payables, share capital and interest-bearing borrowings.

(i) Financial assets

The Company initially recognises receivables and deposits on the date that they are originated. All other financial assets are recognised initially on the date at which the Company becomes a party to the contractual provisions of the transaction.

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred, or it neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control over the transferred asset.

The Company's financial assets comprise trade and other receivables, deposits and cash and cash equivalents.

a) Trade and other receivables

Trade and other receivables consist of unpaid bills receivable from customers and other parties. Trade and other receivables are recognised initially at original invoice amount and subsequently measured at the remaining amount less allowances for doubtful receivables at the year end, which is made at the discretion of the management.

b) Deposits

Deposits are measured at payment value.

c) Cash and cash equivalents

Cash and cash equivalents comprise cash in hand, cash at banks and fixed deposits receipt which are held and available for use by the Company without any restriction, except for the dividend account. For the purposes of the cash flow statement, cash and cash equivalents comprise cash in hand, deposits held at financial institutions and short-term highly liquid investments with maturities of three months or less from the date of acquisition. Bank overdrafts that are repayable on demand and form an integral part of the Company's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

(ii) Financial liabilities

The Company initially recognises financial liabilities in its statement of financial position when the Company becomes a party to the contractual provisions of the liability. The Company recognises such financial liability when its contractual obligations arising from past events are certain and the settlement of which is expected to result in an outflow from the entity of resources embodying economic benefits.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expired.

The Company's financial liabilities comprise trade and other payables.

a) Trade and other payables

Trade and other payables are recognised when its contractual obligations arising from past events are certain and the settlement of which is expected to result in an outflow from the Company of resources embodying economic benefits. Trade and other payable are recognised initially at fair value. Subsequent to initial recognition, trade and other payables are stated at amortised cost using the effective interest method.

(iii) Offsetting a financial asset and a financial liability

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company has a legal right to offset the amounts and intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

C. Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects.

Paid up capital represents total amount contributed by the shareholders and bonus shares, if any, issued by the Company to the ordinary shareholders. Holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to vote at shareholders' meetings. In the event of a winding up of the Company, ordinary shareholders rank after all other shareholders and creditors and are fully entitled to any residual proceeds of liquidation.

D. Impairment

i) Recognition

Financial assets not carried at fair value through profit or loss and receivables are assessed at each reporting date to determine whether there is objective evidence that any particular asset is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

The carrying value of the non-financial assets, other than inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of the asset or its cash generating unit exceeds its recoverable amount. Impairment losses, if any, are recognised in the statement of profit or loss and other comprehensive income.

ii) Calculation of recoverable amount

The recoverable amount of asset is the greater of its net selling price or its value in use. The latter is determined by discounting the estimated future cash flows to a present value using a discount rate which reflects the current market assessment of the time value of money and risk specific to the asset. For an asset that does not generate significantly independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs.

iii) Reversal of impairment

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the assets carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

E Lease

Operating lease

All leases other than those which meet the definition of finance lease are treated as operating lease and are recognised in the statement of profit and loss. Payments made under operating leases are recognised in profit or loss. For non-cancellable operating leases payments are recognised on a straight line basis over the term of the lease.

F. Inventories

Raw materials and finished goods inventories are measured at the lower of cost and net realisable value. Spare parts are valued at cost.

The cost of inventories, except goods in transit, is measured based on the weighted average method, and includes expenditure incurred in acquiring the inventories, production or conversion costs, and other costs incurred in bringing them to their existing location and condition. In the case of manufactured inventories and work-in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.

Material in transit represents the cost incurred up to the date of the statement of financial position for the items that were not received till to the date of reporting. Inventory losses and abnormal losses are recognised as expenses.

G. Employee benefits

(i) Short-term benefits

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related services are provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or profit-sharing plans if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

(ii) Defined benefits plans

a) Management Gratuity Scheme

The Company operates an unfunded gratuity scheme for the management employees who joined the Company up to February 2013. Members of this scheme become eligible to receive gratuity on completion of 5 years of continuous services with the Company.

b) Management Pension Fund

The Company operates a funded pension scheme for the management employees who joined the company from 1 January 1987 to 31 August 2007. Members of this fund become eligible to receive pension on completion of 5 years of continuous service with the Company. The fund is managed by a Board of Trustees.

Present value of defined benefit obligation and the fair value of the plan assets were determined by professional actuary for both the funds. Projected Unit Credit method is used to measure the present value of defined benefit obligations and related current and past service cost and mutually compatible actuarial assumptions about demographic and financial variables were used. The difference between fair value of the plan assets and present value of obligation is recognised as a liability or an asset in the statement of financial position. In respect of any actuarial gains or losses arising from actuarial valuation, it is fully recognised in the other comprehensive income.

iii) Defined contributions plan

a) Management Gratuity Scheme

The Company operates a funded gratuity scheme for the management employees who joined the Company from 1 March 2013 and onwards. The Company contributes 15% of basic salary as contribution to the fund for the management employees from the date of joining. The fund is managed by a Board of Trustees. Members of this fund become eligible to receive gratuity on completion of 5 years of continuous services with the Company.

b) Employee Gratuity Scheme

The Company operates funded gratuity scheme for the non-management employees whereby the Company contributes 15% of basic salary as contribution to the fund for the non management employees from the date of joining. The Fund is managed by a Board of Trustees. Members of this fund become eligible to receive gratuity on completion of 5 years of continuous services with the Company.

c) Provident Fund

The Company operates a provident fund for all the employees irrespective of date of joining the Company. Members, on confirmation, in regular employment of the Company, are required by the Company to join the provident fund to which members contribute 10% of their basic salaries and the Company makes a matching contribution. The Fund is managed by a Board of Trustees. Members become eligible to receive the Company's contribution on completion of 5 years of continuous services with the Company.

d) Worker's Profit Participation Fund

The Company operates fund for workers as "Workers' Profit Participation Fund" and 5% of the profit before charging such expense has been transferred to this fund as per section 234 of Bangladesh Labour Act 2006 (amended in 2013).

The Company recognises a contribution to the defined contribution plan as an expense when an employee has rendered services in exchange for the contribution. The legal and constructive obligation is limited to the amount it agrees to contribute to the fund.

H. Provisions

A provision is recognised in the statement of financial position when the Company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate. If it is probable that an outflow of resources embodying economic benefits are required to settle the obligation, the provisions are reversed.

I. Contingencies

Contingent liability

Contingent liability is a possible obligation that arises from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

The Company discloses contingent liability in the financial statements. A provision is recognised in the period in which the recognition criteria of provision is met.

Contingent asset

Contingent asset is a possible asset that arises from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

A contingent asset must not be recognised. Only when the realisation of the related economic benefits is virtually certain should recognition take place provided that it can be measured reliably because, at that point, the asset is no longer contingent.

J. Revenue

Revenue from sale of goods is recognised when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs can be estimated reliably, there is no continuing management involvement with the goods and the amount of revenue can be measured reliably. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of Value Added Tax (VAT), Supplementary Duty (SD), Export Duty and Health Surcharge.

Gross turnover comprises domestic sales of cigarettes, export of leaf and includes SD, VAT, Export Duty and Health Surcharge paid to the Government of Bangladesh.

