## 19 Earnings per share

## 19.1 Basic earnings per share

Earnings Per Share (EPS) is calculated in accordance with the International Accounting Standard (IAS) 33: Earnings Per Share. The composition of EPS is given below:

	For the nine-month period ended 30 September	
In thousands of BDT	2023	2022
Total profit attributable to shareholders	13.556.783	13.241.126
Weighted average number of shares outstanding	540,000	540,000
Earning per share in BDT	25.11	24.52

The weighted average number of ordinary shares outstanding during the period is the number of ordinary shares outstanding at the beginning of the year, adjusted by the number of ordinary shares issued during the period multiplied by a time-weighting factor. The time-weighting factor is the number of days that the shares are outstanding as a proportion of the total number of days in the year. The weighted average number of shares is calculated by assuming that the shares have always been in issue. This means that they have been issued at the start of the year presented as the comparative figures.

## 19.2 Diluted earnings per share

## 24.1 Litigation

The Company has various claims and legal actions arising in the ordinary course of business. Management believes that there is a strong defence against such claims and legal actions and is not expected to have a material impact on Company's financial statements. Such claims and legal actions include the following:

(a) January 2019, a competitor filed a writ petition against Government and NBR by which it initially challenged the failure of Government to implement the closing budget speech of the Hon'ble Finance Minister dated 27 June 2018 and reserving low segment for local brands. Thereafter, the competitor instead challenged the exclusion of protection given to local brands of cigarette manufactured by local manufacturers and sought a direction to continue the protection so granted to the local manufacturers of cigarettes in pursuance of a 2017 Special Order. The competitor further challenged the legality of a 2018 Special Order of NBR through which the said protection was revoked. BATB was initially not a party to the writ petition, subsequently it became a party through an addition of party application. Upon hearing on multiple occasions, the High Court (HC) passed judgment in the matter on 21 September 2020. By holding the prospective portion of the 2018 Special Order legal, the court did not allow the discriminatory regime to continue. However, by holding illegal the retrospective portion of the 2018 Special Order, the Court revived the discriminatory regime for only one year, that is from 01 June 2017 to 06 June 2018 and held that any shortfall of revenue under the 2017 Special Order may be recovered from any party or manufacturer during the period of 01 June 2017 to 06 June 2018.

Subsequently, the LTU-VAT issued a Show Cause Notice dated 24 September 2020 following the High Court judgment claiming unpaid VAT & SD of BDT 24,371 million from 01 June 2017 to 06 June 2018. BATB appealed

against the HC Judgment before the Appellate Division and obtained an order of stay. Since High Court judgment is stayed, the LTU proceeding shall also be deemed to have been stayed.

(b) LTU issued a show-cause notice to BATB dated 23 Mar/20 claiming BDT 2,054 crore as VAT & SD for allegedly producing 18 bn extra cigarettes using an undisclosed purchase of local leaf based on Annual Report of 2016 and VAT-1 submission discrepancy. BATB participated in the LTU hearing and the claim was withdrawn post full inquiry on 19 Aug/21 in favor of BATB. On 24 Aug/23, a memo was issued from NBR that they had initiated a re-examination of the matter. As per the VAT Act, revisiting a claim that was previously resolved in favor of the VAT payer must be completed within two years. BATB is challenging the matter via necessary legal proceedings. The matter is sub judice since it is pending before the high court.

## 25 Significant deviations

Earnings per share (EPS) increased from same period last year driven by volume growth, decline in net finance and current tax expenses partially offset by increased cost of sales and operating costs. Net operating cash flow per share (NOCFPS) decreased from same period last year due to receipts from sales offset by higher VAT, SD, HDSC, supplier and tax payments.

## 26 Events after reporting period

There are no other events identified after the date of the statement of financial position which require adjustment or disclosure in the accompanying financial statements.