K. Income tax expense

Income tax expense comprises current and deferred tax. It is recognised in the statement of profit or loss and other comprehensive income except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

(i) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to tax payable or receivable in respect of previous years. The amount of current tax payable is the best estimate of the tax amount expected to be paid that reflects uncertainty related to income tax, if any. Current tax assets/liabilities are offset if certain criteria are met. It is measured using tax rates enacted or substantively enacted at the reporting period. The applicable tax rate for the Company is currently 45% corporate tax and 2.5% surcharge on income.

(ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries to the extent that the Company is able to control the timing of the reversal of the temporary difference and it is probable that they will;

- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improve.

Deferred tax assets and liabilities are offset if there is legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

L. Foreign currency transactions

Transactions in foreign currencies are translated to Bangladesh Taka at the exchange rate prevailing on the date of transactions. All monetary assets and liabilities denominated in foreign currencies are translated to the functional currency at the exchange rate prevailing at the date of statement of financial position. Foreign currency differences arising on the settlement of monetary items or on translating monetary items at the end of the reporting period are recognised in the statement of profit or loss and other comprehensive income as per BAS 21: *The Effects of Changes in Foreign Exchange Rates*.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of transactions.

M. Finance income and expenses

Finance income comprises interest on financial deposits with banks. Finance income is recognised on an accrual basis and shown under statement of profit or loss and other comprehensive income. Finance costs comprise interest expense on overdraft and borrowings from bank.

N. Earnings per share (EPS)

The Company presents its basic earnings per share (EPS) for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year.

Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding, for the effects of all dilutive potential ordinary shares, if any. However, dilution of EPS is not applicable for these financial statements as there was no potential dilutive ordinary shares at the reporting date.

O. Statement of cash flows

Cash flows from operating activities have been presented under direct method as per BAS 7: *Statement of Cash Flows*.

P. Dividends

Final dividend distribution to the Company's shareholders are recognised as a liability in the financial statements in the period in which the dividends are approved by the Company's shareholders at the Annual General Meeting, while interim dividend distributions are recognised in the period in which the dividends are declared and paid.

Q. Materiality and aggregation

Each material class of similar items is presented separately in the financial statements. Items of dissimilar nature or function are presented separately unless they are immaterial.

R. Events after the reporting period

Events after the reporting period that provide additional information about the Company's position at the reporting date or those that indicate the going concern assumption is not appropriate are reflected in the financial statements. Amounts recognised in the financial statements are adjusted for events after the reporting period that provide evidence of conditions that existed at the end of the reporting period. No adjustment is given in the financial statements for events after the reporting period that are indicative of conditions that arose after the reporting period. Material non-adjusting events are disclosed in the financial statements.

S. Going concern

The Company has adequate resources to continue in operation for the foreseeable future. For this reason management continues to adopt going concern basis in preparing the financial statements. The current resources of the Company provide sufficient funds and attributable credit facilities to meet the present requirements of its existing business.

44 Standards issued but not yet effective

In January 2018, the Institute of Chartered Accountants of Bangladesh (ICAB) has adopted International Financial Reporting Standards issued by the International Accounting Standards Board as IFRSs. As the ICAB previously adopted such standards as Bangladesh Financial Reporting Standards without any modification, this recent adoption will not have any impact on the financial statements of the Company going forward.

A number of new standards and amendments to standards are effective for annual periods beginning on or after 1 January 2018 and earlier application is permitted. However, the Company has not early applied the following new standards in preparing these financial statements.

The following standards are expected to have no impact on the Company's retained earnings and reserve in the period of initial application.

A. Estimated impact of the adoption of IFRS 9 and IFRS 15

The Company is required to adopt IFRS 9 Financial Instruments and IFRS 15 Revenue from Contracts with Customers from 1 January 2018. The Company has assessed the estimated impact that the initial application of IFRS 9 (see (B)) and IFRS 15 (see (C)) will have on its financial statements. The estimated impact of the adoption of these standards on the Company's equity as at 1 January 2018 is based on assessments undertaken to date and is summarised below. The actual impacts of adopting the standards at 1 January 2018 may change because the new accounting policies are subject to change until the Company presents its first financial statements that include the date of initial application.

Estimated impact of adoption of IFRS 9 and IFRS 15

In thousands of BDT	As reported at 31 December 2017	Estimated adjustments due to adoption of IFRS 9	Estimated adjustments due to adoption of IFRS 15	Estimated adjusted opening balance at 1 January 2018
Capital Reserve	64,896	-	-	64,896
Retained earnings	22,447,542	-	-	22,447,542

B. IFRS 9 Financial Instruments

IFRS 9, published in July 2014, replaces the existing guidance in IAS 39: Financial Instruments: Recognition and Measurement. IFRS 9 includes revised guidance on the classification and measurement of the financial instruments, a new expected credit loss model for calculating impairment of financial assets, and the new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39. IFRS 9 is effective for annual reporting periods beginning on or after 1 January 2018, with early adoption permitted. The Company has assessed the potential impact of IFRS 9 on its financial statements. Based on its assessment, the Company does not believe that the new classification requirements will have a material impact on its accounting for trade receivables and loans. The Company does not hold any investments in debt securities and investments in equity securities that are managed on a fair value basis.

C. IFRS 15 Revenue from Contracts with Customers

IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. It replaces existing recognition guidance, including IAS 18: Revenue, IAS 11: Construction Contracts and IFRS 13: Customer Loyalty Programmes. IFRS 15 is effective for annual reporting periods beginning on or after 1 January 2018, with early adoption permitted. BATB has assessed the estimated impact of the initial application of IFRS 15 on its financial statements. As per BATB's assessment adoption of IFRS 15 would have the following estimated adjustment (pretax) in recognition of revenue and trade support expenditure:

In thousands of BDT	As reported at 31 December 2017	Estimated adjustments due to adoption of IFRS 15	Estimated adjusted opening balance at 1 January 2018
Gross turnover from domestic sale	201,917,560	(209,516)	201,708,044
Trade support expenditure	(1,203,608)	209,516	(994,092)
	200,713,952	-	200,713,952

D. IFRS 16 Leases:

IFRS 16 replaces existing leases guidance, including IAS 17 Leases, IFRIC 4 Determining whether an Arrangement contains a Lease, SIC-15 Operating Leases – Incentives and SIC-27 Evaluating the Substance of Transactions Involving the Legal Form of a Lease.

The standard is effective for annual periods beginning on or after 1 January 2019. Early adoption is permitted for entities that apply IFRS 15 at or before the date of initial application of IFRS 16.

IFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognises a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard – i.e. lessors continue to classify leases as finance or operating leases.

The Company has completed an initial assessment of the potential impact on its financial statements but has not yet completed its detailed assessment. The actual impact of applying IFRS 16 on the financial statements in the period of initial application will depend on future economic conditions, including the Company's borrowing rate at 1 January 2019, the composition of the Company's lease portfolio at that date, the Company's latest assessment of whether it will exercise any lease renewal options and the extent to which the Company chooses to use practical expedients and recognition exemptions.

ব্রিটিশ আমেরিকান টোব্যাকো বাংলাদেশ কোম্পানি লিমিটেড শেয়ারহোল্ডারদের প্রতি স্বতন্ত্র অডিটরের প্রতিবেদন

আর্থিক বিবরণী সমূহের উপর প্রতিবেদন

আমরা ব্রিটিশ আমেরিকান টোব্যাকো বাংলাদেশ কোম্পানি লিমিটেড এর আর্থিক বিবরণীসমূহ অডিট করেছি যার মধ্যে রয়েছে ৩১ ডিসেম্বর ২০১৭ তারিখের আর্থিক অবস্থার বিবরণী, উক্ত তারিখে সমাপ্ত বছরের জন্য লাভ-ক্ষতি ও অন্যান্য বিশদ আয়ের বিবরণী, মালিকানা স্বত্বের পরিবর্তন বিবরণী, নগদ অর্থপ্রবাহ বিবরণী এবং গুরুত্বপূর্ণ হিসাবরক্ষণ নীতির সারাংশ ও অন্যান্য ব্যাখ্যামূলক তথ্য।

আর্থিক বিবরণীতে ব্যবস্থাপনা কর্তৃপক্ষের দায়িত্ব

বাংলাদেশ ফাইন্যান্সিয়াল রিপোর্টিং স্ট্যান্ডার্ডস (বিএফআরএস), কোম্পানি আইন ১৯৯৪, সিকিউরিটিজ অ্যান্ড এক্সচেঞ্জ বিধিমালা ১৯৮৭ এবং অন্যান্য আইন ও বিধানের সাথে সঙ্গতি রেখে এসব আর্থিক বিবরণী প্রস্তুতকরণ ও সুষ্ঠুভাবে উপস্থাপনা ব্যবস্থাপনা কর্তৃপক্ষের দায়িত্ব। এছাড়াও ব্যবস্থাপনা কর্তৃপক্ষ অভ্যন্তরীণ নিয়ন্ত্রণের মাধ্যমে বস্তুগত ত্রুটিবিহীন মুক্ত আর্থিক বিবরণী উপস্থাপনা নিশ্চিত করে।

অডিটরের দায়িত্ব

আমাদের দায়িত্ব হচ্ছে, আমাদের অডিটের ওপর ভিত্তি করে এই আর্থিক প্রতিবেদনের উপর মতামত প্রকাশ করা। আমাদের এই অডিট বাংলাদেশ স্ট্যান্ডার্ডস অন অডিটিং (বিএসএ) এর নীতিমালা অনুসারে পরিচালনা করা হয়েছে। এ নীতিমালা অনুসারে আমাদেরকে সংশ্লিষ্ট নৈতিক শর্তসমূহ মেনে চলতে হয় এবং আর্থিক বিবরণীসমূহ বস্তুগত অসঙ্গতি থেকে মুক্ত কি না সেই মর্মে যৌক্তিক নিশ্চয়তা অর্জনের লক্ষে অডিট পরিকল্পনা ও পরিচালনা করতে হয়।

একটি অডিটের প্রধান কার্যাবলির মধ্যে রয়েছে আর্থিক প্রতিবেদনের অর্থের অংক সংক্রান্ত উপাত্ত ও ব্যাখ্যাসমূহের যথেষ্ট প্রমাণাদি সংগ্রহ করা। অডিটে কোন কার্যপদ্ধতি অনুসরণ করা হবে তা নির্ভর করে আমাদের বিচার-বিবেচনার ওপর এবং সেই সাথে আর্থিক বিবরণীসমূহ প্রতারণা বা ভুলের কারণে সৃষ্ট কোন বস্তুগত অসঙ্গতির ঝুঁকি মূল্যায়নের উপর। এ সকল ঝুঁকি নির্ধারণের ক্ষেত্রে আমরা কোম্পানির আর্থিক প্রতিবেদন প্রস্তুতকরণ ও উপস্থাপনের জন্য প্রাসঙ্গিক অভ্যন্তরীণ নিয়ন্ত্রণ বিবেচনা করি, যা আমাদের পরিস্থিতির উপর নির্ভর করে অডিটের পস্থা নির্বাচনের ক্ষেত্রেও সহযোগিতা করে। তবে এক্ষেত্রে অভ্যন্তরীণ নিয়ন্ত্রণের যথার্থতা নিয়ে মতামত প্রকাশ করা এর উদ্দেশ্য নয়। অডিটে হিসাবরক্ষণে ব্যবহৃত পস্থা সমূহের যথার্থতা এবং ব্যবস্থাপনা কর্তৃক নির্ধারিত আনুমানিকতার যৌক্তিক অংশসমূহ নিশ্চিত করা হয় এবং আর্থিক প্রতিবেদনের প্রকাশনার মানদণ্ড বিচার করা হয়।

আমরা বিশ্বাস করি, আমরা যেসব অডিট প্রমাণাদি পেয়েছি সেগুলো আমাদের অডিট মতামতের ভিত্তি গঠনে যথেষ্ট ও যথার্থ।

মতামত

আমাদের মতে, আর্থিক বিবরণীসমূহ বাংলাদেশ ফাইন্যান্সিয়াল রিপোর্টিং স্ট্যান্ডার্ডস (বিএফআরএস) অনুযায়ী ৩১ ডিসেম্বর ২০১৭ তারিখে কোম্পানির আর্থিক অবস্থা এবং সেই তারিখে সমাপ্ত বছরের আর্থিক কর্মকাণ্ডের ফলাফল ও নগদ অর্থপ্রবাহের সত্য ও নিরপেক্ষ চিত্র প্রদান করে।

গুরুত্বপূর্ণ বিষয়

আমরা আর্থিক বিবরণীর টীকা ৩৯.১ এর প্রতি দৃষ্টি আকর্ষণ করছি যেখানে ব্যবস্থাপনা কর্তৃপক্ষ জাতীয় রাজস্ব বোর্ড কর্তৃক উত্থাপিত কোম্পানির পাইলট ও ব্রিস্টল ব্র্যান্ডের ওপর ১৭,৮০৬ মিলিয়ন টাকার ভ্যাট ও সম্পূর্ণ শুল্কের ভূতাপেক্ষ দাবি সম্পর্কে ব্যাখ্যা করে। বিষয়টি বর্তমানে সুপ্রিম কোর্টের আপিল বিভাগে শুনানির জন্য অপেক্ষমান রয়েছে। এ ব্যাপারটি আমাদের মতামতকে প্রভাবিত করছে না।

প্রয়োজ্য অন্যান্য আইন ও বিধির ওপর প্রতিবেদন

কোম্পানি আইন ১৯৯৪ এবং সিকিউরিটিজ অ্যান্ড এক্সচেঞ্জ বিধিমালা ১৯৮৭ অনুযায়ী আমরা আরও উল্লেখ করছি যে:

- ক) আমাদের জানামতে এই অডিট কায়ের জন্য প্রয়োজনীয় যাবতীয় তথ্যাদি ও ব্যাখ্যাসমূহ আমরা পেয়েছি এবং যথাযথভাবে যাচাই করেছি,
- খ) আমাদের অভিমত ও পরীক্ষণ অনুযায়ী, কোম্পানি কর্তৃক হিসাবরক্ষণের জন্য আইন অনুযায়ী যথাযথ বই সংরক্ষণ করা হয়ে থাকে,
- গ) কোম্পানির আর্থিক অবস্থার বিবরণী এবং লাভ-ক্ষতি ও অন্যান্য বিশদ আয়ের বিবরণী হিসাবরক্ষণ বইয়ের সাথে সঙ্গতিপূর্ণ, এবং
- ঘ) যাবতীয় ব্যয় সংঘটিত হয়েছে কোম্পানির ব্যবসায়িক উদ্দেশ্যে।

যখন স্থাবর বা অস্থাবর সম্পদ অথবা দায়বদ্ধতার ন্যায্য মূল্য পরিমাপ করা হয়, তখন কোম্পানি যতদূর সম্ভব বাজার পরিসংখ্যানযোগ্য/পর্যবেক্ষণযোগ্য তথ্য ব্যবহার করে। ব্যবহৃত ইনপুটগুলোর উপর ভিত্তি মূল্যায়ন কৌশলগুলোতে যে ন্যায্য মূল্য নির্ধারণ করা হয় এবং যথাযথ মূল্যগুলো একটি সুষ্ঠু মূল্যের অনুক্রমের বিভিন্ন স্তরে শ্রেণিভুক্ত করা হয় তা নিম্নরূপ:

- ধাপ ১: স্থাবর বা অস্থাবর সম্পদ অথবা দায়বদ্ধতার জন্য সক্রিয় বাজারে উদ্ধৃত মূল্য (অপ্রয়োজনীয়/যোগ্য না করা)।
- ধাপ ২: ধাপ ১ এ অন্তর্ভুক্ত উদ্ধৃত মূল্যের চেয়ে অন্যান্য ইনপুট স্থাবর বা অস্থাবর সম্পদ অথবা দায়বদ্ধতার জন্য পরিসংখ্যানযোগ্য/পর্যবেক্ষণযোগ্য হয়, কখনো প্রত্যক্ষভাবে (উদাহরণস্বরূপ মূল্য) কখনো বা পরোক্ষভাবে (উদাহরণস্বরূপ মূল্য থেকে উদ্ধৃত)।
- ধাপ ৩: স্থাবর বা অস্থাবর সম্পদ অথবা দায়বদ্ধতার জন্য প্রদত্ত ইনপুট যেগুলো বাজারের পরিসংখ্যানযোগ্য/পর্যবেক্ষণযোগ্য তথ্য ভিত্তিক নয় (পরিসংখ্যানযোগ্য নয়/পর্যবেক্ষণযোগ্য নয় এমন ইনপুট)।

যদি স্থাবর বা অস্থাবর সম্পদ অথবা দায়বদ্ধতার ন্যায্য মূল্য পরিমাপ করতে ইনপুট ব্যবহার করা হয় সেক্ষেত্রে ন্যায্য মূল্য অনুক্রমের বিভিন্ন স্তরে শ্রেণিকরণ করা যেতে পারে, তারপর ন্যায্য মূল্য পরিমাপ তার সম্পূর্ণভাবে ন্যায্য মূল্য অনুক্রমের একই স্তরে শ্রেণিভুক্ত করা হয়, তবে সর্বনিম্ন স্তরের ইনপুট সমগ্র পরিমাপের জন্য গুরুত্বপূর্ণ।

রিপোর্টিংয়ের মেয়াদ শেষ হওয়ার পরে কোম্পানি সম্পদের সুনির্দিষ্ট ন্যায্য মূল্য এবং অনুক্রমের বিভিন্ন মাত্রা শ্রেণি পর্যায়ে স্থানান্তর সনাক্ত করে।

সিগারেটের প্রকৃত উৎপাদন (মিলিয়ন শলকা)	৫৩,৭৩৪	৫০,০২৭

৩৪ সেগমেন্ট প্রতিবেদন

প্রতিষ্ঠানটির কার্যক্রম বাংলাদেশভিত্তিক। গ্রাহকদের কাছ থেকে সিগারেট বিক্রয় থেকে উপার্জিত আয়ের পরিমাণ ২০১৭, ৯১৭ মিলিয়ন টাকা (২০১৬: ১৬৩,৯৯৮ মিলিয়ন টাকা)। বাংলাদেশের বাইরে প্রতিষ্ঠানটির কোনো স্থায়ী সম্পত্তি নেই। কোন একক বহির্গামী গ্রাহকের সাথে লেনদেনের মাধ্যমে মোট সিগারেট বিক্রির আয় কোম্পানির মোট রাজস্ব আয়ের মধ্যে ৩২,০৫৩ মিলিয়ন টাকা (২০১৬ : ২৩,১৯০ মিলিয়ন টাকা)

প্রতিষ্ঠানটির প্রাথমিক কর্মকাণ্ডের আওতায় রয়েছে বাংলাদেশে সিগারেট উৎপাদন এবং বিক্রয়। এর আওতায় প্রতিষ্ঠানটির অভ্যন্তরীণ প্রতিবেদন প্রকাশিত হয়। যদিও প্রতিষ্ঠানটির ব্র্যান্ডসমূহের মধ্যে পার্থক্য করা হয়, প্রধান নির্বাহী সিদ্ধান্তগ্রহণকারীর কাছে পরিবেশিত অভ্যন্তরীণ প্রতিবেদনে এই পার্থক্য উল্লেখ করা থাকে না। সেহেতু, উচ্চ পর্যায়ের প্রাক্কলন ছাড়া ব্র্যান্ডের ওপর ভিত্তি করে প্রতিষ্ঠানের ফলাফল ভাগ করা সম্ভব নয়।

সিগারেট উৎপাদন ছাড়াও প্রতিষ্ঠানটি বাংলাদেশের বাইরে তামাক পাতা রপ্তানি করে। এই রপ্তানি মোট এবং নীট আয়ের ১০% এরও কম অবদান রাখে। তবে সিগারেট এবং রপ্তানির বিশদ বিবরণী টাকা ২০ এ প্রদত্ত রয়েছে।

খ. আর্থিক ঝুঁকি ব্যবস্থাপনা

আর্থিক ইন্সট্রুমেন্ট ব্যবহারের ক্ষেত্রে কোম্পানি নিম্নুক্ত ঝুঁকির সম্মুখীন হতে পারে

- I) আমানত ঝুঁকি
- II) তারল্য ঝুঁকি
- III) বাজার ঝুঁকি

কোম্পানির সার্বিক ঝুঁকি ব্যবস্থাপনা অবকাঠামো নির্মাণ এবং পরিদর্শনের দায়িত্ব বোর্ড অব ডিরেক্টরের কাছে থাকে। কোম্পানির ঝুঁকি ব্যবস্থাপনা নীতিমালা প্রতিষ্ঠা করা হয় কোম্পানি যেসব ঝুঁকির মুখোমুখি হয় তা চিহ্নিত এবং বিশ্লেষণ করা, যথাযত ঝুঁকির মাত্রা এবং নিয়ন্ত্রন প্রতিষ্ঠা করা এবং পরিসীমা ঝুঁকি ও আনুগত্য নিরীক্ষন করতে। ঝুঁকি ব্যবস্থাপনা নীতিমালা, প্রক্রিয়া এবং ব্যবস্থা নিয়মিত নিরীক্ষা করা হয় বাজার ব্যবস্থা এবং কোম্পানি কার্যক্রম যাচাই করার উদ্দেশ্যে। এই নোট কোম্পানির নিম্নুক্ত ঝুঁকিগুলো, কোম্পানীর উদ্দেশ্য, নীতিমালা এবং ঝুঁকি পরিমাপ ও ব্যবস্থাপনা এবং কোম্পানীর পুঁজি ব্যবস্থাপনা সম্পর্কে তথ্য প্রদান করে।

I) আমানত ঝুঁকি

আমানত ঝুঁকি হল কোম্পানির সেই জাতীয় আর্থিক ক্ষতির ঝুঁকি যদি কোনো কাস্টমার অথবা আর্থিক উপকরণের বিপক্ষ কোনো পার্টি তাদের চুক্তির বাধ্যবাধকতাসমূহ পূরণ করতে ব্যর্থ হয় এবং মূলত তৈরি হয় কাস্টমার এবং অন্যান্য পার্টির কাছে থেকে প্রাপ্য সমূহ থেকে। ব্যবস্থাপনার কিছু আমানত নীতিমালা রয়েছে এবং আমানত ঝুঁকিতে পড়ার সম্ভাবনার বিষয়টি নিয়মিত পর্যবেক্ষন করা হয়। আমানত ঝুঁকি পর্যবেক্ষনের ক্ষেত্রে প্রাপ্যসমূহ তাদের রিস্ক প্রোফাইল অনুসারে শ্রেণীভুক্ত করা হয়, তাদের আইনী অবস্থা, আর্থিক পরিস্থিতি, এজিৎ প্রোফাইল ইত্যাদি। কোম্পানির প্রাপ্য সমূহের উপর আমানত ঝুঁকিতে পড়ার সম্ভাবনা অনেকাংশেই কাস্টমারদের দ্বারা প্রভাবিত। আমানত ঝুঁকিতে পড়ার সর্বোচ্চ সম্ভাবনা প্রকাশিত হয় প্রত্যেকটি আর্থিক সম্পদের চলতি পরিমানসমূহ যা আর্থিক অবস্থার বিবরণী উল্লেখ করা হয়।

ক) আমানত ঝুঁকিতে পড়ার সম্ভাবনা

II) তারল্য ঝুঁকি

তারল্য ঝুঁকি হল সেই সমস্ত ঝুঁকি যখন কোম্পানি তার আর্থিক দায় সমূহ পূরণ করতে অসুবিধার সম্মুখীন হবে যেগুলো পূরণ করা হয় অর্থ অথবা অন্যান্য আর্থিক সম্পদ প্রদানের মাধ্যমে। তারল্য ব্যবস্থাপনায় কোম্পানির অ্যাগ্রোচ এটা নিশ্চিত করা যে যতদূর সম্ভব তার কাছে যথেষ্ট পরিমাণ তরল অর্থ থাকবে তার যখন দায় থাকি থাকবে তা পূরণ করার জন্য যেকোনো সাধারণ এবং বিপজ্জনক অবস্থায় কোনো ধরনের গ্রহনঅযোগ্য ক্ষতি তৈরী অথবা কোম্পানীর সুনামের ক্ষেত্রে কোনো ধরনের প্রভাব না ফেলে। সাধারণভাবে কোম্পানী নিশ্চিত করে যে তাদের কাছে যথেষ্ট পরিমাণ অর্থ এবং অর্থ সম্পরিমানের সম্পদ রয়েছে পরিচালনা ব্যয় নির্বাহের জন্য আর্থিক বাধ্যবাধকতাসহ ক্যাশ ফ্লো পূর্বাভাস তৈরী করে টাইম লাইন অব পেমেন্টের ভিত্তিতে আর্থিক বাধ্যবাধকতা প্রদান এবং সেই অনুসারে যথেষ্ট পরিমাণে তারল্য/ফান্ড যোগাড় করা হবে যাতে ডিউ ডেটের ভেতর প্রত্যাশিত পেমেন্ট করা যাবে। তার ওপর কোম্পানির বিভিন্ন বানিজ্যিক ব্যাংকের সাথে স্বল্পকালীন ঋণ সুবিধা রয়েছে পেমেন্ট অব অবলিগেশন প্রদান করার জন্য সেই সময়ে যখন কোম্পানির স্বল্প পরিমাণ অর্থ রয়েছে প্রয়োজনীয় পেমেন্টের জন্য। তারল্য প্রবাহ অনুমানের মাধ্যমে আগেই প্রয়োজন সমূহ নির্ধারণ করা হয় এবং ব্যাংকের সাথে ক্রেডিট লাইন সম্পর্কে আলোচনা করা হয়।

নিচে উল্লেখ্য বিষয়গুলো হল আর্থিক দায়ের চুক্তিভিত্তিক পরিপক্বতাসমূহ:

৩১ ডিসেম্বর ২০১৭

টাকা '০০০	নোট	চুক্তিভিত্তিক নগদ প্রবাহ

III) বাজার ঝুঁকি

বাজার ঝুঁকি হচ্ছে সেই ধরনের ঝুঁকি যা বাজার মূল্যের কোনো ধরনের পরিবর্তন যেমন বৈদেশিক মুদ্রার বিনিময় হার এবং সুদের হার কোম্পানির আয় অথবা তার আর্থিক উপকরনসমূহের হোল্ডিং মূল্যের উপর প্রভাব ফেলবে। বাজার ঝুঁকি ব্যবস্থাপনার উদ্দেশ্য হল মুনাফা বাড়ানোর পাশাপাশি বাজার ঝুঁকিতে পড়ার সম্ভাবনা কমিয়ে গ্রহযোগ্য মাত্রায় রাখা।

ক. মুদ্রা ঝুঁকি/ বৈদেশিক মুদ্রা বিনিময় হার ঝুঁকি

কোম্পানি বিভিন্ন দেশের মুদ্রার প্রভাবে বৈদেশিক মুদ্রা বিনিময় হার ঝুঁকির মুখোমুখি হতে পারে, প্রাথমিকভাবে ইউনাইটেড স্টেট ডলার (ইউএসডি), ইউরো (ইউএআর) এবং ব্রিটিশ পাউন্ড (জিবিপি)। বৈদেশিক মুদ্রা বিনিময় হার ঝুঁকির সৃষ্টি হয় ভবিষ্যত স্বীকৃত সম্পদ এবং দায়ের বিনিময়ের মাধ্যমে। ব্যবস্থাপনা ট্রেজারী নীতিমালা মেনে চলে বৈদেশিক মুদ্রা বিনিময় ঝুঁকি তাদের ফাংশনাল কারেন্সির বিপরীতে ব্যবস্থাপনার উদ্দেশ্যে।

অ. মুদ্রা ঝুঁকির মুখোমুখি

কোম্পানির বৈদেশিক মুদ্রা ঝুঁকির মুখোমুখি হওয়ার বিষয়টা ছিল নিচে উল্লেখিত পরিমানের অনুরূপ:

আ. বৈদেশিক মুদ্রা খরচের ক্ষেত্রে বৈদেশিক বিনিময় হার সংবেদনশীলতা বিশ্লেষণ

নিচে প্রদর্শিত পরিমাণ অনুযায়ী প্রতিবেদনের তারিখে ইউ.এস.ডি(ডলার), জি.বি.পি(পাউন্ড), ই.ইউ.আর(ইউরো)-এর বিপরীতে টাকা শক্তিশালী অথবা দুর্বল করা ইকুইটি এবং লাভ অথবা ক্ষতি বাড়ায়/কমায়। এই বিশ্লেষণ করা হয়েছে বৈদেশিক মুদ্রা বিনিময় হারের তারতম্যের ভিত্তিতে যা কোম্পানি তার রিপোর্টিং তারিখে যুক্তিসম্মতভাবে সম্ভব বলে মনে করেছিল। এই বিশ্লেষণ অনুমান করে যে অন্য সকল চলক, বিশেষত সুদের হার অপরিবর্তনীয় এবং অনুমিত ভবিষ্যতের বেচাকেনায় কোন ধরনের প্রভাব থাকবে না।

খ. সুদের হার ঝুঁকি

সুদের হার ঝুঁকি সেই ধরনের ঝুঁকি যা তৈরী হয় ধারের উপর সুদের হারের পরিবর্তনের কারণে। বর্তমানে কোম্পানির কোনো ধরনের ধার নেই যার ফলে সুদের হার তৈরী হবে।

৩৯.১ আইনী প্রক্রিয়া

ব্যবসায়ের সাধারণ প্রক্রিয়া হতে উদ্ভূত বিভিন্ন দাবি দাওয়া এবং আইনি বিষয় কোম্পানির সাথে জড়িত। ম্যানেজমেন্ট বিশ্বাস করে যে, প্রতিটি দাবি দাওয়া এবং আইনি বিষয়ে কোম্পানির দৃঢ় অবস্থান রয়েছে।

বিশেষত নভেম্বর ২০১৩ তে কোম্পানি জাতীয় রাজস্ব বোর্ড (এনবিআর) থেকে তাদের কমদামি ক্যাটাগরির ব্র্যান্ডগুলোর ওপর (পাইলট ও ব্রিস্টল) মাঝারি মূল্যের সেগমেন্টের পরিবর্তে স্বল্প মূল্যের সেগমেন্টে বিক্রি করে কর ফাঁকির অভিযোগে প্রায় ১৯,২৪০ মিলিয়ন টাকা ভ্যাট এবং সম্পূর্ণক শুল্ক ধার্য করার ভূতাপেক্ষ নোটিশ পায়, যা পরবর্তিতে হাইকোর্ট ডিভিশনের অন্য একটি আদেশ দ্বারা হ্রাস করে ১৭,৮০৬ মিলিয়ন টাকা দাড়াই। মূল দাবির একটি অংশ সময়োত্তীর্ণ দাবি হওয়ার কারণে এই হ্রাসকরণ করা হয়।

ম্যানেজমেন্ট বিশ্বাস করে যে এই দাবি ভিত্তিহীন এবং এই ভিত্তিহীন দাবির বিষয়ে তারা সংশ্লিষ্ট সকল পক্ষের সাথে গোড়া থেকেই যোগাযোগ করে আসছে। আইনি মতামতের উপর ভিত্তি করে এই দাবির জন্য কোন সঞ্চিতি রাখা হয়নি।

বিষয়টি ১৩ নভেম্বর ২০১৭ তারিখে সুপ্রিম কোর্টের আপিল বিভাগে অ্যাডমিশন শুনানির জন্য উত্থাপিত হয়। আদালত সংশ্লিষ্ট পক্ষসমূহের শুনানি শেষে আপিল গ্রহণ করে এবং বিষয়টি চূড়ান্ত শুনানির জন্য স্থির করে। বিষয়টি আপিল বিভাগের চূড়ান্ত শুনানির তালিকায় অপেক্ষমাণ রয়েছে।

এছাড়াও প্রয়োজন অনুসারে বছর ব্যাপি পরিবর্তনশীল অনির্দিষ্ট সংখ্যক মৌসুমী ও চুক্তি ভিত্তিক ব্যক্তি কর্মে নিয়োজিত রয়েছে।

৪০.২ কমপ্যারিটিভিস্ এবং রিঅ্যারেঞ্জমেন্ট

সংখ্যাগত তথ্যের ক্ষেত্রে সকল তুলনামূলক তথ্য এই আর্থিক প্রতিবেদনে প্রকাশ করা হয়েছে এবং আখ্যানধর্মী এবং বর্ণনামূলক তথ্যের ক্ষেত্রেও যেগুলো প্রাসঙ্গিক বর্তমান আর্থিক প্রতিবেদন বোঝার ক্ষেত্রে জরুরী সেগুলোও প্রকাশ করা হয়েছে।

তুলনার স্বার্থে বিগত বছরের কিছু জরুরী প্রাসঙ্গিক ব্যালাগ পুনর্বিব্যস্ত ও পুনর্শ্রেণীবিভাজন করা হয়েছে যখনই এগুলো বর্তমান বছরের প্রেজেন্টেশনের ক্ষেত্রে জরুরী বলে মনে করা হয়েছে।

৪১ রিপোর্টিং সময়কালের পরবর্তী ঘটনাবলী

কোম্পানির বোর্ড অব ডিরেক্টর বিগত ৫ মার্চ ২০১৮ তারিখে অনুষ্ঠিত বোর্ড সভায় ৬০০% (টাকা ৬০ প্রতি শেয়ার) নগদ লভ্যাংশ ঘোষণা করে যার মোট পরিমাণ ৩,৬০০ মিলিয়ন টাকা। এই লভ্যাংশ আগামী বার্ষিক সাধারণ সভায় চূড়ান্ত অনুমোদনের জন্য অপেক্ষমান। এই আর্থিক ঘোষণা ৩১ ডিসেম্বর ২০১৭ তে শেষ হয়েছে এবং নগদ লভ্যাংশের উপর শেয়ার হোল্ডারদের পরবর্তী লভ্যাংশ পাওয়ার দাবী প্রতিষ্ঠিত হওয়ার পরের কোন প্রভাব পরবে না।

আর্থিক প্রতিবেদনে উল্লেখ্য অর্থের পরিমাণসমূহ রিপোর্টিং পিরিয়ড শেষ হওয়ার পরবর্তী ঘটনাবলীর জন্য অ্যাডজাস্ট করা হয় যেগুলো প্রমাণ দেয় সেই অবস্থা সম্পর্কে যা রিপোর্টিং পিরিয়ডের শেষে ছিল। সেইসব ঘটনাবলীর জন্য আর্থিক প্রতিবেদনে কোনো এ্যাডজাস্টমেন্ট দেয়া হয়না যেগুলো এমন কোনো পরিস্থিতি সম্পর্কে বলে যা রিপোর্টিং পিরিয়ডের শেষে ঘটেছে।

৪২ পরিমাপের ভিত্তি

বার্ষিক আর্থিক প্রতিবেদন তৈরী করা হয়েছে ঐতিহাসিক খরচ সমন্বয়ের ভিত্তিতে এবং চলমান ব্যবসায়িক সত্তা ধারণার ভিত্তিতে।

৪৩ উল্লেখযোগ্য হিসাবরক্ষন নিয়মাবলী

এখানে উল্লেখিত হিসাবরক্ষন নিয়মাবলী আর্থিক বিবৃতির সকল সময়কালের জন্য কোম্পানি ধারাবাহিকভাবে প্রয়োগ করেছে।

ঝ সম্ভাব্য

i) বিকল্প দায়

অতীতে ঘটা কোনো ঘটনার উপর ভিত্তি করে সম্ভাব্য দায় নির্ধারিত হয় যার অস্তিত্ব নিশ্চিত করা সম্ভব শুধুমাত্র কোনো ভবিষ্যত ঘটনা ঘটা বা না ঘটার উপরে যার নিয়ন্ত্রণ সবক্ষেত্রে কোনো এক নির্দিষ্ট পক্ষের হাতে থাকেনা। সম্ভাব্য দায় আর্থিক স্টেটমেন্টে উল্লেখ করা উচিত না হলেও তা প্রকাশ করা দরকার হতে পারে। কোনো বিধান/নীতিমালা সেই সময়ের ভেতরেই স্বীকৃত হওয়া উচিত যেই সময়ের মাঝে বিধিমালা স্বীকৃত হওয়ার মানদণ্ড গৃহীত হয়েছে।

ii) বিকল্প সম্পদ

অতীতে ঘটা কোনো ঘটনার উপর ভিত্তি করে সম্ভাব্য সম্পদ নির্ধারণ হয় যার অস্তিত্ব নিশ্চিত করা সম্ভব শুধুমাত্র কোনো ভবিষ্যত অনিশ্চিত ঘটনা ঘটা বা না ঘটার উপরে যার নিয়ন্ত্রণ সবক্ষেত্রে কোনো নির্দিষ্ট এক পক্ষের হাতে থাকেনা।

সম্ভাব্য সম্পদ স্বীকার্য হয় না। যখন কোনো আর্থিক সম্পদের আদায় সম্পূর্ণরূপে নিশ্চিত হয় তখনই শুধুমাত্র এই সম্পদ স্বীকারের প্রশ্ন আসে যদি কিনা এটা নিশ্চিতভাবে পরিমাপ করা যায় কেননা তখন সেই সম্পদ আর সম্ভাব্য সম্পদ হিসেবে গণ্য হয় না।

ঞ বিক্রয় আয়

পণ্য বিক্রয় থেকে অর্জিত রাজস্ব বিবেচ্য লাভ বা প্রাপ্য হিসাবে ফেয়ার ভ্যালুতে, নেট অব ভ্যাট, সম্পূরক শুল্ক, রফতানি শুল্ক, স্বাস্থ্য সারচার্জ যুক্ত করে হিসাব করা হয়। গ্রস টার্নওভারের ভেতর অন্তর্ভুক্ত আন্তর্জাতিক বিক্রিত সিগারেট, পাতা রফতানি এবং সম্পূরক শুল্ক, রফতানি শুল্ক, এবং স্বাস্থ্য সারচার্জ যা বাংলাদেশ গভর্নমেন্টকে প্রদান করা হয়।

ট আয়কর খরচ

আয়কর ব্যয়ের ভেতর বর্তমান এবং বিলম্বিত শুল্ক অন্তর্ভুক্ত। আয়কর খরচ লাভ-ক্ষতি এবং অন্যান্য কম্প্রিহেনসিভ আয়ের হিসাবে অন্তর্ভুক্ত হয়।

i) বর্তমান শুল্ক

বর্তমান শুল্ক হল সেই বছরের জন্য প্রত্যাশিত প্রদেয় অথবা প্রাপ্য করযোগ্য আয় অথবা ক্ষতি, রিপোর্টিং ডেটে প্রতিপাদিত করের হার এবং বিগত বছরের সাপেক্ষে প্রদেয় করের সাথে কোনো অ্যাডজাস্টমেন্ট করার পরবর্তীতে থাকা অর্থ। বর্তমানে কোম্পানী ৪৫% হারে আয়কর এবং ২.৫ হারে সারচার্জ প্রদানে বাধ্য।

ii) বিলম্বিত শুল্ক

বিলম্বিত শুল্ক স্বীকার্য হয় আর্থিক প্রতিবেদনের জন্য সম্পদ এবং দায়ের ক্যারিয়ারিং কস্টের/চলমান খরচ অস্থায়ী পার্থক্যের সাপেক্ষে। বিলম্বিত শুল্ক সেই কর রেটে হিসাব করা হয় যেগুলো ব্যবহৃত হবে অস্থায়ী পার্থক্য গুলো যখন রিভার্স হবে যেগুলো রিপোর্টিং ডেটের ভেতর চালু হওয়া সেই সব আইনের ওপর নির্ভরশীল। বিলম্বিত শুল্ক সম্পদ সেই পর্যন্ত স্বীকার্য হয় যখন এটা সম্ভাব্য হয় যে ভবিষ্যত করযোগ্য লাভ সহজলভ্য হবে যার বিপরীতে অস্থায়ী পার্থক্যগুলো ব্যবহারযোগ্য হবে। বিলম্বিত শুল্ক সম্পদ প্রত্যেক রিপোর্টিং ডেটে রিভিউ করা হয় এবং সেই পর্যন্ত কমিয়ে ফেলা হয় যখন এটা কোনোভাবেই সম্ভাব্য হবে না যে শুল্ক সুবিধা স্বীকার্য হবে। বিলম্বিত শুল্ক সম্পদ এবং দায় অফসেট করা হয় যদি আইনত প্রয়োগযোগ্য কোনো অধিকার থাকে বর্তমান কর দায় এবং সম্পদ অফসেট করার এবং সেগুলো সেই ট্যাঙ্ক কতৃপক্ষের মাধ্যমে কর আরোপের সাথে জড়িত কিন্তু তারা নেট বেসিসে বর্তমান শুল্ক দায় এবং সম্পদ সেটল করে অথবা শুল্ক সম্পদ এবং দায় একযোগে স্বীকার্য হবে

ঠ বৈদেশিক মুদ্রা লেনদেন সমূহ

বৈদেশিক মুদ্রায় বিনিময় সমূহ বাংলাদেশী টাকায় অনুদিত হয় সেই রেটে যা টানজেকশন ডেটে রুলিং করা হয়েছে। সকল আর্থিক সম্পদ এবং দায় যেগুলো রিপোর্টিং ডেটে বৈদেশিক মুদ্রায় আখ্যাত/ট্রান্সলেটেড হয়েছে সেগুলো পুনরায় আখ্যাত/রিট্রান্সলেটেড হয় ফাংশনাল কারেন্সিতে ওইদিন বিদ্যমান বিনিময় মূল্যের ওপর ভিত্তি করে। রিপোর্টিং পিরিয়ডের শেষে আর্থিক পণ্য সেটলমেন্ট অথবা ট্রান্সলেশনের ক্ষেত্রে যে পার্থক্য সৃষ্টি হয়

সেগুলো বিএএস ২১: দ্যা ইফেক্ট অব চেঞ্জস ইন ফরেন এক্সচেঞ্জ রেট অনুসারে লাভ-ক্ষতি ও অন্যান্য বিস্তৃত আয় হিসাবে অন্তর্ভুক্ত হয়।

ড ফাইন্যান্সিয়াল আয় ও ব্যয়

ব্যাংকে সঞ্চিত আর্থিক আমানতের সুদ নিয়ে আর্থিক আয় গঠিত হয়। আর্থিক আয় অ্যাকরুয়াল বেসিসে স্বীকৃত এবং লাভ-ক্ষতি ও অন্যান্য বিস্তৃত আয় হিসাবে দেখানো হয়। আর্থিক খরচের ভেতর ব্যাংক চার্জ এবং ওভারড্রাফটের ওপর সুদের খরচ অন্তর্ভুক্ত।

ঢ শেয়ার প্রতি আয় (ইপিএস)

কোম্পানি তার সাধারণ শেয়ারের ক্ষেত্রে শেয়ার প্রতি আয়কে প্রদর্শন করে। বেসিক শেয়ার প্রতি আয় হিসাব করা হয় সাধারণ শেয়ার হোল্ডারদের প্রতি আরোপ্য লাভ বা ক্ষতি কে সেই বছরের অপরিশোধিত সাধারণ শেয়ারের ওয়েইটেড অ্যাভারেজ নাম্বার দ্বারা ভাগ করে। তরলীকৃত নগদ অর্থ শেয়ার প্রতি আয় নির্ধারিত হয় সাধারণ শেয়ারহোল্ডারদের লাভ অথবা ক্ষতি এবং অপরিশোধিত শেয়ারের ওয়েইটেড অ্যাভারেজের মধ্যে সমন্বয় করে, সকল তরলকৃত সাধারণ শেয়ারের প্রভাবের জন্য। যদিও শেয়ার প্রতি আয় তরলীকরণ এই আর্থিক প্রতিবেদনের জন্য প্রযোজ্য হবে না কারণ রিপোর্টিং ডেটে কোনো সম্ভাব্য তরলীকৃত সাধারণ শেয়ার ছিলো না।

৪৪. ইস্যুকৃত স্ট্যাভার্ড সমূহ যা এখনো কার্যকর হয়নি

২০১৮ সালের জানুয়ারিতে, ইনস্টিটিউট অব চার্টার্ড একাউন্ট্যান্টস অব বাংলাদেশ (আইসিএবি), ইন্টারন্যাশনাল অ্যাকাউন্টিং স্ট্যাভার্ডস বোর্ড কর্তৃক ইস্যুকৃত ইন্টারন্যাশনাল ফিন্যান্সিয়াল রিপোর্টিং স্ট্যাভার্ডসকে আইএফআরএস হিসেবে গ্রহণ করেছে। যেহেতু আইসিএবি পূর্বে কোন পরিবর্তন ছাড়াই বাংলাদেশ ফিন্যান্সিয়াল রিপোর্টিং স্ট্যাভার্ড হিসাবে এই স্ট্যাভার্ড গ্রহণ করেছিল, এই সাম্প্রতিক গ্রহণের ফলে কোম্পানির আর্থিক বিবরণীর উপর কোন প্রভাব পড়বে না।

জানুয়ারী ১, ২০১৮ তারিখে অথবা পরবর্তীতে শুরু হওয়া বার্ষিক সময়কালের জন্য কিছু সংখ্যক স্ট্যাভার্ড এবং সংশোধনী স্ট্যাভার্ড কার্যকর হবে যা জানুয়ারী ১, ২০১৮ তারিখের পূর্ববর্তী সময়কালের জন্যও প্রয়োগের অনুমতি দেওয়া হয়েছে। তবে, এই আর্থিক বিবরণী প্রস্তুতির জন্য কোম্পানিটি নিম্নলিখিত নতুন স্ট্যাভার্ড প্রয়োগ করেনি।

নিম্নোক্ত স্ট্যাভার্ড সমূহ প্রারম্ভিক প্রয়োগের মেয়াদকালে কোম্পানির সংরক্ষিত আয় এবং রিজার্ভের উপর কোন প্রভাব রাখে বলে মনে করা হয় না।

এই স্ট্যান্ডার্ডটি জানুয়ারী ১, ২০১৯ তারিখে বা এর পরে শুরু হওয়া বার্ষিক সময়কালের জন্য কার্যকর। যে সকল এনটিটি (সত্ত্বা) আইএফআরএস ১৬ এর প্রাথমিক প্রয়োগের তারিখের আগে বা একই সময়ে আইএফআরএস ১৫ প্রয়োগ করে, তাদের জন্য প্রারম্ভিক গ্রহণের অনুমতি দেয়া হয়েছে।

আইএফআরএস ১৬ একটি একক, অন-ব্যালেন্স শীট লিজ অ্যাকাউন্টিং মডেল প্রবর্তন করে। ইজারা গ্রহিতা ব্যবহার-অধিকার (রাইট-অফ-ইউজ) সম্পদ স্বীকৃত করে যা ঐ সম্পদের ব্যবহারের অধিকারকে প্রতিনিধিত্ব করে এবং একটি ইজারা দায়বদ্ধতা ইজারা পরিশোধের দায়বদ্ধতাকে প্রতিনিধিত্ব করে। স্বল্পমেয়াদী এবং কম মূল্যের বস্তুর ইজারা স্বীকৃতির জন্য অব্যাহতি রয়েছে। ইজারাদাতার অ্যাকাউন্টিং বর্তমান স্ট্যান্ডার্ডের অনুরূপ রয়েছে- উদাহরণস্বরূপ ইজারাদাতা, ইজারা গ্রহিতার হিসাব আর্থিক বা অপারেটিং (পরিচালন) ইজারা হিসেবে শ্রেণীভুক্ত করে।

কোম্পানিটি তার আর্থিক বিবরণীর উপর সম্ভাব্য প্রভাবের প্রাথমিক মূল্যায়ন সম্পন্ন করেছে কিন্তু এখনো তার বিস্তারিত মূল্যায়ন সম্পন্ন করেনি। আর্থিক বিবরণীতে প্রাথমিক প্রয়োগের সময়ে আইএফআরএস ১৬ প্রয়োগের প্রকৃত প্রভাব, জানুয়ারী ১, ২০১৯ তারিখে কোম্পানির ঋণের হার সহ ভবিষ্যতের অর্থনৈতিক অবস্থার উপর, সেই তারিখে কোম্পানির ইজারার পোর্টফোলিওর গঠনের উপর, কোম্পানির সর্বশেষ মূল্যায়ন অনুসারে এটি কোনও ইজারা নবায়নের সুযোগ ব্যবহার করবে কিনা তার উপর এবং কি পরিমাণে কোম্পানীর ব্যবহারিক সুবিধা এবং স্বীকৃতি থেকে অব্যাহতির সুযোগ ব্যবহার করবে তার উপর নির্ভর করে।
